## 5 Mountain Men Of Lonely Peak: A Reverse Harem Romance Dizzy Hooper

### Five hot, rugged mountain men. How can I possibly choose?

I never expected to go back to my childhood home on Lonely Peak. But when tragedy struck, I was left with no choice. Now I'm stuck here, all alone in the wilderness, settling my late grandmother's estate.

Well, maybe not all alone...

In the middle of a storm, the power goes out, and who shows up but my teenage crush. Cayden Tucker is just as gorgeous as he was a decade ago, but his time in the military turned the sweet boy I knew into a rock hard alpha man. He left civilization behind and lives as a recluse now.

But it doesn't matter. He smiles at me, and my heart flutters. My blood goes hot.

When he insists I come stay with him, how can I resist?

Only I wasn't counting on the army buddies he lives with in his mountain cabin being just as ripped, just as tempting.

His best friend from junior high, Jax, was a bad boy when I knew him. Turns out, he's still a jerk, but his teasing feels charged now. Carnal.

Then there's cute, nerdy Adam.

Quiet, intense Sergio.

And Deandre, a guy who wears size fourteen shoes, if you know what I mean. His huge hands feel so good on my skin as he tells me to sit back and let him take care of me...

I'm seduced into bed with one of them, then another. Occasionally with more than one man at a time. There's no jealousy. They're happy to share me, and I'm happy to be passed between them. Before I know it, I crave their touch, the peaks of pleasure they bring to my body.

But my body isn't the only thing they touch.

Falling in love with my teenage crush all over again isn't a surprise. But when all five of them find their way into my heart, it seems too good to be true. I've been burned before, and the sting of rejection left me scarred.

Reality looms over our isolated mountain life. I have my job back home and my family to think about, not to mention my reputation. What I'm letting these men do to me is wrong. It's filthy.

And even if it weren't...

A girl can't stay in the wilderness with her five perfect boyfriends forever.

...Or can she?

*A Dec 2018 I'm sick as shit read*

2.5 stars rounded down to 2 stars

It has some tender moments...but there was too much body fluids for me. TOO MUCH. And a complete physical impossibility in the final sex scene.

This was not your average "short, sex filled reverse harem" book. This book had a solid story with complex characters and a wonderful ending. The depth of emotion comes through very well and though I have read this on Kindle Unlimited, it is now on my wish list to buy as I know I will want to re-read this book more than once.

#### **Great read**

This was a good read from start to finish.  
There was some errors but not enough to go bonkers about.  
I wish there was more drama or mystery about her grandmas house or between the ex boyfriend. The guys all seemed to work well and I love how they all just showed up to prove their selves.

I love how the relationship involving jax worked out, he is my favorite by far.

Very steamy and unlikely story about a 5 men, ex military, so brothers in arms, who decide to live together and oh yes, they want to share one women. The h is alone, grieving loss of her grandmother her boyfriend, her art - OMG! and her spirit. Perfect h for the guys to rescue. It is super steamy with lots of one on ones, a hint of M/M action and then it is all together. The h was just too pathetic to rate this higher.

#### **Mini-Review:**

At first, I wasn't going to review the story but you know what? I only read two spelling errors and the rest of the story was fairly solid. It's a story about a woman who felt like she was at the bottom of life and had a hard time believing that she could be happy or in love with five men. It's not a normal situation and it's hard to believe that you can just be given all of the things & love you may need. Totally normal to doubt & fear.

There's just enough story & revelations to give you a solid idea about the key characters.

Life has issues because sometimes it takes work to figure things out. This was a nice, easy story of love that showed how six people can love each other. It's not just sex. It's about sharing time, communication, to roar with anger, shed some tears and dwell in lovely silence. It wasn't a story that blew me away but it was a sweet story about love.

It was a very steamy book, tension for the first couple of chapters. 5 ex-military y men, live together up in the mountains and decide they want to share Haley have their own harem.

Haley is grieving her Grandma and getting over her ex but through that she shows spirit. My favourite men were Jack and Sergio. I just like silent mysterious types and Jax who is an asshole at the start turn out to a really caring person.

The one thing that let it down for me was I would have liked a bit more backstory like on the Grandma and a bit more drama when it comes to the ex, but other than that it was a pretty good read!

#### **Oh so good, and yummy hot**

Ok no spoilers here, but if you like your men hot, sexy, bossy, and hung then this is the book for you. It has steamy scenes, romance, and even a jerk of an ex; it also has a story line about understanding yourself and gaining confidence. So give it a try and see if you don't like it also.

### **Cassandra says**

I really enjoyed reading this book. The dynamic between the heroine and her mountain men was crazy sizzling and just....wow!!! I absolutely devoured this book. Just be prepared to bust out a fan, because this book will leave you hot!!

I will say that I was thrown off by one of the guys, who wants her to call him “Daddy” and he calls her his “little girl”. That’s always been something that creeps me. But that’s a personal preference.
