Vengeance

Shara Azod

Vengeance Shara Azod

Her scars ran so deep, her soul had been severed in two. Michelene had killed and run—but not far enough, or fast enough.

They'd found her.

Azriel had but one rule. No attachments. This rule had kept him alive. He'd lived by it—until her.

She'd found her savior in a man whose past was even darker than her own and whose soul held shadows of that dark. He made her body explode in ways she'd never imagined possible and gave her heart something she'd long given up... hope.

Michelene was his saving grace. The only thing which kept the darkness from consuming him. She was his to protect and cherish.

God help anyone who challenged that--because Vengeance would be his.

EXCERPT:

There wasn't time to cringe. In a split second, she saw something flash in her mystery man's eyes—something dark and deadly. Sensing he was about to move, her hand shot to his shoulder, her heart pounding as she tried to communicate her desperate plea with her eyes. "Please don't."

The panic that was squeezing her throat wasn't because she was afraid for Vic; she could care less about that greasy pig. Nor was she concerned this man could be hurt. She knew she couldn't afford scrutiny. She'd managed to be virtually unseen for four years; it had to remain that way. It was amazing this man didn't know who she was. "Vic's an ass, but he's harmless." Her words weren't moving him in the least. There was no visible change in his manner, but Michelene sensed he was growing more pissed, more dangerous. "He's never laid a hand on me."

That worked. She felt his tension drain a bit, while he stared pointedly at where her hand rested on him. She didn't move it. Slowly, he turned those ghostly eyes back to her face. "If he talks to you like that again, I will end him."

Would most women feel the same thrill she did at his words? Not having much experience with "normal" people, Michelene really couldn't say. But she certainly felt thrilled right down to her toes. Pussy clenching, she knew she needed to put a little space between them before she did something that would garner even more attention. Before it came to that, she tried to move, but found her arm caught in a vise made of hot flesh.

"Your name," he growled, his piercing glare keeping her rooted to the spot every bit as much as his hold.

"Michelene," she whispered back, not even considering giving him a fake name. Besides, she was sick of not being herself. There was something about him, a danger, a certain "off-ness" that called to her, told her she could be herself around him.

“Nice to meet you, Michelene.” There went that smile again. Just that tiny sign of approval succeeded in melting her formerly icy insides. “I’m Azriel Seth.”

From Reader Review Vengeance for online ebook

Clarice says

Mildly dark book, with an alpha hitman for a hero, and a heroine with a dark past that she is running from. This was a fast read with no cliffhanger and all loose ends are tied up without complication. I enjoyed reading it. It was a good book to pass the time with.

Lindsay says

Wow. So...I'll freely admit that the thought of this book didn't send shivers of excitement down my spine. I was extremely skeptical about it and that I would enjoy it. But Nikki insisted (and used it for her PIFY pick this month) so...I read it. I can report that it was good. I mean, read it in one sitting good. But even as I say that, it was missing that certain *je ne sais quoi* that I found in Nero, so while this was good...it was no Nero.

And honestly, I don't know what was missing for me.

I enjoyed the start of the story, how you're thrown right in and you find out that she's got a stalker and her stalker has a stalker to keep her safe from said stalker. So of course, I'm intrigued. And for a book that was on the short side (but not horrible short) you do learn quite a bit about the characters (at least Azriel) pretty quickly. I was intrigued by him, what made him tick...and maybe that was part of the problem for me...that even though you learn about him and his childhood and family pretty quickly, I never felt like I really got to know him. I knew how he was raised, how he was with his parents, how he was attracted to Michelene while hating that he was obsessed with her and wanting her to be his...yet I didn't feel like I actually got to know him.

The same could be said for Michelene. Her past was hinted at in terms of how awful it was, but you don't find out right away what happened. I was ok with that, the delay in finding out served it's purpose but at the same time, I guess I felt like I didn't really get to know who she currently was and her current life outside the past. The things she'd dealt with since going into hiding.

Actually, while I read, I kept comparing this book to a book I'd read forever and a day ago, that had a similar theme (hiding from people that wanted to kill her)...and how this one lacked depth to the story for me. But like I said...it wasn't all bad. I **DID** enjoy this.

Anyone that's read Nero, or my review, knows that I loved the fact that once Nero fell for Elle, he was über protective and willing to dish out vengeance on Elle's behalf. And I also loved that aspect of this book. I loved how Azriel's plan came together and that the bad guy's got what was coming to them.

