## **The Billionaire's Muse: The Complete Series Ava Lore**

An artist on her way up...

Artist Sadie MacElroy has landed a sweet gig as the personal assistant to her best friend, Felicia Waters. Despite her scattershot creative nature, she's a whiz at organizing, planning, and ordering people around. But her sweet gig turns sour at a charity art auction she's organized when she bumps into a stage lackey and sends a 17th century Qing Dynasty vase crashing to the ground. Electing to take the fall, Sadie attempts to arrange payment of the vase to its owner, eccentric billionaire and (extremely) amateur artist Malcolm Ward.

A powerful man on his way down...

Malcolm, however, doesn't care about the money or the vase, or much of anything. His whimsical, eccentric side hides a dark pain and a grim future, and only the promise of Sadie gives him hope. Inspired by his "muse," Malcolm decides he only wants her, any way he can have her: in front of his camera, under his brush... or in his bed.

An intimate passion...

Unbeknownst to Sadie, time is running out for Malcolm, and when she discovers his secrets, it's up to her to convince him that life is worth living, painful scars and all.

## **From Reader Review The Billionaire's Muse: The Complete Series for online ebook**

### **Tawnya says**

Sadie at first came across as a very strong witty character. Although it seemed the more time she spent with Malcolm she became weak and spineless. Not really the type of character I prefer to read about.

---

### **Tokies says**

read the book before this one you will care more and both books are good. i kinda wish this author would get off the novella train. sometimes you just want to read the dang book. other than that.. i loved it

### **Dirty Dayna says**

I have an addiction to billionaire love stories and I need to stop I'm always left wanting so much more. however in this story Malcom (rich crazy billionaire) meets Sadie and they embark on a artistic adventure because Sadie broke a vase from an auction that was thousands of dollars. In the midst of their relationship Sadie discovers Malcom wants to commit suicide and therfore tries to save him because she aways wants to save the men she is with. I really like the mystery in this book but the end leaves much to be desired. I am glad I discovered this when it was the complete collection serial reads bother me. overall I marked it down because Sadie s character and Malcom character were consistent and the ending was rushed.

---

### **Trina says**

I really enjoyed this one, not the usual 'billionaire' story

---

### **Jay says**

LOVE LOVE LOVE SADIE!! She's so normal, & tells it exactly like it is/as she sees it, & she's funny as fuck! & then Malcolm is so blunt & matter of fact... his comment about being sick on the floor cracks me up lol

---

### **Serenity says**

Holy Moly. What have I just read? It's like the worst billionaire book I've ever read.

Minus 5 for an insane hero

Another minus 5 for nonsense plot

---

### **Saichel says**

As I started these books I really had the main male character Malcolm Ward totally insane. A man Sadie MacElroy should stay away from. But the minute I thought that I had to change my whole thought. As the story unfolds you find that Malcolm is in search of something(s) because behind the scenes Malcolm is deciding whether or not he wants to save himself. But needs time with Sadie. Sadie intrigues him, he wants her to submit. Rarely, does he punish her most of the time him inflames her with pleasures. The sex between the two is definitely HOT! A good story with a good plot some twists but mainly sticks to these two characters. A winter's read by the fire when it's definitely too cold to be outside.

---

### **Mandi Schreiner says**

Oh this book. Why did I read another billionaire hero you ask? Wellll...I received this review request and I went onto Goodreads and scanned reviews. This book was originally published as a five book series, but now it is all combined into one book. When scanning reviews for part three there were many – OMG! WTF! This hero is insane! So of course I had to read it. And uh...yeah. This hero...oh boy. We have much to discuss. I will say, I had fun with this book at the beginning and I initially really liked Sadie. But by the end things had changed a lot. Let me start at the beginning.

Sadie is a personal assistant to her best friend who is very wealthy. During a charity auction Sadie is organizing and working at, she accidentally breaks an expensive vase that was suppose to be auctioned. She locates the owner whose name is Malcom. Malcolm is a billionaire and isn't too pleased she broke his vase. Instead of taking payment from her, he tells her she has to be auctioned off. And then he "buys" her for one date. So I was thinking, here we go – same old same old billionaire book. But I was wrong.

