This is one of my favourites of the series. Very few Bengali books are so purely adventurous as these. That's why I keep coming back to them.

It's easy to read and the imagery is spectacular(pirates, islands, sunken ships!). The storytelling is great - the history of pirates was my favourite part. In this particular installment, the boys go to an island in search of hidden treasure that may or may not be cursed. The plot goes a long way in just 60 pages. The story will continue in the next book. This is just one fun book to read.
