A Hot Piece Of Sass Melanie James

There's something very special about Tanner Larsen. He isn't your ordinary wolf-shifter. He's more. Believing he's been cursed by the gods, he's all but given up on finding his one true mate. When he catches the sweet strawberry scent of his Fated Female, worlds collide and ancient legends are revealed. Tanner discovers that his curse may be the only way to save his mate when a rogue wolf tries to destroy the lovers' destiny.

Myst says

Good short story, wish what series this also ties with was listed. I like Norse mythology, this was pretty simple to know besides the Trio's names. #coyer

vickie white says

A Hot Piece of Sass: Sassy Ever After (Black Paw Wolves Bk. One)

Highly recommend this book. Good character build through out. Really liked Tanner and Hannah. Both strong strong leads. Action is great. Ms. James is a good paranormal writer. Makes you care for the people she writes about.

Ti says

Decent plot. Seems a bit disconnected at times and the ending is

Katherine says

Throw one Sassy as women who doesn't want to live by just her mating instinct and one hell of a stubborn bear Wolf and the world is only going to get interesting.

The only down side is I want more I need to know what's going to happen next

L M says

2.5 stars. I didn't hate it but it could have been so much better if it had been thought out a bit more. Have not read anything by this author before so am unaware of the packs Norse history and characters. I have read the Sassy Mates - Wolfe Pack books.

Reading my way through the Sassy Ever After series in Kindle Unlimited is a good way to find new authors. This should have been a DNF for me except I have just grabbed some BLACK PAW PACK books and I wanted to stick till the end to see how things developed.

Despite proof reading errors I was enjoying this until chapter 8, then it just became a series of stupid eye rolling scenes I think were meant to be tension filled but just lost the plot for me.

Our heroine Hannah, is anything but sassy. I found her attitude depressing, with her moaning about her weight, her looks and not finding a mate.

At the scenting ceremony Hannah smells something divine, wolfs out and goes racing off into the woods chasing the smell.

Our hero Tanner, from another pack, who I quite liked and was very interesting, is off running in the woods to get away from all the wolves at the scenting ceremony when he smells a divine scent too.

Unfortunately for him he stumbles upon three rogues that are torturing a female shifter with SILVER and a branding iron.

The hero attacks and beats them apparently half dead but does not kill them as he is on another pack's lands. Fair enough, I can understand this fact.

Hannah also arrives on the scene and helps Callie the tortured woman, who is a stranger to the area.

What happens after this scene is what had me rolling my eyes.

Callie has managed to shift to wolf, Hannah sends her off into the woods, the same woods that she was originally lost in when the rogues caught her. HUH. As Callie never found her way to the scenting ceremony, or to the Wolfe's to raise the alarm, she must still be lost in the woods.

Neither of the two H's have called, (yes they have phones that transition in their wolf form), or sent up a howl for help to deal with the rogues.

Hannah is too busy giving Tanner a hard time. As in - You might be my mate but I will decide my future, not my wolf, or the fates, even though I have dreamed about you and you are super hot.

The hero is a giant wolf berserker but the highly smelly rogues sneak up on them kissing and knock him out and of course grab his new found but unclaimed mate and take her away. Tanner then phones for help when he comes too. Barbara and Tristan Wolfe are, in the authors own words, there WITHIN MINUTES. Hence the stupidity of the plot.

Then it got sillier for me as one of the rogues mate marks Hannah but that is okay as Rafe the Black Paw Alpha can just make a mate bond go away.

I sometimes wonder if authors would read their own books if someone told them the plot beforehand.

I love a good shifter romance but I hate being treated like I am simple or stupid. Make things believable in a world of make believe for my reading pleasure.

Ana says

Which way is that darn Scenting Ceremony, there are some hot shifters there!

