Beyond A Highland Whisper

Maeve Greyson

Beyond A Highland Whisper Maeve Greyson

The last time Latharn MacKay walked among his kinsman was in Scotland of 1410. Sensuous and charismatic, all the women wanted him, but none could capture his heart. Latharn's charm became his curse when a dark sorceress didn't take rejection well. She snared his soul into a crystal globe until the one woman destined to be his love whispered his release. Now all Latharn has to do is find her and guide her to him without speaking a word. One of the youngest archeologists in St. Louis of 2010, Nessa credits one thing for this achievement: the recurring dream of a heart-stopping Highlander since the summer she turned eighteen years old. Little does she know, he's not some fantasy cooked up by her subconscious. He's a trapped soul determined for Nessa to end his six centuries in hell. Can love prevail over the dark magic of a woman scorned?

This is a new release of a previously published edition.

To See Review at Booked Up

Latharn MacKay was cursed six hundred years ago because he didn't love the witch he bedded. She trapped his soul in a crystal globe until the one woman destined to be his love whispered his release.

Nessa dreamed of a Highlander for many years, but she never believed he might be real. When she receives a grant from the University of Glasgow, she finally gets closer to Latharn. Suddenly she finds out that ghosts, goddesses, witches, and druids exists and the world she knows will never be the same.

Although Nessa breaks the curse, the wicked witch will never let them be together; will they find a way to destroy her?

Despite the fact that I found parts at times boring, it was a good story which I enjoyed. If you want a hot highlander, wicked witches, powerful druids, goddesses, and ghosts, this book won't disappoint you. I rate this book 4 stars.

Lisa says

I won my copy of this book in a Goodreads giveaway. This book was quite a mix of romance, magic, time travel (sort of), mystery. In some sections, the storyline really grabbed and held my attention; other spots, it seemed to drag. In some spots, I felt like I had picked up the middle book in a series. There was history in some of the characters that I had missed out on which could quite honestly be true. This was the first book by Ms. Greyson that I've read. If you get the chance to read, give it a whirl.

Calisa says

I thought I had already reviewed this wonderful book here. Maeve Greyson- what can I say but that I'm a

forever fan of this exciting author! I will follow her work and stalk her blog(s). I used to read historicals a lot in my younger days. But they got old. They were all the same after a while for me. Young lass is forced to wed older rake. Though handsome- there's only so much this independent country gal can take of uber forceful men. I lost interest and hadn't read a historical in many years. Then I picked up friend, Michelle Styles's Gladiator- can't regret that move! Since then I am growing a new appreciation for the genre.

However, Maeve weaves a different type of story than Grams's old historicals. Magic, sorcery, and a hero who can't physically touch his beloved heroine. How the hell can it be a romance then? Because Maeve does a superb job of bringing the reader inside the mystical orb with the hero so that we still feel that these two lovers are destined to be together. I couldn't put it down. I didn't know how or when, but I never doubted that I would be satisfied in the end and I was not let down in the least! READ THIS BOOK no matter what other reviews you read on it!!!!!! And you won't ever see a bad review for this book (unless a total idiot slips out

of their straight jacket and gets hold of a crayon).

Teresa R. Bia says

Satisfying...

I didn't think I'd enjoy this novel so much! Of course, I was wrong. It was great! From romance to steamy loving then onto a lil paranormal. All in it was a very good novel. I'm so glad I decided to read it. Please enjoy..it's worth it.

Maeve Greyson says

Yes. I gave my OWN book 5 stars. Of course I did. If I didn't like my book, I don't think anyone else would either. I've had readers ask me why I haven't rated my books - wanted to know what was wrong with them. I've also had readers inform me that I shouldn't rate my books - stating it isn't right. I'm not sure what the "correct" answer is. After all, nothing in life is black and white --there's gray areas in everything. So, please know when you see my five stars on my books, they're not posted to inflate my ratings or trick anyone. They're posted because I love all my "babies". I hope if you find them pleasant reads - that you'll love my babies too. If you discover you didn't connect to my stories, I'm sorry they weren't your cup of tea and I still wish you nothing but happy reading. :-)

LaVerne Clark says

* 4 1/2 STARS *

I REALLY wish Goodreads would allow a half star with their ratings as this book was so much more than a four-star.

What an exciting premise to a story this was. The magic of the Celts and the romance of a time gone by. A strong hero who'd waited for and found his true love at last, and a lonely woman who thought her dream lover was merely that - a dream.

