## **Justin** Kris Michaels

Being CEO of flourishing JK Holdings isn't a sufficient challenge for millionaire restaurateur Justin King. He craves the rush gained by facing danger and triumphing—be it heli-skiing, rappelling, suit jumping from the peaks of Mt. Everest or racing performance cars. But nothing does it for him like breaking into impenetrable fortresses and rifling their vaults for Guardian Security. It's the best-kept secret of his very public life.

Danielle Grant has built a life separate from the power and influence of her father, the owner of Phoenix Armament. As Acquisitions Manager of JK Holdings, she's made herself indispensable to Justin King on a professional level, his steady constant as she watches the gorgeous women in his private life come and go. Never once did she allow herself to dream the romantic attentions of her boss would turn her way—until fate perched them side-by-side at the precipice of a deadly drop.

Just as Justin and Dani realize what they could be to each other, a malevolent force rips them apart, and Dani vanishes without a trace. Finding her and getting her back will require Justin do the one thing he has avoided all his life—ask for the help of his family.

### **Diane says**

There really aren't enough good things to say about this book, this series and mostly this family. The family that works together, stays together. Justin is the last King brother to get his story and the author delivered above and beyond expectations.

The storyline...just enough action and adventure to make it a page turner.

The characters...flawed, interesting and believable.

Emotional and just the right amount of 'sexy time'. Nothing about the story felt forced and I especially loved how the MCs behaved like real adults, no over the top angst necessary!

I can't recommend this series strongly enough, each and every installment delivers exactly what the reader is hoping for when their passion is romantic suspense. This family isn't just about blood, but bond and I love getting to revisit with all the characters in each release. I hope Kris Michaels never stops writing about the Kings of Guardian.

#### **All in the family**

10 book later 50 stars later I am still intrigued. 10 book 10 out of 10 every time. Another great book for a great series. Like all of her other books Kris Michaels builds on what has come before. However this can also be enjoyed as a stand alone story if anyone one wants to read it that way.

Even though this is Justin and Dani's story it is always great to see the return of other members of the family, who are used perfectly as either side characters or as cameos. Justin has always been the odd one out, mainly by his own choice. This he share the same genetic make up as his siblings his focus is slightly different. The way his character develops, but also shows his differences is great. The bond of family is done especially well.

Not only is this story awesome, in the epilogue even bigger things are hinted at, and I can't wait for. This book is awesome but to get the full effect it is best to read the other books to get to know the other characters as well. I can promise nobody will be disappointed.

#### **?????????? Five + Stars**

Kris Michaels does it again. Book 10 in the Kings of Guardian series is just as awesomely incredible as books 1-9. If you haven't read any of this series, you really need to do yourself a favor and start today. I'd recommend that you start with book 1, but whichever book you start with, you'll definitely be hooked.

Justin King sees himself as being distinctly different than his brothers and sisters - but he's definitely a King through and through. His business associate, Danielle, has secrets of her own. Maybe it's time to check out that attraction Justin has been ignoring for years.... Excellent read!

every time i read a book in this series i think it can't be better than the last one, and every single one has offered something new and exciting and indeed better while still staying true to the overall story arc. Kris Michaels is a brilliant author ... the Guardian storyline keeps expanding without becoming stale .. emotions run the gamut of eternal love to soul destroying despair ... storylines are compelling and characters thoroughly engaging. this book is a great addition to an already five star series

“Being lost doesn’t have a common face. It doesn’t look same on one person as it does another. I was lost. Until I took the chance on Danielle.”

I was so intrigued to know Justin’s story and Kris didn’t disappoint.  
Loved it so much. This series is one of my favorite ever and wish it would never end.  
Gah can Kris Michaels write a suspense romance.

♥Justin and Danielle were perfect together. And Danielle was a bad@ss.  
Love that the mission brought back the whole family together. That was awesome.

And that epilogue..?  
Can’t freaking wait!!

???????? stars!!

A cool unveiling of the mystery King sibling. Second-oldest who has nothing to do with his family business? Not quite. He is a mega-successful restaurateur and speaks Michelin stars fluently. There's also this: Justin also has an adrenaline addiction. The back story is a good one, and Justin's match is exactly the one he needs and craves. A little more family time here, even though that turns out to be ironic.

Finally, there's also a little sneak peek at what may be the next story, or maybe Ms. Michaels is just being coy. I'm in, whichever way it goes!

Hmm...This story for Justin did not really grab my attention. I skipped over a lot of it and got to the main

parts; however, there were just other juicier stories with his siblings.

You do find out more about his past, what he is doing now and that he does indeed work for Guardian just like his other sibs.

BUT...there was just something that was missing and I just couldn't wait for this book to be over so I could move on.

**What the hell.....**

Kris Michaels you did it again. Justin and Dani go together like a smooth glass of wine. They start off slow and sweet and end up taking the biggest bungi jump of their lives. When Dan I is kidnapped what does Justin do but turn to his brother Jason who rallies the family. This book is over the top fantastic with all the twists and turns it keeps you on the edge of your seat so you can't put it down. For anyone who's hesitant to read this book I say just do it. You will not regret it. I won't go into too much detail because I'm not into spoilers but, I for one have bought every single book of this series and of Shadow world. You can read them in any order but your gonna get the most satisfaction by reading them in order. I promise you will not regret it. Best series ever and it's my go to when I need a good laugh, cry and omg what the hell. So get your copy now and start reading.....

