Kathy says

Good kids' book

Bookreeper says

Nice detailed book with beautiful illustrations and a good collection of mythical medieval stories.

See the book here:

Chris says

Geared mostly for YA, *Knights* presents stories intermixed with details about actual medieval knight hood. The stories are either Arthurian or Germanic. It's not a bad book, but there are better ones out there.

Maksim says

Nice short introduction of medieval knights and the myths surrounding them

Mike (the Paladin) says

This isn't a bad book. If you're looking for a book with short versions of most of the well known "Knight Stories" this is it. Galahad, or Tristam, Parzifal, or Siegfried... You'll also find Saint George and The Cid. It's a pretty good book and a nice read. Have fun.

Jason M Waltz says

took a bit to finish this one, but that's not due to the book--I began by reading this aloud to my daughters but with one thing or another I didn't finish it till now.

enjoyable, beautiful, worth a look-see, especially if you plan on reading it with the kids. a nicely compiled collection of abbreviated legendary tales of knights and nonfiction knightly stuff. from Siegfried to George to Cid, with colored art throughout, and b&w sketchings of things like sword and armor parts. some myths are simplified a bit too much imho, but the collective works very well to introduce new or even encourage existing fans of chivalry, swords, knights, Arthur. I liked it, but it barely doesn't make the Keeper cut in my newly consolidating library.

Barbi Faye (The Book Fae) says

Brave and chivalrous, this book explores popular and enduring stories and full color pictures of knights of the Middle Ages, and draws upon Arthurian and European legends. The knights that are featured in depth in paintings in full and double page spreads and text are; Arthur, Sigfried, Parzifal, The Cid, Roland, Sir Gawain, Sir Gareth, Sir Tristam, Sir Lancelot, Sir Galahad, and Lohengrin. It also shows examples of medieval life; the swordsmith's, squires, the castle, falconry, courtly love, and tournaments.

The epic art, the talented artists that have created this luxurious book is so good as to not be believed. This art is why I love fantasy so much, is why medieval sings to me. The tales and text are full and encompassing, a solid four and a half star read. I loved it.
