Sunset Heat

Lexxie Couper

Sunset Heat Lexxie Couper

Kennedy never expected to run into Luke, the hot Australian firefighter she had a mind-blowing one-night stand with four months ago, on the tropical island where she's now the official resort photographer. Even more surprising is how equally turned on she is by his hunky British cousin, Addison.

Finding the feisty, flirty American he met at a New York bar is a surprise for Luke. Even more surprising is how he can't stop thinking about sharing the woman of his dreams with his cousin.

Always the player, Addison invited himself along on his cousin's weekend away at the sinfully hot Bandicoot resort looking for some fun. But how can he tell his cousin they're interested in the same woman? And that he doesn't only want her body?

Each book in the Bandicoot Cove series is a standalone story that can be enjoyed out of order.

Series Order:

Book #1 Tropical Sin

Book #2 Paradise Found

Book #3 Island Idyll

Book #4 Sunlit Surrender

Book #5 Sunset Heat

Book #6 Moonlight Mirage

Jenn - Reviews says

3.5 Stars.

This is the second book in a series (the first being Tropical Sin which was great) and was quite a good read. It focuses on two cousins who fall in love with the same woman. All three of them struggle with their situation as the cousins are close and don't want the other to get hurt. Kennedy, the woman, takes some time to finally decide which man she wants. One of them will be deeply hurt.

I especially liked reading about the characters in the first book who were present in this one. MacKenzie and Auden are getting married and the three main characters are guests at this wedding.

Fran says

The opening scene with the butterfly was really funny. That was the highlight for me. The rest of the story was ok, with Kennedy trying to figure out what she wanted from Addison and Luke. 2.5*

Crystal says

I wanted to love this one as much as the others, but I just couldn't. Luke was AMAZING, but I hated Kennedy at the end of the novella. It's hot, and sexy, but just left me unhappy.

Christine Frieske-Miller says

Seriously, can there be anything sexier than a Brit and an Australian in a menage. Whew! I thought this was a really good story about Luke, Kendall and Addison. It's a short novella, so there isn't a lot of depth to the story, but it was a good, hot read. Luke and Kendall have met 4 months ago in NY. When they turn up at the same wedding in Australia, their chemistry is still as hot as it was the night of their one night stand. Kendall is also attracted to Addison and they decide to embark on a hot night together. When it's over, Luke is torn up and doesn't want to share Kendall. Can Kendall choose between the two of them? Talk about a hard choice! This was an enjoyable quick read.

Guilty Pleasures Book Reviews says

Carys' review posted on Guilty Pleasures

Who would of thought an encounter with a butterfly could bring you face to face with your very own hero and your knight in shining armor. Kennedy is faced with the choice of having hunky fireman, Luke, or gorgeous Addison. But why choose one when you can have them both, or can she?

Kennedy is a feisty American who is trying to find her place in life. She is trying to forget her one night stand in New York and come to terms with her kinky fantasies. She is like any woman trying to find a balance in what she really wants and what is expected of her. Australian Luke is a sweetheart who is trying to resist his urges and being confused by new ones. I love his honesty to himself and that he misses signs just like the rest of us do. And the stunning British rake, Addison doesn't disappoint. I loved seeing him evolve from the fun loving devil may care man into something more. These three are a treat to get to know, and oh so sinful.

Carol [Goodreads Addict] says

Sunset Heat is book two in the Bandicoot Cove: The Wedding series by Lexxie Couper.

Four months ago Luke Beasley had been in New York and met Kennedy Collins in a bar. They had an earth shattering night together, shared a connection that Luke had never felt before. But while he was in the shower, Kennedy ran. He has spent the last four months dreaming about her, but had no idea how to find her. He's back home in Australia. It's Mack and Aidan's wedding at Bandicoot Cove and Luke is the best man. His plus one is his cousin Addison Lancaster. But, it's the brand new hotel photographer that took his breath away, because it was the very fantasy of the last four months, Kennedy.

Four months ago Kennedy had just been dumped from a three year relationship for being too kinky. She was trying to drink away her troubles when she met the sexy Aussie, Luke. He was just supposed to be rebound guy, but she knew deep down he was more. So, she ran. Now she has this fabulous new job in Australia as photographer at Bandicoot Cove. She doesn't need complications.

Kennedy is deathly afraid of butterflies, it's a true phobia. And when she is in full throttle panic mode running out of her suite to escape a killer butterfly, there he is, the center of every erotic dream she has had for the last four months. But right next to him is another seriously hot guy who she later realizes is his cousin, Addison.

