## Warlord Unarmed Cynthia Sax

When Murad, a powerful and deadly Warlord, arrives to repair Gale's beloved ship, she doesn't like it one bit. She sees the danger lurking behind his wide, sexy smile and the temptation in his coarse touch. He stands too close. He smells too good. He muddles her mind with erotic thoughts no bounty hunter should ever entertain.

Murad is known for being lighthearted...until he meets Gale. He's deadly serious about seducing the curvaceous bounty hunter. With one blast of her stun gun, she captures his attention and starts his lust burning. To claim Gale for his mate, Murad will brave his cautious female's itchy trigger finger, his overbearing older brother and even his own sense of duty.

Cynthia Sax delivers an exciting addition to her Warlord series in Warlord Unarmed.

Gale, human bounty hunter and orphan, has abandonment issues. Upon seeing Murad, who is there to fix her spaceship, Gale freaks at his size and the potential for developing feelings for him, knowing in her heart that he'll just leave her like everyone else. Murad, a Chamele warrior, knows that Gale is his mate and is shocked by her fear. Gale tests Murad to see if he will do what she sees as inevitable. But, Murad disarms Gale with his stunning smile and his sense of humor. The way Murad treats Gale, listens to her, and understands her dread of being abandoned is heartwarming because you can feel the way he loves her, making him the perfect leading man. The sexual chemistry between Murad and Gale builds, leading to intimate encounters that are lustful and steam up the pages. When Gale finally realizes that Murad will never leave her and finds her inner strength to stand up for her man, it is a beautiful sight to see.

Warlord Unarmed, filled with well-rounded characters and an entertaining romance, is the perfect read for a quiet night at home.

I received an eBook copy from the publisher for purpose of an honest review for The Jeep Diva. I was not compensated for this review, and all conclusions are my own responsibility.

When Gale doesn't hear from her BFF Zeta she mans a one girl rescue mission only to have her space craft encounter mechanical problems.

Murad, brother to Khan is sent to repair Gale's ship he does so reluctantly as he has much better things to do. It only takes one look and sniff of Gale to realize she's his gerel. Getting her to realize that they're bound together for eternity though may be a little more difficult than he thought. Especially as she has an itchy trigger finger with her stun gun and keeps saying she needs to leave.

Straightforward story line that features the meeting and romance between Murad and Gale. I love those alien warrior types who get all dominant and controlling over their women. Of course life would get boring if the mate wasn't a strong female herself who can take on said alien and take him down a time or two herself. The battle of the sexes will never get boring for me.

My disappointment has more to do with back stories and depth to the characters. This can definitely be read as a standalone because there isn't any series plot mention that any first time reader will loose out on. There is only mention of the names of the characters from the first installment. Having more 'personality' for the H/h would have definitely improved my emotional connection to root for the HEA outcome.

I'd also like to mention the adult content erotica scenes. The heat factor is definitely appararent and I did feel the two had chemistry. However. The scenes were a bit clinical and without effective mental imagery for me to be able to enjoy. I do think that may be a partial reason I didn't get the happy happy joy joy emotion when I finished reading this story.

Overall, I'm a fan of the series though I do hope to be able to get more into the world building and characters which would definitely improve my feeling for this series.

This is the story of Gale, Zeta's friend; and Murad, the Joker brother of Khan in the first book. It describes how they survived in Murad's planet after Gale's ship is destroyed. The passion between them flares pretty fast, and Gale have trust issues to deal with. I wish there are fight scenes but I still enjoyed the sequence of events. I'm really curious with the eldest brother, which I will definitely read later.

Sexy short read with a sweet story.

Another half way point starter. Pretty much the same as book 1.

Warlord Unarmed is a sensuous but lighthearted story of two people being forced to face the truth about themselves and how they feel abut each other. Being stranded on a planet, even an Eden as this one turns out to be might bring out the worst in them, but it may also bring them closer together.

This story should be read along with its companion pieces, Warlord's Bounty, and Warlord Reunited, and Warlord's Mercy.

Well, the premise is very intriguing, but I don't think the execution quite lived up to my expectations.

1. the heroine talks to herself...totally weirded me out.
2. I didn't really \*believe\* her emotional issues about being "returned" because we never get any specifics. It's left as a hazy indeterminate.
3. There wasn't much "we" time to show Gale and Murad falling for each other. It's a headlong plummet into "I love you" which I'm usually okay with but this time...? For some reason, I couldn't connect to it.
4. The book was rather short, which squashed the plot a bit. I would love to see this story take its time, but alas...

So, while the steamy scenes are deliciously steamy, I don't think I can recommend this.

Warlord Unarmed was even better than Warlord Bounty and I thought that one was great! Gale is an absolute doll that I completely sympathized with and Murad is a sexy, funny, dangerous, hunk of a man who insists on being taken seriously. And wow, did Gale take him . . . seriously, that is. I thoroughly enjoyed this book. It was hot, had great characters, and a lot of humor. What more could you ask from an erotic romance?

Very exciting is that Warlord Reunited has just been released!

A hoarder with a deep abandonment complex. The heroine isn't compelling enough, I can't do it. DNF at 22%.
