Body and Soul Patricia Logan

More than ten years ago, a series of train bombings devastated railways throughout Europe. Strange poetry sent to local newspapers right before each bombing, confounded investigators at the time. In one of only a handful of failed covert missions, Jarrett had been sent into North Korea to take out the bomber. Now, as his wedding to Thayne approaches, an explosion in Southern California, threatens to ruin their plans for a very special day.

Sucked back into a new case when they're supposed to be on vacation, neither Jarrett nor Thayne are very happy. When the bomber strikes too close to home, they know they have no choice... especially when the threat seems to be specifically directed at one them.

While recovering from recent trauma and torture, Thayne has put his heart into crafting the single most beautiful event he can imagine for his husband-to-be. When plans for their special Christmas wedding begin to blow up, he is distraught. A sadistic killer with special skills, a strange vocabulary, and a twisted thirst for revenge, is bent on destroying everything.

Join Thayne, Jarrett, and all their friends as they rush to stop the fiend and reclaim their Christmas wedding before one more person dies.

~Volha~ says

I enjoyed this book very much. It was fast-paced, funny and had a fair amount of angst. Most of the time romance was in the air. Thayne and Jarrett are so sweet and mushy together, so passionate and open - so many feels! I loved their intimate moments with each other and many cute and hilarious moments with their friends and family.

But most of all I loved the case that brought them all together. It was thrilling to read and follow their musings, findings and attempts to get ahead of the villain. I loved how well the guys worked, how they faced opposition together and just held each other up when they needed a strong shoulder to lean on. They not only became a team, they were a family full of smart, resilient and brave people who stood up for each other and were there until the end.

This is a good mix of love, friendship and team work that made this an engrossing read for me. It has multiple POVs - Thayne and Jarrett's, Snow and Sarah's. It has many sweet surprises, and new people are introduced who mesh well with the rest of the team. I really liked it and I highly recommend it.

I thoroughly enjoyed this book, just as I have enjoyed all the others. Thayne and Jarrett move towards their wedding ceremony but things do not go smoothly. Thayne is still mentally recovering from his past torture while dealing with the current threats to their future. I love the way these are both strong men but there is just a touch more vulnerability to Thayne. The team are all there and there are a couple of new and promising characters too. Loads of excitement and action plus love and tenderness too. Ticks all the boxes for me.

Oh I've been waiting for this one.....A wedding...Who doesn't like a gorgeous wedding....Jarrett and Thayne are just perfect for each other but having their plans disrupted by a bomber was bad...Poor Thayne really just wanted to marry the man he loved....I love these two guys and Ms Logan always gives us just enough hot times with these two...never too many....Although I could read about Jarrett and Thayne even without the hot times....Seriously I love the banter between these two....There's also the *heart in mouth* moments...esp with Sarah....And i'm even thinking i'd love a bit more incite into Sarah and Lincoln's relationship...There look at me wanting an MF...(Ms Logan does MF well).....A great series and I know series' have to end but I'd really like to think we could persuade the author to maybe give us another one....Who knows x

I've followed this series from book one, and it just gets better and better. I love Thayne and Jarrett together, and in this book they attempt to get married. But, of course, nothing goes smoothly for our twosome. The

book is full of action, drama, humour and, of course romance. The two positively sizzle together. The story is also nerve wracking, full of suspense and very well written. I highly recommend that you read the previous books in the series, they are seriously worth the while. Oh, and if you get the chance, listen to the audible versions, they're first class. Great narration.

Ann says

I LOVE LOVE LOVE Thayne and Jarrett! This is a wonderful book. I could not put it down and read until 3 am! Despite being on Vacation the week of their wedding, chaos ensues! A mad bomber from their past is making wedding plans difficult and very dangerous. The entire team and their families are drawn into the danger, wedding locales are blown up, cars blown up. It is up to Thayne and Jarrett and the rest of their team and a few FBI folks to stop it so they can get their happily ever after.

