***WARNING MATURE CONTENT* AGE 18+ ONLY!!!**

(If you can't handle rape, murder, torture, graphic violence, graphic sexual content, language, blood, drug use and dirty jokes. This is definitely a book you will NOT want to read)

Now, if you are as sick as Nathan is, enjoy this crazy read!

Nathan Andrews lives the luxurious life of a successful author. His charms and humor capture the ladies, and his gruesome tales grip his male audience. When he finds himself in trouble, he runs away to his lake house where his darkest secrets come to life. All monsters have to look respectable for their unfortunate victims...

From Reader Review Deadly Dominance for online ebook

A.A. Dark says

This book!! OMG, Nathan was everything I look for in a book boyfriend. He isn't your typical hero/anti-hero, he is so much more. He is brutal, he is a killer, and he doesn't apologize for it.

Deadly Dominance was a refreshing read for me. I haven't been so sucked into a book in a while and DD definitely kept me clutching my Kindle. I had to know what happened next. I couldn't put it down!

If you're looking for read that will suck you in and keep you racing to the next page, Deadly Dominance is for you! And those erotic scenes.....HOLY SHIT! This is what dark is all about.

'Q' aka CoCo says

It was crazy, it was gory, and in between, it was strangely sexy at times. It was exactly as I thought it would be.

Nathan is as disturbed as the characters he writes about in his horror novels because...well, they're true accounts of his life, after all! He goes to his vacation home on the lake to get away from it all and to get rid of some *ahem* evidence, but there are some annoying college aged neighbors partying it up next door. What to do, what to do...

What follows is what you'd expect in an erotic horror, and it's pretty gruesome. It could've used a good proofread--robes switch colors, blood is drawled, etc--but I enjoyed the characters and Reese's writing style.

Jamie says

Let me tell you about Deadly Dominance! HOLY SHIT!!!

WARNING: This book is NOT for the faint of heart or stomach! It is DaRk, it is TwIsTeD it is SEXY! But not in the, 'Oh baby, harder!' sexy that readers who want rainbows and unicorns will like.

This book has an old, horror vibe to it, that I really hopes sticks throughout the series. Nathan is basically confessing to the world, in his dark and dirty words, the torture he gets off on. He is nasty, disturbing, evil and utterly beautiful in his work. You get to see what it's like to live through the eyes of a psychopath, to see how he feels, what he thinks. Has Nathan met his match in Adrianna?

I flinched, I gringed and I yelped while reading this beautifully descriptive tale. I was stunned silent at the very end, I was left panting for the next installment! If you're looking for something dark and extremely fucked up, Deadly Dominance is for you!

Michelle says

WoW I am not sure what I just read but I really enjoyed it !

Adam Reese ~ a brand new author to me and his style of writing is dark, twisted, erotic and every kind of messed up and takes you deep into the story.

I am really struggling with this review and not doing it justice at all ~

If like me you enjoy a taboo gore horror twister read then one click this book Now!!! I am already waiting for book 2 in this series.

Side note : Not for the squeamish this book contains a lot of blood and brutal sexual acts.

Di Covey says

This book left a dark, tangy feel in my mouth.

Horror, gore filled craziness!

You all know I love my dark books, so I'm giving you my warning. You won't find any romance this one, if your looking for redeeming qualities, you won't find that either. If you like date nights with psychopaths, well then, hop on.

Nathan is a writer by day, lunatic by night. Are his books one of imagination or based off true events? Four friends on vacation, I think. Have rented the house next door. Meeting Nathan is their worst nightmare. One is a fan of his writing and won't stop until she's brought his words to life. Don't enter the dungeon, if you can't handle the chains, kids. Don't go knocking on a stranger's door, you never know what hides in their basement. He's one sick mofo, no fucks given. His appetite exceeds some of the most darkest characters I've read. (Don't say I didn't warn you.)

"Many people have called me insane, a sadist, or a psycho. Each name is only a word labeling my addiction of sexual torture. The same demon pressing at me every night before I go to sleep."

