This book...scratch that, this series. This whole series is basically about nothing. Really. It's the conversations of Japanese high school girls, who discuss everyday life. Those little problems we face but never discuss. How different people eat foods in different ways (so which end of a chocolate coronet is the head?) how you tend to do well at cell phone games only when you're about to get off a bus or train, how quickly common names get snatched up when a new website is started (and how you want to know who that person named 'Jane' is because really, why would you choose such a lame username?) and many, many other things that make no sense when I describe them but make perfect sense in here.

How does one review an "unfocussed manga"? It's enjoyable! And a fun parody/homage to recent moe trends in manga in general.

Another hilarious Lucky Star volume, I am really enjoying re-reading these. I just love seeing other characters (side-characters) next our main cast. Definitely happy to see more otaku girls pop up. :P Poor Miyuki, she never has any luck with dentists (I can imagine she is totally afraid of them). Plus I just love to see the art improve more and more.