The next day she goes to his mansion for their date. She has heard from others that Malcolm is eccentric. He has done donuts in his limo in Central Park. He went on a late night tv show and sang a filthy song. He sounds fun right? He does, but we never see this side of him in this book. That should have been my first warning. Malcolm tells Sadie that he is an amateur artist. Now, Sadie really is an artist, she just is a personal assistant to make more money. She arrives at his house, walks in and her first thought is that he is a hoarder because he has so much stuff in his house. She finds him all the way at the top floor with a brand new photography studio just installed that morning (danger Sadie! Danger!)

They really don't even know each other yet he asks her to remove all her clothes so he can take artsy photos of her (although he has never used a camera before). So now this practical stranger is taking nakey photos of her. Worse? They both get turned on, he sticks his fingers in her (uh...both holes y'all) WHILE still taking pictures. Then he abruptly ends it and asks her to leave. HELLO? Is anyone else thinking this guy is a

weirdo?? AND this girl just let a stranger take pervy pictures of her?? But when he calls the next day, she goes back to him \*bangs head\*

Later he paints her naked body – and ends up sticking multiple paintbrushes up her butt. You guys, why did I continue? Ok, ok...I had to know what happened next.

Let me make a point here that Malcolm is Mr. Freaky Deaky in the bedroom, but he never lets Sadie pleasure him. He gives her oral like he is a starving man, but she isn't allowed to reciprocate. I kept waiting to find out why. Is his peen deformed? Does he even have one? What is the reason??? I'll tell you in a minute. Don't get too excited.

Okay, so Malcolm keeps experimenting on Sadie using different mediums of art. Paint, charcoal, photographs. She thinks he is weird but she keeps going back for more. Malcolm is kind of a sad, loner, weird man. I felt pity for him in the first half. I actually was interested to find out his deep dark secrets in the second half. But his secret is....odd.

You see – Spoiler.

(view spoiler)

Looking back, Malcolm is deeply sick and disturbed man who needs professional help. Lots of it. Turned the book from a crazy read to a sad read.

Rating: D

### **Cherry Dare says**

Most erotic romance sticks to some formula or another. Ava Lore takes one of the formulas - ordinary woman meets dominant billionaire - and makes it something her own. In doing so, it becomes genuinely special.

Her heroine isn't a bland everywoman, but a distinct and believable character whose emotional journey and dark past gets as much weight as the hero's angst. She's tough but vulnerable, and even gets to rescue herself! Her heroine isn't just a rich control freak, but a lost soul on a desperate mission. I got very attached to them and their relationship, and rooted for them to work out their differences and heal from their troubled pasts. I also enjoyed that when Malcolm acts creepy, Sadie calls him on it - and he listens. That sort of respect and connection made me really believe that their relationship could work out.

The gimmick of the story is that all the sex scenes involve art in some way: having sex on clay, painting on the body, and so forth. But it's not just a gimmick - it's really different and sizzling hot.

My favorite part was a dreamy interlude on a boat. It's written differently from the rest of the book, and is poetic and gorgeous.

I have a few minor nitpicks - Lore didn't quite sell me on Malcolm's odd dark secret, the bdsm seemed tacked-on rather than integral to the characters, and I wanted to see Sadie actually do some art at the end. But those are minor points.

I would definitely read more by Ava Lore. She's truly an original voice in the field.

The cover is GORGEOUS.

---

### **Barbara says**

I enjoyed this book series. Sadie is quirky, no nonsense and doesn't put up with any bullshit. Malcolm is mysterious, quirky and hot in the bedroom. When these two are together, they combust!

---

### **Nichole ~Bookaholic~ says**

This was okay....it could have been wrapped up much sooner and I think it would have been better if a bit shorter....I realize this was originally a serial so would imagine it would be a bit different reading only a part at a time.

---

### **Irisdiana says**

Great series!!!!!!!!!!!!

---

### **Hanna says**

Hot, exciting, lovely, interesting and very emotional read. I loved the twists and plotline. Great read. :)

I just finished reading and still feel kind of post-coital dizzy. I won't tell you more, you'll just have to read for yourself.. ;)

---

### **Katherine says**

This is such a rich book. The discussions about art, what it means, relationships, betrayal, were so well done. The sex was D/s and quite hot.

Bought from kobo.