One thing I found distracting about this book was the names of the characters. I'm sure the author had specific reasons to choose the ones she did, but they just didn't fit the characters for me.

Even though I had a few issues with this book, I did love Azriel and wanted to know more about him...but I'll be honest and say that the person that jumped off the page and took hold of me was Michelene's brother Pierre. For me, he was a guy I wanted more of...I want to see him run his family's business, make it his own and find a HEA...while exuding alphaness and distributing vengeance on behalf of his lady love who is in

trouble of her own. So I seriously hope the author writes him a book!

Varied Books says

DNF due to awkward writing. Also 4.99 for a 99 pg book
Is ridiculous IMO.

★Codie Abibliophobic ★ says

Hmmm.

There's a big chasm between the land of the bad boy and the land of the creepy psychotic serial killer maniac.

One land has sexy, misunderstood boys that are a balance between aggressive/alpha and sweet/cuddly bear. It's a fragile balance that can only be maintained by the true heroine, in which once found leads to the land of Happily Ever After.

The other land has dark, sinister boys that enjoy the crimson beads of blood that glides down a victim's lifeless skin. These boys can be sexy, but they're ice and bone, and only find real joy behind a scope or with steel pressed inside their palms. The boys living here creep and stalk and become obsessive over their heroine, who, unlike before, is not the balance, but the straw. Happily Ever After is the grave.

It's rare for an author to pull off the land of "creepy psychotic serial killer maniac," although I've seen it done, this was not one of those times. The male lead (can't remember his name) was not sexy and misunderstood; he was straight crazy. The heroine had a lot of baggage and honestly deserved someone that wasn't gonna be borderline abusive.

The whole book was a creep fest. From her crazy cougar mother to her crazy pedophile father and her craziness. The epilogue was cringe worthy, and both of them were honestly certifiable. She needed counseling, and he needed a straight jacket.

But if you're looking for smut then you'll love it...maybe.

***Dee's Reading Time Matters says**

Loved this book!

Christen says

I gave this book a 2 star rating because it was intriguing enough to finish but I was close to dnfing several times. First off there were way too many spelling errors, spell check should not be the only resource used for editing! Secondly, there was not enough background information, character and relationship building, I felt like the important things were glossed over that created a bad disconnect. I could not come to care for Michelene even though her childhood was horrific because of it. Vengeance had a mystical feel, I liked the premise of the story and Azriel was delicious. I just would of liked a little more meat to it.

Nikki says

This book is so not what I was expecting, but **exactly** what I wanted. I've been in a weird book mood lately. I want to read about Über possessive, borderline psycho, maybe a little stalkerish heroes that love their ladies. Extra hard. It's a lot harder to find a book that meets those qualities and doesn't come with the BDSM or extra dark erotic tag as well. So I saw some reviews of Vengeance and that its on Kindle Unlimited so I thought I'd give it a try. Perfection! It had everything I was looking for, with the added bonus of twists I didn't see and some good ol fashion revenge murder! It really appealed to that bloodthirsty side ;) Oh, and did I mention the smoking hot sex?! Oh yes. This book hit all the right spots and I'm so happy I read it! If this author's other books are anything like this one, I'm all over them!

Mspraise50 says

Michelene and Azriel story.

I absolutely loved the couple and the story. A quick engrossing read.

Another hit from this author as far as I am concerned.

Maya says

WoW!!! This book blew my mind! In a way it reminded me of Ruthless People by J.J. McAvoy. But in this one you get even more insanity. This book is definitely one of my new favourites! If you've read Ruthless People, then you know that this story might not be for everyone, like people who don't like violence and abuse. But seriously, I just couldn't get enough of Azriel and Michelene. They are both out of their ever loving minds and I freaking loved it! Hell yes!

This story had multiple POVs but the one that I couldn't get enough of was definitely Azriels.

Yes, he's a professional killer...

Yes, he's a certified sociopath...
Yes, he's the monster in the dark...
And yes, I absolutely LOVED HIM!!!

Why?

Well, the answer is quite simple actually. Once he sees 'his' Michelene, his whole life becomes her. And let me tell you, you do not wish to come between what's his, because I can guarantee you that won't life long enough to tell about it. And the same goes for anyone who dared to harm her in the past.

