J.L. Beck

Bossy J.L. Beck

WARNING: J.L. Beck isn't responsible for the batteries you will need after/well reading this book. Please leave your panties behind, pour yourself a drink and dive into this short erotic novel that contains NO cheating, and a happily ever after. If you love your romance novels smutty this book is for you.

He's dirty.

He's bad.

He's my new boss.

When Cameron offers me a deal I can't refuse in return for one weeks worth of no strings attached sex I think what do I have to lose?

Until I realize he really does have a large c*ck and an even bigger heart, and before I know it I'm trapped in his snare with no where to go.

-This is a standalone story with an HEA. It contains no cheating, just an over the top alpha that makes you want to shuck your panties and grab your BOB-

Audrey Carlan says

"A wicked hot quickie at its finest." ~Audrey Carlan, #1 NYT Bestselling Author

Tammy says

If you want a quick, dirty, heart pounding, pressure rising story, then you've come to the right place!! This was a story that will get your pulse racing and your body rockin'!! Cameron is the perfect dirty talking, passionate alpha male and you're going to want him as your new BBF!! So one-click this book and get to it, but make sure you have a cold drink close by, you're going to need it!!

Selena Lanovara-scott says

Barely holding onto a 3 star. I was close to only giving it a 2 star. 1 bad editing need alot of work. So many errors it got hard to caution reading it with all the errors not only in spelling and grammar. Also mess up in the story Saying he only slept with her once when it has been twice.(huge mistake) . The Story was lacking for details it was a short story but just NO filler. Cameron is Sadie's boss who basically been with everyone in his office is not looking for long term but a week to his liking. I never heard Sadie agree to his demand but next thing you know he like stalking her and shows up at her house. So not Alpha male the story has so much potential just blah for me

Nicole says

~4~ hot stars from me!!

Wow what a hot boss/employee story!! It was quick, enjoyable, steamy with some really hot dialogues and sex scenes.

Cameron and Sadie had a great, intense chemistry and you know where there is insta-love/lust is certainly will be juicy, sweet and sexy and this one wasn't an exception, so yeah i definitely recommend it but be aware better read this hottie alone cause is really steamy and juicy, in addition i can't wait for the next hot story in the series!!

ARC kindly provided by the author in exchange for an honest review.

Susanna Needs a GREAT Book Please says

Stole title from another author, this seems to be JL's MO, to latch onto more popular, better written books

and ride their success. This was one hell of a hot mess, JL brags often on social media about pumping out like fifty books in the last couple years and it shows. You'd think she would improve with time, but she hasn't. This one is so chuck full of grammatical errors, cliches, and horrible adverbs. For example "business adventure" instead of "business venture". It needs editing so badly, there are so many cases of her leaving extra words in, or needing more words to make sense. The only good thing about this book is that it's so damn short.

Avoid this author if you have more than two brain cells to rub together. If it wasn't free I wouldn't bother.

Mg ♥ The Bookishmedialite says

4 "Hot for the BOSS" stars.

If you want it **HOT & DIRTY** this is it!!!

Cameron is a truly manwhore. No one can resist his devilish smile; not even Sadie, the new intern at his family's law firm. He has had the hots for her for a while. She is different from his usual hookups, cliché right? I know, but who cares, I do love it.

Sadie feels the same way, so when Cameron offers her a deal, she is game! The attraction between these two is palpable. They know it. The whole office know it.

"We were connected through a magnetic current, drawn to one another."

What will happen when the deal ends? Will the attraction turn into something else?

Bossy by J.L. Beck delivers a smutty yet, sweet short reading that will give you the chance to escape from reality for a little while with a sexy alpha male as a partner, yay!

Can't wait to read the next one :)

Denise says

Zero Stars.

At least 5 ow, all of which are the h's coworkers. So she has the pleasure of knowing he screwed them all. H also would have screwed his assistant but decided he did not want to cross that line since they worked too closely together. I HATE IT when the H/h are with ow/om in stories I read. It takes away from the main characters.

Also, the spelling and grammar are AWFUL. I mean good for you that you have an imagination to write these stories but I think your readers would greatly appreciate a proofreader or two. It's very distracting and there were quite a few times I had to reread the sentences multiple times to try and figure out what you were

attempting to say.

Amanda says

Seriously terrible, how can this be considered a story when there was absolutely zero plot and character development!?!? I was under the impression that this was erotica- which would imply there was some story to be told; but nope, it was straight up porn.

