Hit Girl #2

Mark Millar

Hit Girl #2 Mark Millar

Crashing through plate glass unscathed? Child's play. Jumping over moving cars? Whatevs. When Hit-Girl is your mentor, you'd better keep up. Kick-Ass is taking lessons in Advanced Bad Assery from Mindy McCready, and in return, he's teaching her to survive middle school. The question is, can she dispatch the Mean Girls without severing any arteries? Meanwhile, Red Mist gets serious about making his mark in the world of super crime.

Paul says

This should have been kick ass 2.

Tori Fry says

I love hit girl and kickass can't get enough, but if you are going in thinking its not going to be gory then you are gonna be surprised!

Gian says

this is getting better-er.

Michelle Lynne says

I loved reading more about Hit-Girl and what happened after Kick-Ass. She's one of my favourite characters simply because of how complex she is, and this series just added another layer to her character. So great.

Cliff Bumgardner says

NOTE: I'm copying my review from issue #1 here, as so far my thoughts haven't really changed. I'll place my overall review of the whole series on the last book.

I love the Kick-Ass series; it's a love letter to comics, and is one of the most original books to come out in a while. If you're a fan of the foul-mouthed teenage superhero absurdity of those books, you'll find more to love in this mini series focusing on the little assassin who is arguably the real star of the Kick-Ass universe. Mark Millar is an incredibly creative guy with comics in his blood, and the bloke knows how to tell a fun, fucked up story. Unsurprisingly, Romita's art is equal parts beautiful and brutal, and it fits the series so well; I can't imagine any other artist drawing this series.

The only reason this book is getting 3 stars instead of 4 is, as I've come to expect from Millarworld books, someone fell asleep while copyediting. The writing is tight, but there are a handful of mistakes, such as missing words. It's not a huge deal, but just not what I expect from a professional book like this.

If you're a Kick-Ass fan, you can't miss this series. Go pick it up.

Shanna says

Just as violent as the others preceding it. Lovely.
