Abby's family is going camping, and Abby is allowed to bring a friend. But who? Abby's best friend Jessica has moved away -- so Abby decides to invite Hannah, a new girl in town. Then she instantly regrets her decision. Could any new friendship withstand a weekend away with the Hayeses? Annotation Abby's family is going camping, and Abby is allowed to bring a friend. She decides to invite a new girl in town, but can any friendship survive a week in a campsite with the Hayeses? Editorial Reviews Get out your camping gear -- it's time to hit the great outdoors with Abby Hayes! In Anne Mazer's 11th installment in the popular series, the red-haired journal-writer has invited a new friend, Hannah, to join the Hayes family on a camping trip. At first, Abby makes them all swear to be on their best behavior in front of Hannah, but after several arguments over campsite reservations, berry picking, and getting lost in the woods, Abby is ready to tear her red hair out. What's worse, Brianna is staying on a nearby island -- will Hannah wind up liking her better? Fortunately, Abby's friend has an ultra-positive demeanor, and Abby soon realizes she has nothing to worry about. A zippy, adventurous episode that will make you giggle (and sometimes wince) over how embarrassing families can often be, Too Close for Comfort will surely leave you wanting "s'more" of Abby Hayes!

This book talks about how the Hayes family go on a trip to the woods and they decide to go hiking and everything. During that trip they get lost while they went hiking and all of them got really scared and they did not know what to do but it actually got all of them working together. I think that something that looks bad may not always be as bad. I recommend this book to everyone.

I was obsessed with this series when I was younger, and it got me to start writing a journal, only I was terrible at it so I'd copy entries from the book and pretend they were mine. My mom sold all these books when we were moving, and I was pretty pissed at her because I'm having a hell of time finding decently priced copies anywhere in Hyderabad. I stumbled upon this one (11th in the series, I believe) the other day in a used bookstore which made me quite happy. The book holds up - it's funny and sweet, and has a coziness about it that made me walk around in a warm haze for the rest of the day.

Sometimes you don't even know how you should invite when the parent allow you to have friends for the camp. You don't want ot invite your best friend maybe because s/he is annoying or other reasons. This exactly what Abby is dealing in this book. She's so excited of the camp as a family but neverous who to invite. However, the mood of Abby changed when she met a new friend Hannah during July 4 when the family is on pinic. Eventually they made friend and Abby knows what she's going to do for the camp.

This is a children age book. I read this because I just wanted to have a over again the feeling how I was when I were young. I like the part of when the family was hiking and Abby's father lost his trail to get back. Abby was so smart and had her compus with her that rescued entire family. Phew..it was freaking out to them. This reminded of once my family and I went on the hiking too but they didn't really get lost. However, we were hiking the mountain where a lot of graves were surrounded. It was scary to me but my family gave me the encourage and I made it.

I would recommend this book to anyone because it's good. Not every child and memory of when your family went on the hiking too.

Too Close for Comfort is a book about a girl who goes on a camping trip with her family. Her family tells her that she can invite a friend to come with but her best friend had just moved away. She decides to invite the new girl at the school and at first regrets her decision. They end up working together. This book is good for upper elementary because it could relate to a lot of upper elementary students who are having to make new friends.