**I have waited for justin for ages.**

What a fantastic book. All along I thought Justin was a normal restaurateur but as we read in the book he is a little more than that as well as an adrenaline junkie. Justin is on a job but someone needs is there who is after the same thing as he is. Leaving he calls the relevant people and goes about his day job with danni, his assistant. Danni has worked for Justin for 4 years and has liked his for about the same. It seemed to me that they both had a chemistry there, despite Max, but chose to keep it under wraps until they couldn't contain it any longer. Danni gets kidnapped and taken to Libya by someone who wants her father's newest weapon. With the family now knowing what Justin is and his reluctance to stand on the sidelines, will he be able to with the help of family be able to rescue Danni before it's too late? A fantastic read from start to finish and with the epilogue, wow I can't wait for the wonder twins books. Well done Kris on another great book from the series.

Justin is number 10 in the Kings of Guardian series. Again Kris Michaels has delivered us an incredible book. From the beginning to the end I was wrapped up in the suspense and romance of Justin and Danielle. Justin is not the typical King man we have come to love, he is so much more complex and even more yummy if that is even possible!!!! Danielle is a strong capable woman that just fits perfect into this exciting family. At the end of every book I think to myself this book is my favorite and here I am again thinking the

same thing. I am not sure how each book gets better but they do and I just can't wait for the next to be released. If you are new to this series, you can read this book first BUT I highly recommend starting from the beginning. It is worth it!!!!

You know when you eagerly & impatiently wait for something you are sometimes disappointed because it doesn't meet your expectations!! Well, let me just say that I expected a whole lot out of this book by Kris Michaels and it totally blew every one of my expectations out of the water. It was phenomenal!! Justin & Dani are awesome together, and I like the relationship Dani has with his assistant Max. The way they come together and the relationship between Justin and his siblings and why it's the way it is. It all explains so much from the series. There were some twists with when siblings showed up that I didn't expect, but I'm glad it happened. It's probably my favorite now, closely followed by Jason & Joseph.

### **Kaya says**

Despite this series being one of my top 3 favorites EVER, I've never written a review for one of the books, but I finally will now. Let me start off by saying these books are AMAZING. The King Family is the coolest and Guardian is badass. This book doesn't fail. I love that we finally get to learn the truth about Justin, which Kris Michael's has been hinting at since Tori meets him for the first time in Jacob's book. And I love Dani, I love how focused and committed to her job she is and her exuberance. She and Justin are perfect for each other. Their story is perfect and they complement each other completely. I love how with each book, Kris Michaels' keeps you guessing and on your toes as to what will happen.

That being said, the one MAJOR thing that I don't like about this series is the purposeful misdirections in terms of who is going to end up with who and what's going to be the next book. I don't know if it's part of the plot twists or not, but it's getting a little off putting. What I mean is how Chief was in love with Desiree for 3 books but then suddenly dumped her and went off and linked up with Taty; or alluding to the fact that Dixon & Drake have a history with Jade, then running off to rescue her, having "a woman who can handle both of them", and then Jade suddenly falling in love with Nic, who had previously been in love with Jewel. And now Drake & Dixon are separated, Drake has his own woman, and Dixon is off who knows where. Or how for 2/3's of Justin's book you're led to believe that Dani was the other thief in the opening scene (which honestly, I totally wish she had been). Or how Jade is supposed to be a batshit-crazy badass and then she turns out to be actually quite mushy and reserved (and somewhat boring). I've definitely learned not to get my hopes up in this series and not believe anything until I see the next book come out for sure.

Also, some of the minor typos in the story take away from the credibility. Gabriel's twins names changing from Deacon & David to Deacon & Ronan, and them going to Annapolis (Naval Academy) but then being Air Force Officers? Or Joseph (and Ember) being 34 in their book, but Joseph is the oldest of the 8, so Jacob (the youngest) is at maximum 26-27 in his book and has already served in the Marines, was the leader of Alpha Team for 5+ years, and is already the International CEO for guardian... I'm not sure if these are just mistakes that haven't been caught, but they're definitely adding up in the series.

When a man and a woman work together and have a bond of friendship it doesn't take long before they realize there is so much more. Justin never allowed himself to really become close to anyone but his family. Danielle has her own demons to conquer. Both are very private but work well together and trust each other. They discover their mutual love of extreme sports. Both start to give into their desires and open themselves up to love. When something happens to Danielle, Justin must ask his family for help. Kris Michaels develops this story at a quick pace. She saved the best King for last. This is a great action packed story and should be on everyone's must read!

## **Rhonda Beard says**

I wasn't so sure of this book in the first few chapters, it was sort of choppy and I couldn't see where it was going but I am glad I didn't give up because Justin's book was another great addition to the whole Guardian series. There was something special about our "cat burglar" and his equally feisty leading lady. I love the dynamics of this family and how when they need to they all show up and in a big way! The epilogue has me guessing what is gonna happen next... the wonder twins need their happily ever after!

## **Kylee says**

Every time I read the next book in the Kings of Guardian series I fall even harder for this family. Justin is the story that I have been waiting for, I knew there was more to this man than meets the eye. His and Dani's story is full of sexual tension, angst, chaos and lets not forget all that King family ribbing and joking. Justin's story will take us on an emotional journey to show us how his father's murder affected him differently to the rest of his siblings. It will show us that this man has kept his true self hidden from all those important to him and when the one constant in his life, sees the real him and loves him even harder, he might have just found the missing piece of his soul he has been searching for. The 10th book in this series is the most soul-stirring of them all. Their story is action packed, heart-warming and will keep you captivated and hooked to the very last page. Justin's story will show us that you can never push this family away and they will always have your six.
