French Kiss Susan Johnson

Architect Nicole Lesdaux has been hired to create a tree house for hunky producer Johnny Patrick's little girl. Nicky has an unlimited budget—but she might have agreed to work for free if it meant being within touching distance of People magazine's "Sexiest Man Alive."

Mixing business with pleasure is taboo though so she focuses on making this mogul the Taj Mahal of tree houses. Until Johnny's ex-wife takes off for Paris with their daughter...

Since Nicky speaks the language, a desperate Johnny asks her to help. En route, sexual tensions run high. Nerves, adrenalin, too close quarters in the private jet. There. An explanation they both can live with.

But once his daughter is safely returned, everyone has a chance to relax at Johnny's villa in Nice.

And Nicky discovers that Johnny knows some French after all.

Yemi says

absolutely rubbish, boring and unrealistic story.

Anya says

If you're looking for a novel with some substance, you are going to be highly disappointed. If you are looking for something shallow, unlikely, and at times so cheesy it's nauseating, you will read this novel with a great big smile on your face. The characters are likeable only in that they don't do anything in order to let you really form an opinion - other than huff and puff, if you know what I mean. However, the main male character's continued use of the word "babe" became annoying before Chapter 2 started. I had to change the word to baby in my head, because absolutely no one who hasn't smoked a whole lotta weed in the past 3 hours would say the word "babe" so frequently and enthusiastically. (Please don't take offense if you say it. I just have never heard in "real life.")

This book could easily fall into the category of guilty pleasures. It is an easy read (maybe 3 hours) and definitely made me miss my fiancé. I wouldn't mind picking up another of Johnson's novels again when my fiancé leaves town, and I'm feeling a little lonely (wink wink.)

Andrew Carter says

What can I say.....Susan Johnson.....nothing more.

Rhi says

Unspeakably awful. Will never finish, have no desire to finish.

Ashlie says

If you are shallow and ignorant maybe you'll like this book. Or if you're just wanting an easy read that has no point then this is it. I'm sorry I read the book. I'm just not one to not finish something I've already started.

The characters change drastically from the start of the book to the end, even though the setting is only about a 1-2 week span. It was too unbelievable for me-- not in a good fiction way--since this was supposed to be a realistic fiction. I don't think I've ever been so upset about a book. Maybe it's a new genre (flaky-doubtful-realistic-fiction) I didn't know existed and that people actually enjoyed...

Book Description

L.A. architect Nicole Lesdaux is hired to create a tree house for hunky producer Johnny Patrick's little girl. Despite Nicky's torrid fantasies about him, she must focus on work-until Johnny's ex-wife takes off to Paris with their daughter. Since Nicky speaks French, Johnny asks her for help. En route, sexual tensions run high. And, as Nicky discovers, Johnny does know some French after all.

hmmmm what can I say about this book.... It was a cute idea. There were parts that I liked and if people are into soft porn then this is a great book to read LOL. The book didnt draw me in like I had hoped when I bought it. And I think the back of the book stated that Johnny brought her to Paris to be a translator but then she found out he could speak french which I never heard that in the book... I could be wrong. Anyway it was cute it was sexy but it was a little boring most of the time. I dont know - not my fave. Im glad I got it on clearance :)

Annie Matthys says

Jesus, Susan Johnson, seriously?! I mean ...seriously?

Amy says

It is a somewhat silly bit of fluff. I enjoyed it for a while but then it became them falling into bed constantly with scary mafia men after them. I'm sorry to say that I did finish the book, by reading a line or two for every 10 pages or so. Then I went to the library and picked up something worth reading. I occasionally like a good romance novel. This isn't one.

ElaineY says

It started off rather well but Johnny, the actor, turned out to be rather one-dimensional while Nicky, the heroine, wore stars in her eyes throughout the book. It got rather boring when all Johnny had to offer for the story was his hard-on and Nicky, despite her constant internal monologue against giving following Johnny to Paris then to Nice, to dinner and to whatever, does exactly that.

It's not that I mind her taking off for Paris because this hunk of an actor asks for her help, or stays on to go to Nice because he asked her to but I just wish she wouldn't keep arguing with herself about it. Johnny, I can't quite figure out for all his simplicity - did the author really want me to believe the hero of this book is a one-celled organism who has to tell me on every page he can't get rid of his hard-on for Nicky? It appears so because I had to skip page after page, just grabbing a few paragraphs here and there and every chapter Johnny's indefatigable hard-on is mentioned. Despite the injection of Johnny's ex and the bad guys, nothing

of note really happens in this book. They're just thrown in to give us a respite from Johnny's hard-on.

Not a good introduction to Susan Johnson for me, I'm afraid. French Kiss was more like an 80's category romance featuring a hard-on for a hero and the reluctant like-a-virgin-but-isn't heroine. Because of this disappointing read, I'm no longer looking forward to Hot Property, which I just ordered.

Cheri says

First time reader for this author. If you want a bit a fluff and an escape from reality then this book is for you. Not much substance, but plenty of sex. A bit of action and romance. Mostly just a fun light read.

***Lee* says**

This book reminded me of 50 Shades of Grey (BTW I am SO OVER lead male characters with grey eye colour! - another book I am reading has the same bloody eye colour) but unlike 50 shades, it was actually more coherently written (not particularly great, but for a holiday read it did the trick) and I didn't want to throw it at the wall at any point due to the frustratingly horrible lead characters (Christian and Ana - I am looking at you two). Plus the sex scenes were heaps better than 50SOG. So I gave it three stars. That's pretty much it, I only read it because I picked it up for \$3.45 and it was set in Paris and I needed something to read on holidays!

Nicole says

Siiigh. **Why do I do this to myself?** Every time I read a Susan Johnson book I go on tirades to my poor hubby about womanizing man-sluts, women who should have serious UTI's from all that sex, and annoying banter that is about 'We just stop fcking like rabbits 30 seconds ago and I need you for another 10 hours or i am going to die, die, **die**.' or 'you're not a virgin - *shock*' or 'You're a virgin but you are a slut and mine, mine, **mine**'. But I keep coming back time and time again. Why Susan? Why do your books torment and annoy me so much that I end up sadistically coming back for more :/ I just don't know and this one wasn't an exception. How people fall in love with no real conversation just straight sex, banter and lustful stares? Who knew!

Bronwyn Rykiert says

Nicole Lesdaux is an architect who has been given the job of designing and building one of her famous tree house's for Jordi Patrick, whose father Johnny is a famous music producer. Wow! How is she going to handle working around this hunky guy?

Things move pretty fast for this pair as Johnny's ex-wife takes Jordi to Paris without his permission. Johnny wants someone who can speak French so he asks Nicky to accompany them. His ex-wife is mixing with a bad element and she steals from them and gets herself into some hot water.

If you want a serious book with an interesting mystery this is not for you, as the story line in this is a bit iffy, but you want a quick fun read with lots of sex, this is for you. It is quite explicit and I enjoyed it.

Alycia says

Horrible! It's super lame but I am OCD and once I start a book I have to finish it. It is killing me though!
