"Wait for me;" he said. "When this is all over, I'll come for you." Reva had fled the danger, left South America, longing for him, never believing he would make good his promise.

But he had. Just when she thought she had her life in order, when she had found Bruce, the polished, sophisticated man she meant to marry, Jeff Corbett had walked back into her life. Tall, lean, hard, tough, he didn't mince words. She was his. He would never forget her rash, impulsive surrender. His lion like eyes commanded, compelled. Could she make him understand? She was her own woman. But how long could she resist his arrogant, urgent demands?

It was a hectic and a boring read , it gave me an awful headache. **I hated and I mean absolutely Hated Reva** , she got on my nerves with her very childish attitude and contradicting actions , she had no decency as she dated a man and hooked up with another at the same time and found no fault in that , she pissed me off. Josh was too annoying , there's a limit to trying to court someone before it becomes too much I was just waiting for him to throw everything and the kitchen sink at her while he gets the hell out of there , and for a manipulator he sure stinks at it !! who the hell tricks someone and then lets them know they tricked them before it actually works not that it's acceptable to trick anyone but his stupidity had my eyes twitching. Reva and Josh had no chemistry whatsoever and I have no idea what is so attractive about Reva , she's an obnoxious ungrateful twit who didn't even worry about the man who saved her life Literally and didn't even bother to think about the other guy's feelings , so why the hell does he want to marry her ?

To sum up my feelings towards this book if I had a baseball bat and I'm facing a big fat ass spider and this book in my room I'd attack the book !!

The back story tells us that Reva and Josh met in some curiously unnamed South American country during a time of some sort of civil unrest. The only explanation we're given for Reva's presence in this war-torn nation is that she was there as a tourist, apparently

well, the hero was definitely a stalker while the heroine played the helpless female to the hilt. it was laughable how she did not want him one moment and then wanted him the very next. Reva gave out mixed signals, which did not perturb Josh at all for he was a manipulative swine ! and had no scruples! this is a must read as it was lots of fun although the main protagonists portrayed were both very immature.

An early publication (1981) and a Candlelight Ecstasy Romance says it all. Ms. Krentz has not yet hit her stride. I have been buying her early out-of-prints for just this reason, however. It is fascinating to watch her growth and maturation as a writer as the years progress. In this one, there is a lot of repetition to underscore her points about who should give up a good job and move, the male or the female, and how long should one know someone else before marriage. There is a small sub-story with Reva's neighbors, Tom and Sandy, which keeps the reader's interest from flagging altogether.
