Diamonds in the dust

I found this book very predictable, boring and most repetitive.
This would be more in line for a young teenager to read.

Maggie Kiely says

This is about the three Bentley children Dora aged 18 Tom who is 12 and young Lilly who live in 1920's London and are used to looking after themselves. Their father was killed in the Great War and their widowed mother has been forced to take a night job at Grant's clothing factory to support the family. This means that Mrs Bentley only sees the children at breakfast and on Sundays. Dora is nearly 18 with a job and adequately takes care of her younger siblings. Then one morning their mother did not come for breakfast. Dora goes to Grant's Clothing and they tell her that Harriet Bentley never worked there and they do not have a night shift. They know their mother would not desert them They ask for help from a neighbour who used to be in the Police Force but is now at home having been injured in the Great War. The story moves forward at a nice pace and I did enjoy it and would recommend it as a nice easy read.

Marilyn says

A very clean cut mystery story.c

It was a good read, easy to follow the story line. Would have been nice to add about the mother's life before her death. A little more spice about the inlaws. Like the story theme.

Caroline Broderick says

Really good premise for a story with a good outline of a plot (a missing person story that encompasses post war London's feelings about family, disability, class etc.) but just didn't... feel right. It started too abruptly, threw in a few random poorly explained characters and seemed very repetitive at some points. not a bad read but falls short of being great.

Gemma Frogley says

Loved it

A really good story with a bit of romance, very enjoyable. I would recommend to anyone who enjoys

historical fiction.

Diane Young says

One of the most enjoyable novels I have read I enjoyed the characters and the suspense. If I could rate 10 STARS I would.

I think Beryl Matthews is
an excellent writer and author, glad I found her so I can read her books .

Margaret Higgins says

this should be listed as a YA book, not what i thought, but it was good enough to finish

Jenny says

Simple and somewhat juvenile.

Gracefulshrimp says

I really liked this book though I felt the last 2 pages were a bit rushed feeling. but still awesome!

Charmaine Saliba says

I really enjoyed Diamond in the Dust. A heart-breaking novel of lost, secrets, lies and hope. This novel is set in London in 1920. I like the author's writing style and the way she deals with the consequences of the Great War.

Dora and her brother Tom and sister Lily were worried when their mother haven't show for breakfast. At first, they thought that she was held at work, but when Dora went to the factory the owner told her that they do not have night shift. Dora was confused, why their mother would lie? And more importantly, where was she?

Confused and scared the kids ask help to their neighbour Stan a former policeman. Stan has his problems, he had survived the Great War but had came back injured. Not being able to turn them down he promised them to help them. As days go by it was clear to Stan that Mrs Bentley is not who she claims to be, he is considering if it will be wise to leave things as they are.

Lisa Humphries says

I read to the end because I wanted to know what happened to the mother, but that was the only reason. The writing was amateurish and clunky, and quite repetitive. Unlikely characters, especially the 12 year old. The storyline about the mother ended up being more of a backdrop. Predictable ending. Overall disappointing and I wouldn't read anything by this author again.

Jill says

Predictable but I really enjoyed reading this one. The characters were likeable and engaging and the story plot developed at a good pace. I think you'd have to be a bit slow to not predict the outcome of the storylines but it was no less enjoyable for that.

Becca King says

I actually really liked this book, I just happened upon it at my local library. I love how is a nice, clean book that still deals with love. I would be anxious to read a second book and see how the children faired entering a new phase in their lives.

Anita says

This book takes place in London in 1920 while the country is recovering from the affects of World War I. I think the author couldn't decide if the book was supposed to be a mystery or a social commentary, or a romance. It's a little of all of these things. When the Bently children's mother doesn't return from work, the children go to her work to ask for her only to find out that she never worked there. The children enlist the help of their neighbor an ex-policeman who was injured in the war.

Cindi Boselli says**Sweet and happy ending**

Quick read. Lots of wonderful character s and good came at the end. Enjoy this author very much. Read on one rainy cold day but warmed your heart.
