I've never read a Willow Rose book before. I was expecting horror and it turned out to be one of the funniest books I've ever read. Totally off the wall. It reminded me of the movie Very Bad Things. People being killed left and right for whatever ridiculous reason that pop's into their head's. The book should have been named Psycho Killer On The Loose. It's not at all what I was expecting but I'm very glad that I read it. It was a lot of fun.

This was an epically weird novella and I'm just loving Willow Rose's books more with each one I read. It's hard to explain the plot without giving spoilers away but it's sufficient to say that Mum has a raging case of OCD and has more than a few kangaroos in the top paddock. (Lol. Aussies will understand this!) Even right up until the end you're left thinking "Well ... is she or isn't she?" One of my best reads this year.

"A Horror Story Better Than Hitchcock's"

This is a novella well presented by the Queen of Scream, Willow Rose. She's known for mind-spinning thrillers and you can be assured this is an awesome spine-chiller. I love her stories ... they are so tense and I get drawn into them so quickly, not able to put them down. Highly recommend.

Rock-A-Bye Baby by Willow Rose was an interesting read. A bit dark humor, a bit psychological thriller. I couldn't help but think of John Waters Serial Mom suffering from postpartum depression whilst reading this little gem. I have quite a few Willow Rose books in my Kindle library but this is my first read by this author. I've been looking forward to finally getting around to reading one of her books and believe this was a good choice to start. Very entertaining, fast paced and a surprise ending. I really do enjoy this genre when you are able to chuckle a bit...and there was no shortage of that throughout. Recommend if your looking for a fun quick read.

Gruesome read

I love Willow Rose books and this book focuses on Lisa who is a regular in the Rebekka Franks books. She is the female, Hannibal Lecter. She is a true psychopath and its amazing she is never caught. Short, sharp shock of a book. Pleasant dreams.

Oh Baby

This is the second read I have experienced from Ms. Rose. That woman has a twisted mind. These stories are definitely strange. I must enjoy them because I am doing a book marathon.

Please note. This is a novella .

creepy quick read about a obsessive compulsive psychotic woman who has a lot of issues. if you do something she doesnt like you better watch your back!!!! eventually a major thing is disclosed that explains a lot about the main character. i realized that there were some signs on it throughout the book so i actually picked up on it before the great reveal, though i had hoped i was wrong, turns out i wasnt and then it all starts

to make sense why she is this way.

Mama is off her rocker...

Lisa is a stay at home mom to her 2 children and has just given birth to her third child, a girl named Josephine. When the story starts out, the baby is 3 months old. Lisa is so attached to the baby that she takes her everywhere she goes. Lisa comes across as a person that is obsessive compulsive in her behavior as she will not tolerate any type of mistake from anyone. To her, everything must be perfect all of the time. If you are unfortunate enough to make a mistake around her, you will definitely pay for the mistake in a very gruesome way. Yep, you guessed it...mama is a real loony tune. I won't say anymore because I don't want to ruin the story for you. It is definitely worth reading the whole story for your self. You will be surprised at the end.

'Rock-A-Bye Baby' was another great example of Willow Rose's demented, yet awesome, mind. She comes up with the best stories. This quick read was one of those books that pulled me in and shocked the \$hit out of me. Lisa is a neat freak, OCD to the max mother that will not tolerate mistakes of any kind. I absolutely loved this horror story. I always know I will be in for a treat when it comes to Willow Rose and her books. A great add to your tbr list.

I don't know how to describe this book. I kept thinking how can this woman keep getting away with this stuff. Just one think after the other , she doesn't just let up on revenge. You may need a strong stomach when you read what she does for that revenge. Her main focus is on her baby. She always has her baby with her. The ending wow , I really didn't think of this. Can't say anymore or I will give it all away. Crazy book with lots going on.

Amalie Rasmussen (Lisa's daughter) is her name.
Lisa went to see Mr. Berendsen (math teacher) because Amalie is flunking math.

Karrebaeksminde (city). The other family members are: Christian (husband/father), Jacob (son/brother), & Josephine (baby).

Rebekka Franck (BFF, Zeeland Times reporter) has reported at least to gory murders.

I did not receive any type of compensation for reading & reviewing this book. While I receive free books from publishers & authors, I am under no obligation to write a positive review. Only an honest one.

A very awesome book cover, great font & writing style. A fairly well written horror book. It wasn't always very easy for me to read/follow from start/finish, but never a dull moment. There were no grammar/typo errors, nor any repetitive or out of line sequence sentences. Lots of exciting scenarios, with several twists/turns & a great set of unique characters to keep track of. This could also make another great horror movie, or better yet a mini TV series. To be continued. It wasn't as gory as I like them so I will only rate it at 3/5 stars.
