1st Runner-up in the 2015 Sex Scene Championship hosted by Scorching Book Reviews!

When Garon gets the news he's about to be transferred to a new assignment, his entire world comes crashing down around him, for as a guardian angel, a new charge can only mean one thing.

His Jessie, the girl he's watched over from the moment of her birth, the human he'd been created to protect, is about to die.

Can he stand by and let her be destroyed? Or will he dare to do the unthinkable.

Dare to fall.

~o0o~

Jessica Martin doesn't believe in happily ever after. Prince Charming is just a lie bought by starry-eyed women, and she's far from that anymore.

No man has ever measured up to the one who lives in her imagination. With no real family, just temporary ones that came and went, she's had few constants in her life, but the make-believe friend from her childhood has always been there for her. Always.

Too bad George isn't real.

So when a mysterious man rescues her from danger, she can't help but be suspicious. Her Good Samaritan is blond-haired, blue-eyed, and drop dead gorgeous, the complete embodiment of her perfect man, but he's more than what he seems. The strange familiarity in his eyes, his touch...it shouldn't be there.

What is he hiding?

This was just the quick, hot read that i needed!

Always a sucker for the Angel/Fallen Angel storyline, I was excited to read this take on the classic theme.

I really loved how devoted Goran/George is to Jessie. She is literally his entire world, and when he discovers that she is about to die, he sacrifices himself in order to save her. In the process, he becomes "human" and is given the chance to be with his Jessie for real.

This might sound like a sweet little fairy tale, and while it has some sweet, romantic aspects to the story....this is definitely first and foremost an erotic tale. And the author does a good job of bringing the heat. The chemistry is great and i could feel the attraction between these two. To be honest, i have never been a fan of the whole insta-love thing, and I would have preferred a bit more of a buildup in their relationship

before the mind blowing sex starts filling the pages...but, i do appreciate how much of George & Jessie's story we get in a short novel.

Considering this is a debut novel, I am very impressed by the author's writing ability. It definitely doesn't read like a debut...everything flows together very well, and she paints a very vivid picture with her words....be it with Goran's struggle to make the leap from Angel to human, or with the sex scenes that, did i mention?... are H O T. I'm looking forward to the next chapter in Jennifer Leighton's career.

3 ANGEL STARS

This debut paranormal novella was a fast, entertaining and steamy read. It's the tale of Garon, a Guardian Angel, who learns his charge, Jessica (Jessie) is destined to die, which forces him to face his forbidden emotions for this mortal.

He's been with Jessie since her birth and deeply loves her, in a way that immortal angels should not. He also feels things for her that he knows as a celestial being he shouldn't. When he learns of Jessie's fate, he's tormented and does the unthinkable. He gives up his wings for the love of this woman.

The naivety and innocence of Garon was done really well. Now a mortal, he's a beautiful grown man but the way he acts and the simplicity of his words show the truth. He's like a fish out of water and his guiding light is Jessie. To save her and to love and protect her.

Jessica has always had the ability to see Garon who she named George and thought he was her imaginary friend. She depended on him and leaned on him when she needed someone the most.

"He was her one true love. The literal man of her dreams. Her soul mate."

The interesting switch in this relationship was that Jessica was the dominant one. She's strong in spirit and while I liked this about her, she was sometimes too brash and a little hard to take. I understood that she had a hard and lonely childhood and it explained why she was tough and spunky but, I found her struggle to believe Garon, at times, only on the surface and cruel. I may have warmed more to her had there been a balance, a little more vulnerability, if only in her mind as she grappled with who Garon really was.

One thing I'll say, Ms. Leighton has erotic, off-the-chart steamy sex scenes nailed. This woman can write erotic, sensual, sizzling chemistry that had my Kindle burning up! Garon and Jessie are HOT together!

And while Garon may have taken Jessie's lead, he was a faster learner! And the chemistry between the two was electric and also sweet.

Ms. Leighton ended this with a sweet epilogue to this short tale. This was a good read and I think this author shows great promise. I look forward to more from Ms. Leighton.

"Her knight in shining armor had arrived after all. She'd never dreamed her prince charming would turn out to be a fallen angel, but life was full of surprises."