Neringa Neringiukas says

I don't know what, but this story didn't touched me. The plot is something interesting and there is some really hot scene but.... Maybe it's that the h was little spineless fool, who drooled to much over her boss. That was just irritating. And H.... Well at the end he lost the little alpha he has. Not to mention when he made his proposition, and the way he made it, I wanted to say this to him, "You never heard saying: Don't shit where you're eating? And you know what can you do with your proposition?" Lol. When you are thinking that instead of melting for H, you know this book wasn't for you.

I know it's novella and so it's short, but even with few pages your heart can be grabbed. And I think this is what was missing for me. A heart. This story was more about desire. Don't get me wrong. I love dirty, raw passion in my books. But they should come with a soul too.

So, this story didn't worked for me. But if blurb caught your attention and you love some quick, dirty office romance read, you can give it a chance. After all we all are individuals and what doesn't work for me can be something special to other.

Kathy Wideman says

This is the first book in this series but they are stand alone books. Sadie has knows her boss Cameron screws all the intern in the office and now he is interested in her. She is different though he has a deal for her. Give him a week and he will pay off her student loan debt. While the deal seems great will Sadie be able to keep her heart in the end or will he keep his promise and her heart but not her? Cameron has never offered someone a deal like he offered Sadie and he is beginning to realize one week won't be enough. Will he be able to keep Sadie forever or will she want out at the end of the week; to walk away debt free and with his heart? This was a good quick steamy read. I wish it was a little longer. I felt like just when it got going it was over. A bit rushed; everything happened so fast.

?Tonya? says

Hero was an unrepentant manwhore who slept with all of his interns, while the heroine watched on.

Heroine was pretty easy (stressing easy) to convince to agree to his "arrangement" of a week of sex in exchange of him paying off her student loans (where I come from, that prostitution).

of course they fall in love and live happily ever afteror so I assume, there was NO EPILOGUE!

-Hero is not with anyone after the heroine
-neither are virgins

April Symes says

This was a extremely hot and sexy boss/employee story. This was novella fast, super fun, and quite sexy to read. I loved the interplay between the MC (Cameron and Sadie) in the story. Cameron and Sadie has this back and forth going on , this spice that played out in the story. The angst was believable , the chemistry came across as very real and the insta- love feeling that the MC portray, made me love this story a lot but I would loved more into their story if there was more of an epilogue. Otherwise, good office romance story with quite the passion and heat.

My rating: 4.0 stars *****

"I voluntarily reviewed an Advance Reader Copy of this book in exchange for an honest review***"

Jo Overfield says

Holy Moly, Just Wow!

Holy moly! Cameron was one hot alpha agreement I'd take on. This guy gave, "Can I help you Sir." A new meaning.

Best part though was he also had heart. Just wow! ... Just freaking Wow!

Amber says

Bossy is a brilliantly stunning hurricane that will consume your mind and overwhelm every part of your heart. You will be left with massively intense emotions and beautifully epic feelings that you don't know exactly how to process, but you welcome all the same. If you never thought a short story could ever effect you, then you have never read anything written by J.L. Beck. She will take her senses by storm and never stop her exquisite barrage until you have lost your footing and are left completely at her mercy.

Sadie is determined not to fall for her boss like every other woman in her office. She is better than that, and she deserves so much more. She wants respect above all else, and she will fight tooth and nail to get it. Cameron has kept his eye on Sadie since she started working for him. Something unseen draws him to her at every turn, and he is powerless to stop it. Will the push and pull between these two lead to an ugly demise, or will an unseen yet hoped for future win out in the end?

I never expected anyone like Sadie to be matched up the ultra-alpha male of Cameron, but she was his perfect match. She never took anything from him that she couldn't meet with the same level of sass an honesty. I was completely floored at how perfect these two are! It's completely incredible and truly blissful to watch their journey take place. I couldn't have loved their story anymore.

J.L. Beck has accomplished a magnificent goal of making me feel, love, and fall apart along with her wonderful characters. She is an incredible author whose talent needs to be shared, savored, and appreciated by all readers who want the ultimate experience from the small pleasures in life. She is not one to be missed, so if you haven't read any of her books, I implore you to pick up one of her brilliant works of art right now.

Tongan Book Lover (Ofa Tafa) says

I recieved an ARC for an honest review

3.5 Stars

Despite this book having some hot as hell sex scenes that got me going crazy. This book needs some editing. I hate it when you read and then the sentence doesn't make sense. But I guess that's the point of an ARC, to show what needs to be fixed.

I also thought this book was a little bit rushed. Josi tried to pack too much into such a small book, it didn't flow properly. But I loved it! So much. Cameron and Sadie were every bit as hot. For those who want an alpha male who is possessive as hell and every bit the dirty talker, this one's for you. Long enough to rub one out.

Great read!
