Excellent & A Tear Jerking End to a Series!

This is the last book in this series & it was my ugly cry so far this year. I also finished this book in 1 day as I didn't want to put it down. This book is about Randy the other boy that Austin & CJ took into their home in the 1st book & his mate Molly. This story begins with Molly & her sister Mary (a famous actress at least in this book she is) walking in a field in the back of Mary's house when they both were shot several times & Randy on behalf of Phil came to talk to Molly while she was recuperating in the hospital realized that Molly was his mate. At 1st Randy wasn't sure if he wanted to mate with her; but later decided to go for it. The bad person/persons in this book winds up being Mary's ex-husband & the shifter that he hired to kill Mary & Molly & succeed with Mary. The ex-husband thought that he was still married to Mary & that he would inherit everything & when he found out that Mary had divorced him & that Molly got everything he wasn't to happy about that & tried several different other ways to either kill her or get some money from her. The extremely sad part in this book was near the end when the spoon wielding matron of the Force family & Austin's mom, Nancy Force dies. I was crying so bad that I had to take off my glasses to finish reading the book; but this was an excellent end to this series. Thank you Kathi S. Barton for making me get invested in this book/family/series that I was crying almost like my own mother had died.

Impassable Force

This is the 8th instalment of the Force of Nature series. It is about Randy, brother to Reid, who had been taken in by Austin and CJ when they were teenagers.

Randy is a young attorney who wants to go out on his own. He feels like he is being smothered where he is. That is until he meets Molly, a police officer who has been shot, and whose sister has been killed.

As soon as he meets her, he knows that she is his mate, and he doesn't believe that he really wants one. Of course that changes in a hurry, and the fun begins.

As usual there is danger stalking the young couple that they must overcome. As well as Molly coming to terms with her sister's death.

There is a surprise ending here, and I am not going to spoil it by telling it here. You'll just have to read it to find out.

Ms Barton has done such an outstanding job with this book. I know you're gonna love it.

Niki Driscoll says

Randy and his brother were on a path to destruction until they stumbled upon CJ and Austin and their fate become something quite different. Now a lawyer and part of the Force family, Randy feels like he is on the outside looking in as everyone has found a mate. Set on moving on and seeing the world his plans are derailed when he finds his mate shot in a hospital bed. Molly is a cop whose sister was just killed and she herself was severely wounded. When Randy states he does not want her she uses her anger to focus on

finding the shooter. However, nothing works as we plan .Fate, karma and destiny will not be denied. The struggle that Randy goes through is highly entertaining and the family has no problems letting him know the error of his ways. Some interesting twists and some sad turn of events close out the great series but not before you are given a look at the magic of the spoon. If you want answers you will have to read the series, you will enjoy it.

I voluntarily reviewed an advance copy of this book

Cindy Barton says

Randy is the brother of Reid. These are the young men that are taken into the Force family, well, more like welcomed into. When you are a pack, what's another going to hurt. Randy is at a crossroads. He is taking the Bar exam, becoming a lawyer and he is now the last of the "Forces" to be mated. True to the Force form, he doesn't want one nor think he needs one. Surprise! Along comes a badly injured cop by the name of Molly and her dying sister, Mary. All it takes is that one meeting for Randy to know he has met his mate, but he will try to deny his instinct to mate with her. And, here we go!! Let the fun start now!

Molly is her own Force to be reckoned with and these two really are perfect for each other. Through time, she finds her own place within the family.

The end of a series is always bittersweet. The reader gets involved with the characters that Ms. Barton creates. In an eight book series, we get attached, we have our favorites. Yet, there comes a time when it must end and sometimes that ending can crush you. The "Passing of the Spoon" signifies the change that is coming. The change is necessary and a perfect way for the series to end.

Truly Force

She truly saved the best for last. Randy Atkins was determined to become a lawyer and move away from the pack because everyone was happy. He wasn't ready for a mate, but fortunately for him fate had other plans. Molly was a detective who was doing what she could to get her sister from her abusive husband, which never came to fruition. This was the final book in a series that I adored and will miss greatly. This story was hilarious, poignant, touching and wonderfully written that I cried at the end. if you're looking for a series that has great characters, explosive sex, suspense and just a all around good book, look no further. Every thing Kathi writes is a dynamite read.

I have always loved Kathi Barton's style and this book is no different. I truly enjoyed it and as always am waiting with baited breath for the next book.

Deb B says

I really like the stories and the characters but I don't like the writing style and I had some difficulties with the time line and the way the stories progressed. Also because the stories seemed to ramble a bit I often had trouble keeping up with who was speaking and had to often stop to reread to place the part of the story in perspective

Charlene says

Wolf shifter Randy Atkins, adopted son of Alphas Austin and CJ Force, passed the bar exam and intended to 'pay it forward' with his pack. Instead, he feels a desperate need to leave, but never anticipated cop Molly Barker careening into his life.

Molly's been trying to get her sister, famous actress Mary Ravenhall, to divorce her lowlife husband. Carter Ravenhall latched onto to Mary's rising star while they attended high school together. Just about the time Mary succeeds in shedding the snake with the help of new lawyer Phil Campbell (a Force family friend), a sniper shoots the women on Mary's estate.

Suspecting Carter's evil hand at work, Phil calls in the Force family to protect Molly and Mary and, when Randy lays eyes on Molly, his plans are thrown off course. When Mary dies and fate won't let Randy deny Molly, the couple unite to find Mary's killer, but theirs is no simple mating. Bestowed with unrequested gifts and talents, the pair work through the investigation and leap into a future neither could ever imagine.

This eighth and final book brings back all the series' characters in small and large parts. Prominently featured, 70-year old pack matriarch Nancy Force presents a whopping surprise to the close of the saga. It all culminates in the best epilogue I've read in 35 years and clouded my vision with copious tears. The Force family final installment showcases author Kathi Barton's beautiful talent at drawing readers into the very real worlds she creates. Brava!

This is the last book in the Force of Nature Series. It centers around Randy who is a young Attorney and Molly who is a Police Officer.

Randy doesn't believe that he wants a mate until he meets Molly. No spoilers but this is another exceptional book by Kathi S. Barton -- would definitely recommend to everyone.