Jessica, has long since given up on finding her happily ever after... no man could possibly live up to her, George.

Garon, was created to love and protect, Jessie. When he is faced with the possibility of losing her forever, he does the unthinkable.

Angel Fallen, is a beautiful story full of love and sacrifice. It was cute watching, Garon learn to navigate the world as a human. His devotion for Jessie is unparalleled. It was so sweet and with erotic love scenes that leave you feeling the steam coming off the pages. This debut novel is a well written and enjoyable read! I'm looking forward to reading more from this author.

Hot and steamy...

If there is an alpha male involved, I'm usually at the front of the queue. Though I wasn't drawn to the cover, the blurb intrigued me enough to give it a go – and I'm so glad I did. With a paranormal bent, this story showcases Garon, a truly unique hero, who is sexy and attractive with a sensitive submissive side that totally works.

Garon, aka George, is a guardian angel who's been looking after Jessica since the day she was born. Faced with the knowledge that she will die without his intervention he gives up everything he is for the woman he

has loved his entire life. With such an incredible story, needless to say Jessie is not as quick to accept Garon. That conflict has to be dealt with quickly and is done through conversations amidst hot and heavy scenes between the two.

“As for the games...as I’ve shared, I don’t mind them,” he confessed shyly, his face heating at the admission. “I enjoy it when you tell me what to do.”

I have no idea how this incredibly strong, protective man can be as sensitive as this and be as hot and sexy at the same time. Believe me though, George pulls it off incredibly well – I am turning on the room fan in testament to that! He is alternatively innocent and gentle while the next moment scorching up the sheets to a hundred plus degrees. Not many books see the heroine the more experienced of the two though George makes up for it in enthusiasm. It sounds like a combination that shouldn’t work but oh, it definitely does!

While I liked Jessie, George is definitely my favourite of this couple and truly made the book for me. A satisfying ending but definitely would have loved this story to be longer. ~ Diane, 4 stars

A guardian angel name Garon watched a little girl name Jessie. That was his assignment till he was told that he has a new assignment. He realized that Helios Jessie was going to die at the age of 24. So what path did he take? Did he save her or let fate take over? I love this story. Read it.

Angel Fallen was a book out of my norm. It's about a guardian angel, George/Garon, who has watched over a girl, Jessica, for her entire life. He has been there for her Always, so much that she thought He was real. But as she grew older, she knew that He couldn't be really real and she didn't rely on her guardian angel like she did before. But what if George knew something that could change Jessica forever, what would he do to protect her? Would he risk his own powers to protect the one person that he has always felt Real feeling for?

I had mixed feeling about this book. I loved the premise of a guardian angel but I just didn't feel the connection between George and Jessica. There were some parts that didn't transitions well for me in the story. I will say that the story is very erotic and I really liked the ending and the epilogue. It really helped me pull the story together. As this is not really the genre that I read, I feel like it was more me than the book. So all you paranormal readers out there, if you like sexy and short, I think you will love.

Fallen Angel is about a Guardian Angel who falls in love with the person he's been assigned to protect. He feels desires that are forbidden to his Angel being... things change... and the opportunity for this story to become one delicious ball of hotness evolves. It's a short and sexy PNR story where a combination of forbidden and unrequited love takes centre stage.

Paranormal is not my usual read but whatever the genre, I have to believe in the happenings, believe the way the characters get from point A to point B. I like to experience the imaginary world without it raising questions of plausibility in my mind and I think my main stumbling block was that I didn't always feel this way within the pages of this story.

The premise of the story arc is engaging. The depiction of the history between the hero and heroine is quite beautiful and I enjoyed the slant the author places on their relationship as the story progresses. The heroine is a little contradictory in her beliefs whereas the hero drew me into his emotions simply by sharing his feelings about watching over Jessie which, for me, made him the stand out character of the story.

The erotic aspect and sweet love shown within this story is highly lovely and makes for a nice bite sized read. I'd recommend Angel Fallen to Paranormal lovers and fans of erotic love stories who would like the pleasure of a short and sexy read.

I loved it!! Garon was a total sweetheart- who can't resist a delicious combo of an alpha in bed and a fumbling clueless beta outside it. I know some of my fellow readers found the heroine abrasive and forceful- she was, a little bit. But she added some much needed spice and wacko-ness to a fairly predictable story, so I can't rate the book down for it.

