Lots of ideas, but many can be very expensive.
Did find one that wa doable for the kitchen, love it!

Alma Petterson says

Some great fun ideas. I have teen boys and we are going to re do their rooms this summer.

Dennis De Rose says

DIY INDUSTRIAL PIPE FURNITURE & DECOR written by JAMES ANGUS should provide you with plenty of ideas to work with if you're looking for a rather inexpensive way to decorate your home or your shop. His first section, Working with Industrial Pipe, is a basics must-read. He reviews types of pipe and fittings and where to buy them. He also talks about equipment you'll need as well as the art of cutting, cleaning, painting and staining your materials.

The book has nice heavy covers and is organized by project type: Storage, Lighting, Decor and Furniture. Each project is colorfully laid out with pictures and detailed instructions, including a list of supplies needed, the project's level of difficulty and the amount of time needed to complete it. There's a neat Toilet Paper Holder on page 20 that looks easy to make. James claims the project takes 10 minutes. It would probably take me an hour. I am not Mr. Handyman. I bet you can tell I did not buy this book for myself. I bought it as a gift for my wife, Mrs. Fix-it.

DIY INDUSTRIAL PIPE FURNITURE & DECOR by JAMES ANGUS contains 25 very interesting useful projects. This book would make a great gift for anyone that's handy (obviously not me), and you'll be happy to know you can buy it for about \$10 right now, just in time for the holidays. If you have a moment, please check out Jim's handy website, TheCavenderDiary. You may find other DIY ideas there.