As usual, the chemistry and hotness factor is through the roof. This book has it all, two hot men, plenty of action, both in and out of bed, some goofiness that all men exhibit regardless of age, leaving you just hoping they will make it to the alter.

3.5 STARS rounded up to 4

It almost physically hurts for me to say, I didn't love this.? I don't know if my expectations were too high, or my mood didn't suit the storyline or what. I can honestly say there was way too much sex. ?I can't believe I'm saying this, but it was pretty ridiculous. ?Anyone who hasn't slept after being almost blown up would most likely prefer sleep to sex. There would be times they were so tired they talked about needing sleep. However, do they do that...Nooooo. They had to get their sexy time first. It was every five seconds! I don't know, maybe I'll change my mind after a reread. However, that will not be anytime soon.? I rounded up because that's my prerogative, and my love for this series and characters.

Wonderful book written by a lovely lady. Body and Soul was a beautiful written book. As a I said before, Patricia Logan writes books that keeps me glued to it from the first page to the last. I love the fact that she shows the love that Jarrett and Thayne have for each other in each and every book. I know it's coming but I hate to see this series end. Patricia Logan is one of my all time favorite author. I'm looking forward to the next book in this series; hint,hint, and any other book that she writes. I hope you enjoy this book as much did.

Sara says

Loved it!

I was so excited when one heard that there was going to be another book in the Death and Destruction series and this book did not disappoint. Thayne and Jarrett are finally getting ready for their wedding, but these two cannot catch a break. A bomber has set their sites on Jarrett and ruining his happily ever after. Thayne and Jarrett must work with their FBI and ATF friends to figure out who is targeting them.

I thought this book was very well written, you can't help but get caught up in this story. I love that there is character development with more than just the main characters.

I am going to keep my fingers crossed that maybe this won't be the last we hear of Jarrett and Thayne...

Amanda Viecegli says

Man, was I excited to see that Jarrett and Thayne would be back when Patricia Logan announced she was writing Body and Soul. I am even more excited to say that this book is the embodiment of everything I have loved about this series from the beginning. First, the connection continues to sizzle between these two men - it is, and has always been, undeniable and combustible. With each installment, that connection has deepened and evolved into a soul-deep love that radiates from every page of this book. I love the relationship Thayne and Jarrett have and how the struggles they continue to face bring them closer together, and in this book more than any previous one it is undeniable that they truly do bring out the best in each other.

In addition to the romance, another thing I love about this series is the casework. The suspense, the mystery, the action, and the detail is there in this book like usual, and it ties in seamlessly with the wedding storyline. I also love the secondary characters - Sarah, Lincoln, Mac Mac Mac (ha), Mark, all of them. In Body and Soul, we see that truly have formed a family that supports each other in everything. They are also hilarious together. Gods, my abs hurt from laughing at times reading this. It was great. I also truly enjoyed the new characters that are introduced as Sarah's and Jose's new partners. I have high hopes for Nico and Dev if Patricia Logan decides to write more of this series in the future (hint, hint)..

And the wedding! We finally get to see Jarrett and Thayne tie the knot, and while it doesn't exactly go as planned (you aren't surprised, are you?), it is still beautiful and perfectly THEM. *swoon*

This story is sweet, sexy, emotional, and at times hilarious, while suspenseful, action-packed, and heartbreaking at others. I laughed, I cried, I swooned (a lot, these two make my heart melt), and I can't lie, I even got up for chocolate at one point near the end. It is exciting and romantic and nerve-wracking all at once, and it is worth every single second. If you have not read prior books in this series, I highly recommend doing so before reading Body and Soul. I fell in love with these characters and their friends so quickly. I hope you do, too.

i started with this book, and i loved it, but now i HAVE to go back and read the first 6! what a hardship, NOT! lol They are such an amazing couple, you can feel their love or each other. Thayne and Jarrett are my new fave book couple! Would def recommend this book and anything by Patricia Logan, she is one of my fave writers!