Flashbacks gave me the start of his wickedness. Are some born evil or a product of society? Each character had a secret or hidden agenda, flawed in one way or another, I wanted from a connection to at least one of them. Although I love a great serial killer, I feel like something was missing with Nathan. Probably because he's far too gone to come back. Which is funny, because I get a kick out of crazy. But that little Angel on my shoulder is always looking for something redeemable. I wondered if Nathan slathered animals in his youth. I'm simply intrigued, I want to know all the details about this character. This is a bite size piece of Nathan, it certainly packs a punch, but I'd love a full-length novel. I'd like to delve deeper into his psyche.

I'd classify this as pitch black. You might need therapy when you finish.

Donna Owens says

OMG

I gave Deadly Dominace 5 stars because they would let me give more this is a 100 star book in my opinion it had me from being to end and left me wanting more I so can't wait to read more from this author

Dusti Hanrahan says

Shit! This was wild- I need to think before I rate/review.

Espresso-Girls Just Wanna Have Books ; A Mafia Romance says

Erotic horror at its best!!! Oh m'gosh! I wasn't sure what to expect. However, whatever I assumed would be in the pages of this lovely piece of literature is NOTHING compared to what is ACTUALLY written in this bad boy!! This story sucks you in from page one and the roller coaster is nonstop until the very last word on the last page! Only an artist/author/dark genius has the talent to word porn and engage the reader from page one!

Nathan. Such a sweet innocent, non-descript, run of the mill dorky name. Don't let the name fool ya! Dude makes psychopaths look like high school cheerleaders! To be fair Nathan endured a messed up childhood and after a particular childhood incident, a sexual deviant/murderer is born! It's so amusing to read Nathan believes there is no one in the world like him.....uh yeah. Hold tight readers, the freaks really do come out at night!

Five amazing stars as I stayed up to the wee hours of the morning to finish this bad boy! There's something about Nathan that's soooooo hot! Read it. Absorb it. I'm sure if you're honest, you'll experience the feels as well!

This book is erotic HORROR. If you are a sensitive reader, DO NOT proceed. Do not pass go. Do not collect \$200. This book is for mature adults only who appreciate the darkest end of the dark spectrum. The cover is a dead giveaway. Do not attempt to read this book if you're not open to horror. It is NOT fair to flay the author of this work because you did not adhere to the warning and proceeded to read! Trolls suck and if you're mad, then you've been pegged!

Ashleigh Giannoccaro says

There is something special about 'old school' horror movies, you know that kids in the woods story that has your hackles up and makes you want to yell "DONT OPEN THE DOOR." Well I got that same feeling reading this. The unique inner voice of Nathan combined with that horror feeling make for a very unique DARK read.

We have Nathan an author who writes torrid tales and has secrets buried so deep you will want a shovel to

dig them all out. His stories are more truth than lies and his blood lust (and lust lust because let's just say he's hot as F) makes for a fabulous start to the story of a psychopath. I adore mentally screwed up characters, and I have added Nathan to my list of hot crazy people.

This is a novella and the start of a series I look forward to exploring. It is DARK, it is SEXY, there is lots of BLOOD and things that will make you clench your butt cheeks so read the WARNING first. Overall a fantastic debut in this genre and I look forward to more (that is secret code for you had better be writing Adam)

** Beta Read

Danielle Harris says

Disturbingly Sexy

Deadly Dominance is definitely a must read if your into erotic horror. This is a book you don't want to miss. Can't wait for book two.

Tanya from Get Your Book On says

I started this story at the beginning of the week and after reading the first few chapters I wasn't sure about it. To be perfectly honest, I was kind of afraid of going further, but I'm glad I did.

Okay this is honestly the darkest, sickest, most disturbing story I have EVER read in my life. And I've read a lot of books. But for some reason, I was completely captivated by Nathan and his twisted inner desires.