This book took me out of the everyday and into another world. The author's world was so real, that even the magical elements seemed plausible, and it was a real wrench to tear myself away to deal with my own day-to-day life. I thought about the characters during those enforced moments and now that I've finished the book, I think about them still. That for me, is the mark of a great book.

Blackravens Reviews says

A sexy, Scottish highlander romance with magical elements and a wealth of creativity. Beyond A Highland

Whisper is delightfully charming and very witty. To read the rest of this review, please visit:

Sha Mslvoe says

A new author to me and I'm glad I enjoyed it. From beginning till the end, I couldn't put it down. I skipped lunch just because of this book.

pamela says

Enjoyable read

For fans of time travel, romance, magic and so much more. If you enjoy all of the above with a scottish brogue, then you're sure to like this book

Elaine says

Druids, time travel, hot highlanders... Need I say more? This is actually the fourth book in this series. The other books are written under a different name. I will look that name up if anyone is interested. I am not on my regular computer right now. I did rate the others a 4. I think this one was better.

Update: Maeve Greyson wrote the first three books in this series. They were written under the name Deborah Stigall. I recommend picking them up to read prior to this one.

Claudia says

My first book from Maeve Greyson, Beyond a Highland Whisper was entertaining at times and an interesting read.

Latharn MacKay's success with women brought him only troubles. A powerful witch locked him in a sphere as punishment for rejecting her. His only way out was his true love's desire to save him from his prison. It all started well. The plot had a direction, interesting characters and a lot of magic to keep me entertained. Half way though the read I started wondering when the end will come. Why? Somehow I couldn't like Nessa with all her insecurities that were to much to put up with. So many doubts and I had enough of her. Her friend Trish believed faster Latharn's story and not Nessa....and then when Latharn came out....it all went nowhere. Even Gabriel's presence in the story was forces and his attentions towards Nessa.

I was reading and I had no idea what was happening to the story. After the 3 days sexaton, Nessa remembered she had insecurities...it all felt childish and unnecessary. All this usage of magic and teenage misunderstandings started to grate my nerves.

The end was a "say what?" A naked, erect, Latharn seducing the witch for the grater good....hmmm

The story didn't read as well thought and put together. The romance and character build were not enough and

somehow i couldn't like Latharn and Nessa together. Combine that with a childish plot and the result is a 2.5 star story and 4 babies for the happy couple (scratching head, I guess that will have to do it if one lived in a ball for so long)

Sarah Smith says

I like Latharn Mackay. He is a highlander to his core. When the magic wielding warrior is cursed by an evil sorceress who wants to punish the future Laird for rejecting her. Latharn finds himself trapped in a crystal ball prison. Unable to escape. Unable to die. Unable to communicate with his family. He is Forced to watch his loved ones suffer and die. He must find a way to keep his sanity awaiting the day his true love calls him out of the ball. Latharn strengthens his magic during his captivity and uses those abilities to walk beyond the physical world. During these travels he finds the life force that will eventually become Nessa. His true love. The magical Mackay clan are an unforgettable bunch you will want to read more about. Nessa's friend Trish is another hilarious addition to the story. Latharn is the perfect balance of giant highlander, and loving loyal (Goddess worshiping) Alpha male. Nessa is kick ass. I mean seriously (SPOILERS) She SAVES HERSELF A LOT. :)

Amber says

Entertaining read...But I've never really been into the romance genre. (Although some of those scenes...whew!)

I loved the history in the book. I've never looked into Scottish history and thought it was fascinating.

I am all for a good fantasy read. I used to read about magic and dragons and elves and all that quite a bit. What I didn't like about this book is hard to put into words. The modern day twist on the Scottish mysticism was a little much for me. Every time the pulsing purple light was brought up I wanted skip it. (And it was brought up a lot.) The book would have been much more realistic without Latharn forcing his "energy" out to the shop visitors so often. Didn't enjoy that part one bit for some reason.

Anyway, I don't feel like I lost valuable time reading this book, like I have with so many others. This book did completely entertain me.

SuzyHD says

Truly Loved It 5+*

Wow, this book was a very well written story. The characters were developed very well and came alive more and more with each chapter. From start to finish the storyline holds true, keeping the reader involved and wanting. There will be no disappointment reading this book. Highly recommend.

Nicole McCaffrey says

Excellent story, very well written, compelling characters. A fast read.