Lorraine Lesar says

She just couldn't make it easy for my boys could she.....

The title isn't just appropriate for this book, it's absolutely perfect for the entire Series, I was consumed body and soul right from Book 1.

Thayne and Jarrett have never had it easy right from the very start, we always knew that love was in the air and now they are finally cementing that love by marriage. What could possibly go wrong? An easier question might be, what didn't.....

I loved it. The humour lightened the darker moments, the action was fast and furious and the sex scenes? O.M.G. This book was full of them. These two together are not mere men, they are Trojans. Sex Trojans.

Is this finally the end? I don't know. If it is, I would be a happy and contented reader. The author gave us an entertaining and thoroughly enjoyable storylines throughout.

Five big fat juicy sexy stars from me.

Ruth Evans says

Well Patricia Logan does it again! I have followed this series from book one and they get better and better.

Thayne and Jarrett are so addictive you have to read about them. Thayne has planned their wedding and it's a week away but things never run smoothly with these two! An old case Jarrett was involved with comes back to put their wedding at risk.

The plot in this book will keep you reading as you get absorbed into their world. This book will take you through the emotions you will find it exciting, absorbing and you'll be laughing throughout this book.

I would recommend that you start the series with book one to build your understanding of the characters and can only add to the enjoyment of this book.

Brown Eyed Girl ~Suzanne~ says

Locked & Loaded was my first favorite book of 2017 so it seems fitting that Body & Soul finish out the year as another favorite! This series is amazing! Thayne and Jarrett have stolen my heart. Out of all the books I have read these 2 are by far my absolute #1 couple! I have loved watching them meet and fall in love. They support one another and they respect each other. There is no crazy relationship drama, they save all the drama for their cases!

The supporting characters in this series are phenomenal. Sarah is such a strong female and I love how she is fearless and shows the boys how things are done. I forget that Lincoln & Mac aren't ATF because they fit in so well!

The case in this book is brand new whereas the past books had cases but still the Mills Lang stuff running through each book. Each case has been exciting and this was definitely different since Thayne & Jarrett were not the main agents since they were supposed to be on vacation. Everything was fit in so well and there is a

book 8 coming out!!!! I thought Patricia Logan was finished with this series so I am beyond ecstatic at this news!!!! Plus I am so interested in Mac and who he will be paired up with. Maybe Nico? Hmmm.....

The romance is so sweet between Thayne & Jarrett and to see these guys get their wedding after all they went through was so beautiful!!!

Liv says

Patricia Logan has done it again...I absolutely loved Body and Soul.. so much so that I read it in one heartstopping go!!

Jarrett and Thayne are back and planning their wedding, these two rarely manage to avoid mayhem and chaos, they attract it. It wouldn't be a Death and Destruction book without a couple of bombings, injuries to the team and some scrambling to find the baddies.

Patricia Logan takes us on an action-filled emotional journey to the altar with Jarrett, Thayne and their family of ATF, FBI, CIA agents. Adding their families into the mix was just the icing on the wedding cake.

Body and Soul is one of my favorite MM stories this year.

Maya says

I was extremely happy to find out there is another book in this series, considering how much I liked the previous one. (Thank you Goodreads for informing me!)

Jarret and Thayne are preparing for their wedding and predictably it can't pass without shenanigans. The story is unabashedly funny and easy to slip into, despite the fact I didn't reread previous book before picking up this one. Before Jarret can get married, his past once again rears its ugly head: the criminal he once failed to catch becomes active again. The story is brimming with snarky dialogue and it's very amusing. The mystery part is interesting and managed to keep my attention, mixing wonderfully with romantic part. Pacing is excellent.

There is noticeable shift in men's relationship comparing to previous book. It's not the way I would envision it and it was very sappy at times, but the progression is natural and it is great seeing that characters change as the story advances.

Otherwise it is an exciting hang-on-to-your-fingernails story. I had an occasional niggle with the plot but the story was interesting and enjoyable.

I received copy of this book in exchange for review.