Hannah is tired of her aunt and mother harping on her to get a mate, never gonna happen, no matter how many scenting ceremonies she goes to she is still going to be the pack Old Maid. She is not meant to have a life mate and she has come to accept that. Then why does that big as all get out wolf turn her on so and he smells so good! What Hannah doesn't know is that her Aunt Barbara and her friend Grace from the Black Paw pack have set a plan in motion, one that will rock her world!

Tanner being the biggest man, wolf and a Berserker to top it off, not to mention that he can hear everyone's thoughts, doesn't even consider having a mate. When his alpha's mother sends him to deliver a package to Barbara for the Scenting Ceremonies, he is hard pressed not to stay.. More so when his wolf catches a whiff of sweet strawberries, he can hardly contain him.

What fun in this action packed and magical story.

REVIEW

This books gives us Tanners story one of the members of Rafe's clan. He is a shifter but not a normal sized one.

Tanner is a huge shifter with magic. He wants what everyone else has. A mate, a family, and he wants to stop having everyone in his head.

Tanner takes on a task for Rafe's mom and heads to another town during a shifter mating ceremony. He does not even want to hope that maybe just maybe he may find his mate finally.

Some real bad people have taken a young girl, this is when Tanners mind, and nose takes him to where he is needed most and who does he happen to smell?

Hannah has always been a curvy girl and although it never bothered her it doesn't help that she hasn't found her mate. She is tired of her mom and everyone else gossiping about that. While at the mate sniffing ceremony she decides to head out for a run and the smells that attack her nose lead her into some thing that will cause her heartache and amazement.

Very well written shifter story. We get action, suspense and romance all in one.

Natalie says

A Hot Piece of Sass: Sassy Ever After

I was so glad that Tanner's alpha was able to undo the mate mark that rogue have his mate. I can't wait to see what's coming for the Black Paw Wolves next.

Joann says

Shifter yum

Now this is a totally different type of shifter love and saga. It's bad ass, and sassy to the max. This is a saga I don't want to miss.

Eskimo Princess Jenkins says

not a fan.

loved the Sassy Mates from Milly Taiden, but not this add-on to the series.

Sabrina Wilfinger says

Wolf

Norse mythology is not as well known to most but often a source for werewolf stories. Did not like ending.

Betty says

Tanner Larsen is asked by his Alpha's mother of the Black Paw Pack to bring a package to Barbara Wolfe, of the Blue Creek Pack, for their Scenting Ceremony. Hannah Jones, of Blue Creek, has just about given up on finding a mate. Unbeknownst to Tanner and Hannah, the two women are trying match making. Tanner & Hannah find more than they bargained for.

Loved this story and the big wolf Tanner and the sassy wolf Hannah. There's action, suspense and hot sexy romance. Highly recommend.

Rose Anna says

Sassy Mates

Hannah has a sassy mouth and viewpoint when it comes to finding her gated mate. It was a total surprise when it happened. Good story check it out and find out what happens.

Jane Elizabeth says

My...

My first introduction to Melanie James, but not my last. Great start to a new "Sassy Ever After" series, adding new characters, with amazing "majiks!" Definitely worth reading!

A Hot Piece of Sass: Sassy Ever After (Black Paw Wolves Book 1) by Melanie James

I purchased this book from Amazon.

I love Paranormal add the fact it's a quick novella and I am allll over that

Hannah and Tanner are both tired of being alone. Hannah fears spending the rest of her life as a pack

spinster. Tanner fears being alone because he is just too "different" from the other wolves in his pack.

When meddling pack members get involved and bring Tanner to Hannah's pack for the early scenting ceremony no one knew what they were starting. It seems fate and the Gods are also at play for Tanner and Hannah.

Hannah wants Tanner but is not just gonna be the good little mate and take is mating mark without laying down the rules. Unfortunately, they get side tracked and the bad guys swoop in stealing Hannah.

I loved the twist of this paranormal shifter story. I loved the Norse Gods and their mythology being brought forth into the story. I am going to grab another book in the series to see if they continue to Tanner/Hannah story because if so this Pack has some trouble coming their way.