That man is hot, hot, hot!!! And I don't blame Michelene for wanting to take a piece of him, no, not a bit! In her place, I'd do exactly the same! Just thinking of what he's capable of outside the bedroom, not to mention once he gets his strong alpha hands on you, makes all hot and bothered. ;)

***He looked like a cardinal sin, one she was going to love committing.**
...She craved that power. Craved his darkness.*

And, oh man, did she really! You think Azriel is cray cray, wait till you meet Michelene! I'm not sure who scares me more, she or him. With him you at least know to a point where you stand BUT with her, it's like she's this black hole that will slowly suck you dry of all your life energy and you won't even notice it till it's too late! Now, that I'd call a scary motherf*****! Oh yeah!!!

Here was a man who wouldn't hesitate not only to kill for her, but help her kill anyone she felt needed killing. Quite simply the perfect man for her.

Now, if that doesn't trigger your alarm systems, then I don't know what will?! But in the end, that didn't matter to me. I enjoyed their story and if you want to read it, too...well, then I welcome you to our craziness.

"Don't google porn"...and other tidbits I've learned and re-learned today...

1) Revenge Books are the Shizzle.

Sadistic blood thirst, how do I love thee?

Many ways.

2) Sometimes you just need a book with not much story and lots 'o' possessive, angry smut.

3) Never...

Ever...

EVER...

...Google the words "interracial sex" and "bdsm gifs" unless you are NOT at work, NOT surrounded by children and WANT an eye full of straight porn.

Victoria says

3.0 RATING- Vengeance had the rough framework for what could have been a pretty good read, if you like crazy, obsessive, stalker hero's. Unfortunately, it just wasn't fleshed out enough to rate higher for me, even as a complete guilty pleasure. The story wasn't developed as much as it could have been and I think that's more due to the writing than the shorter, novella length (99 pages). There were some editing issues as well.

Still, for readers short on time and willing to accept just an okay OTT alpha story, Vengeance may work. I don't think it makes since for readers that don't have Kindle Unlimited though. The \$4.99 price tag at Amazon is crazy.

Note: At the time this review was posted, this book was available to borrow through Amazon's Kindle Unlimited program.

Natalie The Biblioholic says

This was not what I was expecting from a 100 page book. I got so much more bang for my buck with this story. Although a lot happened in such a short time, I in no way felt rushed.

Azriel is a hired killer. And a sociopath. Maybe even a psychopath? But what was normal for him drastically changed when he found Michelene. He becomes obsessed with her. He stalks her when she already has a stalker. Good thing he's stalking her to protect her from the real psycho lol. They officially meet, fall in love, and live HEA. The end. NOT!! There is so much more to this story. The killing alone is worth the read. Oh,

and the sex scenes. Cannot forget those! Hot!! Azriel is such a dirty talker. But his inner monologues are what captured me. This man was continuously baffled by how "pussy-whipped" he was. Too cute.

I think this is only my 2nd interracial book in my list of reads and like the other one, I'm glad colour was the least of the author's focus. It's mentioned but it isn't dwelt on. Thanks for that Shara Azod!!

Selena says

Azriel was truly amazing in this story. To know the type of person you are and not apology for it completely sexy. There was so many parts in this story were I had to laugh and shake my head at him. That kind of obsession can be scary but it also can make you feel like no one will ever hurt you because he will not allow it. I must see what else Shara has written.

CC says

This was an interesting read. Fairly short, but a lot going on. It picked up with Azriel obsessing over Michelene, whom he did not know and had never met. This is completely out of character for him. Their lives are actually intertwined, which you get as part of the suspense plot.

I liked Azriel - A LOT. Yes, he is a psychopath and a killer. But we can't all be perfect! I loved how he chastised himself over being pussy-whipped, among other things. His inner monologues about his feelings were hilarious. Michele was harder to get to know. She may also be a psychopath, or just severely damaged from a traumatic childhood. While very attracted to Azriel, sometimes I felt she was using him for physical security. It was really hard to "feel the love". I am not saying she did not love him, but she was harder to read and her inner monologue was not as on point as his. But I did love her acceptance of his obsession. It made for a much nicer story that there was ZERO relationship drama between the couple. He took her, she was his, period. And she did not cry and moan about it. That was refreshing.

I thought about rating this higher, but I just couldn't. The book had hot sex, but lacked relationship scenes. Instead we got intrigue and murder or discussing her terrible childhood. I would rather have gotten to see them fall in love.
