Mymcbooks says

My Review: This is a fun book about Reggie the Veggie who loves vegetables and fruits. During lunch break he was surprised to see that there were no vegetables or fruits at the lunch counter. The lunch lady mocked him when he asked for sprouts. He knows as a carnivore he should love eating meat but he just loves eating vegetables. He felt so sad and the only one who can make him feel happy was his mother who decided it will be best for him to take his own lunch to school.

FTC Disclosure: I received a review copy of this book from Stan Lee's Kids Universe in exchange for a fair and honest review. I was not monetarily compensated for my opinion in any way.

Super-cute book!

It made my kiddo SAY he wanted to try veggies! Has he actually done so? No. But he's 3 and it's a book, not a magic wand.
