**NEVER TRUST A CELEBRITY...**

**Feisty. Ferocious. Fabulous.**

Mina Sinclair is used to going it alone. In fact, she and her son are much better off now that her douchebag ex is out of the picture. Sure, money is tight...but that will change if Mina wins a prestigious cooking competition. There's only one thing standing in the way of her dreams - Gavin Rothe.

**Talented. Successful. Insufferable.**

Gavin Rothe has made a name for himself as a celebrity chef. He's also made a name for himself as a hard-partying, arrogant ladies' man. He's not about to let some ballsy know-it-all contestant on a cooking show get under his skin...but God, does Mina ever get under his skin! Gavin hates her almost as much as she hates him...so why can't he stop thinking about her?

*\*This is a full-length, standalone romance novel that contains explicit adult situations.*

**Awesome read**

I like this book. it was easy to fall in love with the characters and fast paced. I cannot wait to read book 2.

**Deborah says**

Very good book just wish it were longer. This story deserves a full length novel.

**Christy says**

The story was good for the first in a serial; it definitely left me wondering what would happen next, and the teaser excerpt for the second in the trilogy was a great cliffhanger that made me want to buy the next installment immediately. As a stand alone, it was only 2.5 stars. The story was okay but not particularly engaging. I liked the characters a lot, but ultimately, I won't finish the series . . . I think.

**I'm looking...**

forward to the rest of the series. I really enjoyed the female lead character. Mina has spunk and I am going to look for more fireworks with Gavin.

This is the very first book of Octavia Wildwoods that i have read and i am looking forward to reading more from her.

The story between Gavin and Mina is snarky and romantic. Starting out as friends with benefits due to the traumatic pasts of these two leads to more!! Love the banter with Joel and i also love that her pverbearing mother loves them to no end

Got this as a free book. I'll admit I was intrigued with the first few chapters. And kept going. Once again, instant romance in a book... Pretty far fetched scenarios - but I kept going. And then I bought the next two books. If you're looking for a quick fun, read with a fairytale, this one's for you.