This is definitely not a romance, it's erotic horror at it's best. When you finish reading it you won't have a case of 'the feels' or 'the warm fuzzies.' If you're anything like me, your heart will be racing, and your mind reeling. Feelings similar to what you'd experience after watching a really scary movie.

If I had to summarize what this story was like, this is the closest I could come up with. If the show Dexter and the movie Saw had a baby, Deadly Dominance would be their love child. Although Nathan makes Dexter look like a prude.

Adam thank you for introducing me to the truly DARK side. Now I need to get my hands on the sequel.

Tanaka K says

Holy Moly, this book was on another level. What the absolutely fuck did I just read? What did I just put myself into? Only crazy people read books like this. Actually people who are whacked in the brain read books like this. Well now, I am now part of the whacked group of people who absolutely love Deadly Dominance. This book was just on a different stratosphere and I was left flabbergasted. Actually more like I was just in disbelief.

Deadly Dominance was a wild ride. I could not believe what was happening in this book at all. This book is a

horror. It is not for the faint hearted. It is not a romance nor a book about unicorns dancing on rainbows. No this book is dark in its darkest form. It has situations that will make you cower and bring you nightmares. My limits were definitely tested when I was reading this book. But holy smokes, it was amazing. It was just purely dark and horror perfection. This is my first time reading horror of this magnitude and I was just left with such awe. You know this book reminded me of this scene in American Horror Story: Hotel where Lady Gaga's and Matt Bomer's character in a very a bloody scene. It was gruesome. This book was gruesome. But hey I am insane and I love insane things like these.

Nathan is a sick man. Very sick man but wow I loved him. He reminded me of Jason lol. Friday the 13th. Yes that Jason. He was so vivid and scary as hell. I even shook my head at most his scenes and I was just mesmerized and cringing at the same time. Yep, I am definitely been given the shock in my reading life ever. Wow. I am amazed.

I cannot wait what the next chapter of this series becomes. Its going to be awesome.

***~* Susie says**

I finished it. That's about all I can say.

Mandie (Naughty Book Snitch) says

Heat Level: Horror. There is sex, but I'm not rating that

Overall: 4 out of 5 stars

BUY THE BOOK

WOW! I feel like I could murder some people right about now. I really like this. :)

This is pretty fucked up and so very good. It also makes me think twice about some of the books I've read. LOL! So.... is your browsing history on your computer really just research for writing? ;) Or are they resources for true stories?

Anyway, this book starts off with one of the hottest sex scenes I have ever read. **Bravo!** It was hard, hot and dirty and I loved it. Then we get a little bit deeper into Nathans head and see a glimpse of the darkness that is just below the surface. Then all of the sudden..... *(sorry, can't reveal secrets here)*

So, Nathan hops in his car and heads to one of his secluded and peaceful homes. When he arrives, he finds there are a bunch of annoying people hanging out at his neighbors house. There is one girl that catches his eye and that is Adrianna. She is a huge fan of Nathan's books and invites him to join them for dinner. Sure

why not...

"This would be my first time wanting to slaughter a reader, but then again, I can pretend she's one of those cranky ass reviewers that think they are literary gods."

While there, Nathan meets Mandy, Bo and Cory. Typical, snotty college brats. You know the type... the ones that are first to die in a horror movie because they went and had sex in the woods and they never return. They question Nathan about the controversial content of his books.

Don't poke the bear kids... you just might get bitten. Anyway, Nathan has things he needs to do and things he needs to bury. While he is taking care of business, he stumbles across a scene between Mandy and Bo.... in the woods. Nathan is immediately intrigued by Mandy and the scene unfolding before him. Maybe she isn't as innocent as she pretends.

"I try to keep the beast tamed, but self-control is no longer on my side."

"Eventually nightmares become reality, and I am the one that harnessed them. I embrace them to create the monster I am today."

This is pretty much where the darkness really comes to light. It's like a Tender date gone terribly wrong and now you're stuck with the Boogeyman.

"I'm going to enjoy everything that you're about to hate."

"There is nothing that can bring me back from Lucifer's playground."