Addison Lancaster grew up in England but he and Luke are more like brothers than cousins. When he first saw Kennedy in full on panic mode, he can't believe his response to her. It's nothing he has ever experienced before. It's obvious, though, that there is some sort of history between Luke and Kennedy. It's Kennedy who finally voices what they are all thinking, that maybe they could all three be together, a menage.

It's funny that it takes sharing a woman with your best friend to bring clarity but that's exactly what happened. Luke knows he's in love. But who will Kennedy choose?

"Trust me. There's something about this island that seems to know what the heart needs."

This was such a sweet story. Of course the steamy scenes were scorching. But these three characters were so easy to love. Lexxie Couper is such an amazing author and I have loved everything I've read of hers so far! Once again, I have thoroughly enjoyed my visit to Bandicoot Cove on Bilby Island. I hope you'll get a chance to visit there soon as well.

RaeLatte says

A M/M/F novella of one woman's journey to find love. Take a trip to a tropical island where she will encounter two men who will change her forever and force her hand at what she truly needs.

An intense relationship that sings the pages.

Part of a series that can be read as a standalone.

Army-mom says

2 alpha males fall for the same female and one wins.

April says

Thanks to netgalley.com for the copy of this book.

Oh Kennedy, why would you walk out on steaming hot Luke?? So happy that thier crossed again on this perfect island destination. It is a fun story on how they meet up again and add in a hot cousin well now we have some more drama!

Heather in FL says

What are the odds that the Aussie you had a one-night-stand in New York with four months ago would show up as the best man at the first wedding you're supposed to shoot at your new job on Bilby Island? What are the further chances that he's brought his hot English cousin as his "plus one"? And they're both up for a threesome? That's the kind of thing that seems to happen at this resort.

I have to say that Kennedy's entrance was certainly memorable. I guess I'm glad I don't have a debilitating phobia, but it's funny to me that someone could be so frightened of butterflies that it would cause them to bolt from their suite, buck naked. She's kinda lucky that it was Luke she bumped into, since he's already seen her goodies and all. And his cousin Addison, who hasn't, but is the self-proclaimed family rake. He's actually the one who puts "threesome" into everyone's head.

But Kennedy is the one who ran out on Luke back in New York. He was supposed to be her Rebound Guy, not the one she has a connection with, and when she did, she freaked and ran. And Luke hasn't forgotten. Neither has Kennedy. And Ado is just along for the ride.

It ended up being a very sweet story. I wanted to kick Kennedy when she (view spoiler). Likewise, my heart broke a little when Luke (view spoiler). It all worked out, but it was a little angst why they were working things out.

Tami says

3.5

Nice MFM ménage turned into MF couple romance.

This review is based on the ARC provided by the author and/or the publisher via NetGalley in exchange for my honest opinion.

Samantha says

Sunset Heat is the story of Kennedy, Addison, and Luke. A one night stand in America between Kennedy and Luke, things ended without closure. Now bandicoot Cove has a new photographer and her first event is Luke's best friends wedding. Coming into contact again is quite the run in.

It's a good story of two men fulfilling a fantasy for Kennedy. However when their feelings start to get involved things are not going to quite end the happily ever after for everyone. Who will get her? The British Rake or the Aussie firefighter?

Angela says

Kennedy has a brush with death in the form of a butterfly that has her fall into the arms of two find men. One is a one-night stand from four months ago and the other is his insanely hot cousin. What to do when alone on an island with two available men? Oh yeah...test drive both of them. Sunset Heat is a smoking hot, emotional whirl wind, and intense novella. When emotions enter the equation who will Kennedy chose? Luke or Addison? 3.5 stars!

(ARC provided by NetGalley and Entangled Publishing in exchanged for an honest review)

Ni_kii says

Really 4.5 Stars

Done as part of a series review at <http://scorchingbookreviews.blogspot....>

Oh, this one was the most fun out of all of them. It was very hot and really quite amusing; anything that has a UK man as a debonair charmer makes me chuckle (visit sometime....I'm afraid that particular man is about as easy to find as a lesser spotted eagle!). This book was the tale of Leo the fire fighter (who was hot and intense), Addison (suave and funny) and Kennedy. I loved the male characters in this book and would have LOVED to be in the shoes of Kennedy. Seriously, I couldn't have chosen either and the menage aspect of this novella was amazingly hot.

There was a point in this tale I didn't like Kennedy (if you read it, you will know where). I know what she did aided the tale and made the resolution sweeter but at the time I'd have quite happily punched her. I just wanted to take both of the yummy men away from the mean lady and cuddle them....*grin*

Channa says

Another great one by Lexxie.