Duchess Nicole says

I burned myself out on Paranormal Romance after the Twilight craze sucked me into the genre. I rarely pick it up any more, but I'm glad I snatched this one up. I'm a huge fan of Fallen Angel stories, and especially when the angel...in this case, Garon...chooses the woman he loves over immortality.

An interesting twist to this particular angel/human romance is that Garon is Jessica's guardian angel, and has been all her life. He knows her every secret, and he's loved her since she was a newborn. He's watched her go through the childhood tragedy of losing her parents, through her tumultuous teenage years and foster care, and up into adulthood. He's always felt a special bond with his human, but it isn't until he realizes that her fate has taken a turn for the worse that he understands how unusual that bond is. Angels don't fall in *love* with their humans. It's not allowed. But when Garon finds out that Jessica's life is meant to be cut short, his angel eyes are opened and he knows just how far he'll fall to keep her in his life.

A lot has happened in Jessica's short life. So much sadness...but she's always been able to rely on George, her imaginary friend who comforts her and understands her. As a child, he was her constant companion. As she's gotten older, she's intentionally paid less and less attention to him. After all, only crazy people keep their imaginary friends past childhood, right? So who's this man who shows up out of the blue to rescue her...the one who looks so familiar? And why does she feel so drawn to him?

This plot took a couple of tropes and put an interesting twist on them...first, the fallen angel/guardian angel thing. So unique, and it leads to the second (and often widely scorned) trope...insta love. But it's NOT insta love because these two have known each other their whole lives. What the gist of the story is about is convincing Jessica of Garon's authenticity. She struggles with her analytical mind vs. her romantic heart.

At the center of the story is the sizzling attraction between Garon and Jessica. Garon has no real understanding of lust until he falls. Until now, it's only been jealousy and interest in the going's on in Jessica's love life. But now that there is a flesh and blood body to sate, it's game on!

"With a clenched jaw and a fierce expression, he'd become an animal of carnality. A fallen angel indulging in earthly pleasures previously forbidden him."

And Leighton sure does know how to light up the pages. This is erotic romance...not the light and fluffy kind of loving. Garon's self discovery leads to a lot of passion, and it seems like years of pent up lusts. What it didn't lead to is aggression. This is not an alpha male, ladies! This is a man who is confused and way out of his element. I don't necessarily think that Garon is normally so passive, but it's the situation that makes him so. Fortunately, Jessica has no problem giving directions or orders.

Here is my issue with the book, and what kept it at four stars. Jessica was too abrasive for my taste. I can usually relate to any type of heroine...the scared and abused, timid heroine, the bold and brash and mouthy heroine, and everywhere in between. But when a woman is *ott* vulgar or hateful, it turns me away. And Jessica edged toward too much for me.

However having said that, she could have been that way because that's what Garon needed.

This debut by Jennifer Leighton speaks of great things to come from this author. This is a stand alone, so no series to slog through, but I know she's got some historical romance in the works. If this was our first taste, I'd say we're in for a treat!

Review to come...

****FULL Review—Angel Fallen by Jennifer Leighton****

“That night changed them both, for the last little bit of her girlhood vanished, in her eyes as well as his. Sweet Jessie became grown up Jessica, and Garon became not a guardian protecting his charge, but a man caring for his woman.”

Jessica grew up in a world where she felt she was a discard...having lost her mother at just five years old, she spent the rest of her childhood in foster care. The only constant was ‘George’, her ‘imaginary friend’...but little did she know, he’d been with her since she came into the world. He was created just for her, to protect her—Garon ‘George’ was more than just an imaginary friend...he was her guardian angel.

As Jessica grew up, she chose to ignore him—considering herself a bit crazy that she could see and talk to this being no one else believed to exist...but it was so much more than that for him.

Herein lies the problem.

“He was not a man, though, but a celestial being, and these desires he felt for Jessie were unnatural. Anything unnatural was strictly prohibited in the spirit world. He was to look but not touch. Care but not love. Exist but not live.”

Not easy to do when you find out the fate of your charge...and you have all of these forbidden feelings.