Why 4 stars? Meh, I had little issues with some things. Like some wrong words in sentences, not a lot, but enough to notice. Spelled correctly, but missed by spell check (*final* vs *Finally*). Also, if this many people have gone missing... there are a lot of careless mistakes being made. Seriously... don't shit where you eat. It's too close to home. Also, how is it that Nathan can find the g-spot every single time on different women. He

must have some serious skills.

Overall, I really liked it. It was shocking, different and cringe worthy and times it made me want to vomit. Exactly what I needed at the moment. I'm warning you though, there is extreme violence and possible triggers for some people. If you're a fan of horror than you will love this. I cant wait to read more from these authors.

"Tomorrow we will watch the world burn."

Tiffany Landers says

Revised Review

I struggled all night and all day today about this review I wrote last night. As a blogger, editor, PA, reader, MOM .. you get it .. I try to be a little cautious in the way I write my reviews, which causes me to hold back pertinent information from you, who is reading this review. So, I am going all out because I did not give this story the credit it deserved and if you're offended, my apologies, but we are supposed to write honest reviews, right? Right.

My jaw is still open!!! This book, Deadly Dominance, took me to a new level of "I need something different to read!" I sometimes scan and scan my Kindle looking for that one story that is different than all the rest. I am lucky every once in a while. I struck gold with this one.

There has been some controversy over this story. I get it. I'm not usually a horror reader, either, unless it's Patricia Arnette/P Mattern (well, who doesn't love her work?). I picked up Deadly Dominance with a little trepidation and a lot of curiosity because of the different ways other readers have perceived it. I am one who needs to form my own opinion, so this is what Deadly Dominance did to me.

In an erotic, horrific way, this book caused my panties to drop, just as quickly as my jaw did. Yep! I'm not lying. There's only one other author who has done that to me and she is the wonderful Jennifer Sage. Yes ... Nathan is a twisted man, but he's calm, collected, witty and downright interesting.

As I read this book, I couldn't f***ing BELIEVE my body's response to such an intense, gory, erotic, horror novel!! What. Did. I. Just. Read? Wow! The authors threw me into a tailspin, wondering to myself, "What does it say about me that I was actually sexually excited when reading this story?" Yes. I wondered that and still wonder that even now. How could a story like this do that to me???

I don't know if any of you have ever read Terry Goodkind's Sword of Truth series, but I have and it is fantabulous!! Which is exactly what this story did for me - it made me remember that awesome several books (huge books) series by Terry Goodkind and I can only equate the authors writing to that standard of excellence. Is it for everyone? No. Was it for me? Hell, yes! I didn't want to write this review. I didn't want to come out and admit how much this story affected me, but the more I thought about it, the more wrong I felt inside about not giving the authors the proper credit for this crazy, wonderful story ... and I can't WAIT for book two.

So, give it a try. If you like a dark novel, this is probably, definitely, for you. I give high kudos to the writers who had the courage to come out and write such a story! You can just keep my panties I lost in this book because I don't imagine I'm going to be needing them when I read book two, Deadly Demons, releasing on Halloween 2016.

First Review

I really connected with a few of the quotes written in this story:

"We talked for hours about the first time we met and the possibilities of living the white picket fence perfect life."

Yeah. I get that. I spent my life trying to live the socially approved lifestyle, but I'm finally free of that stifling pettiness and I'm happy to be me, which is the very reason I decided to revise this review and to write what I truly felt, rather than what is socially acceptable. <3

"When you read words someone else has written, you can't help but instantly connect to that person. You know through the darkness in their words that they're just as fucked up as you."

Oddly, there were some things I could relate to in this story and I felt very connected to the author's words. When a writer can cause me to stop and think, "They've lived this life before; these words are true," that's when I know I've found a diamond in the rough in the writing artist. I feel I've found exactly that with the authors in this story and I encourage you to read it ... if you're not afraid of the dark, the gore, and the details of brutal and fascinating sex or death scenes ... go for it! This book was a fantastic read and I recommend it.
