Lindsay says

This story was perfect for my Father's Day-themed Spanish and bilingual story time programs. It's short, sweet, and has a funny ending. I actually translated it as a I read it since it's a very simple story. I had the kids say "Just like daddy" every time the story repeated the phrase. I think the story could even be done with props, such as a pillow and a blanket, bar of soap and washcloth, bowl, flower, fishing pole, etc. I will definitely think about using this story with props next year.

Andrea Retana says

I think this would be a great book to use on Father's Day or to talk about role models. The bear in the book looks up to his Father and wants to be like him. I think this book would be good for Kindergarten. This book is tied into sequencing however, at the end of the book, the line changes to "Just like Mommy" allowing students to extend the book on their own.

Danielle Desmarais says

Fun book I found that is simple for children to read and follow along with. Also gives great opportunity to ask questions about picture relationships in the book. Comes in big-book size, great for read-alouds that children can read-along with.

1st grade reading level.

Orion Kopf says

I heard this one at story time and thought it was pretty cute. Mom laughed at a joke at the end but I dunno what was so funny.

Danette says

3/69/17 Read with Naomi & Julia.

Katie Bruff says

A story about a father and son doing all of the same activities. His son looks up to him, and wants to do everything his daddy does. They go fishing, picking flowers for mom, and just spending quality time

together. At the end of the book, it shows a picture of mom catching a fish just like daddy would. This book encourages young kids to spend time with their families and look up to their parents everyday.

Diressa Belcher says

Baby Bear imitates his father's actions. Baby Bear yawns, dresses, eats, fishes and uses bait just like his father. The book has a humorous twist. He catches a big fish like his mother!

"Just like Daddy" uses the elements of repetition and imagery. Students are able to see the phrase, "just like daddy," multiple times. In addition they are able to use the pictures to describe what is happening in the pictures.

In terms of literacy I plan to read this book during the first week of school. After the lesson I will ask students to complete a family tree. I will ask them to describe who they act like in their family. I will have to be sensitive to the fact that some children may not live with their biological parents. I will address this notion by saying; "It's ok if you do not live with your biological parents because we all act like someone in our home." I will ask students to use lots of descriptions in their writing.

Hae Sun says

This was an easy read book about how a little bear did everything just like his daddy. But don't be fooled, there is a twist at the end of this story. I used this book as a writing tool to teach students that they can create stories that are unpredictable with a twist in their endings. Using key things like repetition was a way students could try to predict the ending but then changing it.

MJ says

Alissa loved the fishing parts.

Jamie says

In this story, a young bear does everything just like his daddy. He eats a big breakfast, and puts on his coat and boots, just like his daddy. The whole family goes fishing, and finally the young bear catches a big fish...just like mommy!

The illustrations for this book are very clear and colorful paintings. The bears all look very friendly, and it is clear in the illustrations that the young bear is thrilled to do things just like his daddy.

This story is best suited for a one-on-one reading environment. Young children will love hearing about a young bear who wants to be just like his daddy. This is a fun book that children can relate to.

Susan Foster says

One of my favorite books for story time. Nice "twist" at the end. :)

Asho says

My two-year-old fell in love with this book after we checked it out from the library. Every night at story time for at least two weeks he would pull it out of his book bin shouting "Beaws! Beaws!" It definitely works as a simple bedtime story with many familiar objects to point out in the pictures. My son loved pointing out the boots, the bird, and the fish. The little twist at the end was lost on him, but I thought it was really cute. This book has the repetition that is appealing to small children and also makes for a good easy-reader, so I'll have to keep it in mind when we reach that stage in a few years.

Kira Richardson says

Great easy early read for children. Lots of repetition and big words makes this an easy book for young readers to enjoy on their own. The illustrations and story line allows for many text to self connections between students and their parents.

Ms. Jeane says

My all time favorite book to read during Father's Day! <3

Kristin Hamrock says

This is a great, easy book for children to read. There are a lot of repeating phrases that children like to say during read-aloud. Many text-to-self connections can be made with the child and his daddy as their day is described.