So, Garon does the unthinkable...he rebels.

He falls.

This is one of those stories where you can’t help but get goosebumps when reading it. I can recount quite a few times. Everyone wants someone to watch over them, love them, protect and be everything to and for them.

This was a story ultimately about that...with quite a bit of steam. It was well-written and seemed to flow well. I felt it strange the location, but understood at the same time. Leighton has great potential and look forward to reading more from this author.

Heather / Obsessed With Myshelf says

If guardian angels were real, I'd most definitely want mine to be Garon. Sweet, submissive and yet totally masculine, this angel is the devil in bed. and in a storage room closet. YUM.

Garon has been Jennifer's guardian angel for her entire life. They were both created on the same day, and thus – he was made for her. However, when he finds out that she's supposed to die and he's going to be assigned to someone else he can't live with that outcome. He makes the choice to become visible to Jennifer & cut ties to all he knows.

I wasn't totally invested in this story, even though I really tried to be. There's an extremely long mostly sex scene that takes up most of the book – NOT THAT I'M COMPLAINING – but then after that scene, there wasn't too much else to the story. I felt that things were wrapped up a bit too quickly and a bit too easily and I had a lot of questions. For example, if Garon was made for Jennifer and created on the same day, aren't all guardian angels made for their charges? How would it make sense for Garon to be assigned to someone new?

Also, I know I'm being overly practical here and this is a paranormal romance, but Garon has no ID...no social security number...no real skills. What is he going to do for work now that he's fallen? Am I being too real here? Maybe, but I didn't feel that this story was so fantastical that I shouldn't be thinking about those things.

Notwithstanding those issues, the heat is most definitely on point. Jennifer writes those scenes with style and I absolutely enjoyed the slight switch of such a strong and burly man being submissive. The awesome sex and the fun and flirty writing style pushed those stars up for me. Sweet and incredibly romantic, this PNR is a quick little read full of lots of awesome sex. 3.5 stars!

This was good steamy quick read. I really enjoyed the fallen angel aspect of this story, something I have liked from other books in the past. I really liked Garon and the lengths he went to protect Jessie, the woman he loves. One thing I wasn't too fond of was that their story had begun before this book started. So there was no real build up in the relationship, something I would have wanted to see. Because of that, I couldn't completely feel a connection between them on an emotional level. However, there was a great sexual chemistry between the characters. The steam in this book was crazy hot, as an erotica book should be. I very much liked how those scenes were written. I thought it was very interesting reading how Garon tried to adjust to human life.

Overall, I thought it was a good debut erotic novel. I may have needed more story to it, but the steam was definitely high.

3 Daisies & Buttercups Stars

To preface my review I don't normally read paranormal books but when presented the opportunity to read Jennifer Leighton of The Freak Circle Press, I was more than happy to oblige. *Angel Fallen* showcases the great talent this author has in writing. The story is on the short side yet packs a lot of punch thanks to the excellent writing.

The two main characters, Garon and Jessica, are destined to be together since Jessica was born and Garon's existence came to be for her protection. The story, presented when Jessica is twenty four, ebbs between Jessica's memory of a childhood imaginary friend named George and Garon's memory of Jessica growing up. It was interesting the dichotomy of feelings of between the two characters with their histories of one another

and it provides a pretty solid build up to the present day when they're forced together.

The plot of the book entertained me but I never felt a solid connection to the story or the characters. Jessica, more dominant than Garon because of their unusual circumstances, wavered on the true nature of Garon's existence more often than not yet in the same breath wanted him so badly. And the wanting? Let me tell you, the want and need in the throes of passion was quite potent. Jennifer Leighton wrote some heavily steamy sex scenes in *Angel Fallen* which provided, for me, the biggest connection to her characters. It was when feelings and an understanding of Garon was being established I got lost in the shuffle at times.

As a stand alone, erotic, paranormal read *Angel Fallen* was an entertaining read. The last few chapters were the most solid for me and I'm so glad this author chose to give an epilogue as it wrapped up the story nicely. I'm thankful to have been introduced to Ms. Leighton's writing and look forward to reading her next book as we get a sneak peek of it at the end of *Angel Fallen*.
