## **Breathe Again** Rachel Brookes

For Savannah Rae, the thought of living in her picture-perfect world was almost too much to comprehend. With her dream job, a family she could finally call her own, and the beginnings of the best chapter of her life, she still couldn't shake the unnerving feeling that it was all too good to be true.

The thought of a life without Savannah was incomprehensible to Tate Connors. Never in his wildest dreams did he think he would find his girl in the form of a sassy, stubborn, beautiful Australian. Finally he had the girl and life he so desperately wanted, but he still couldn't ignore the fear that it would crash around him.

When Tate's past becomes his present and Savannah's present becomes her past, the possibility of a future together collides head-on with reality.

In her darkest days, the words Just Breathe provided a peaceful comfort to Savannah from the heavens above. Now as she and Tate go down the path of new beginnings, brutal endings, and the constant craving of a happily ever after, they are anxious to learn how to Breathe Again.

## Michelle ♥ The Romance Vault ♥ says

I received a copy of Breathe Again in return for an honest review. My reviews are my own and are 100% honest.

The continuation of Sav and Tate's story starts off with Sav coming back to LA and having to deal with the Chelsea-Gate conundrum and finally listening to Tate and realising that her life is meant to be with him. But is that life going to be plain sailing from now on? Oh no of course not! We've not got rid of Chelsea yet and then there's Tate's father and then there's everything thrown into another tailspin of lies and deceit.

Then Sav finally becomes a mum and oh my Lord above did I or did I not bawl my eyes out! Of course I did. How Rachel wrote those scenes was just perfect, so very touching and so very beautiful. I am a sucker for a birth and I felt I was in that room with all of them enjoying the proudness of the moment.

Then we hit Part Two..... Just by seeing those two words I knew I was about to be consumed by pages of turbulence and boy was I right! What happens and takes Sav away and then subsequently what happens back in LA is there nothing that a woman won't do to mess with them all! And by that woman I think you know who I mean! But it isn't just 'her' there's deeply hurt feeling running amok and now I am going to be brutally honest, I was totally fine and loving Sav and Tate until Australia happened, how they then subsequently dealt with each other wound me up. I couldn't believe what he was saying and I couldn't believe what Sav was saying this was just messed up for me. Don't get me wrong I was still invested but I absolutely 100% wanted to bang their heads together and scream and shout to 'FFS' get with the program and get it together!

Then that ending, sigh, my inner romantic was doing a complete dancing jig to that ending, especially where 'the question' happened, (massive wink) and this all brought about a beaming happy smile to me and a fully sated romantic sigh.

Can I give this book more than 5 stars???

You HAVE to read this!!!

Ok, so I loved the first 2 books in this series (Just Breathe, and Breathless), but, this book was my favourite of the 3. Rachel Brookes is one very talented author! She had me go through so many emotions in this book, I laughed, cried, screamed at the characters, and cried some more. Oh, did I mention Tate Connors? You will be falling more in love with Tate in this book, (if that's possible), that man is my idea of perfect! The rest of

the gang are all featured again, as well as some new characters, and we learn what fate has in store for all of them.

You will not be left wondering in this final instalment, 'Breathe Again'. Rachel has written an amazing series, and I can't wait to see what's next for her..... I'll be watching closely.

*A gifted copy was provided by author for an honest review.*

This is the second full length novel in the Breathe Series but there is a novella between book one and two that must be read to read the third book, so this is really the third book in the series. I'm going to be totally honest and say that I found this book to be average. Nothing special in my opinion, but not a god awful read that you can't get past the 10% mark.

Australian born **Savannah Rae** is pregnant and finally coming home from her extended work stay in New York to finally build her home in Los Angeles. She's still separated from her boyfriend or now ex-boyfriend **Tate Connors**. Tate wants Savannah back, but Savannah doesn't know if she can trust herself and Tate this time around. This book moves us along over the course of a few years.

Overall, I found that I couldn't really relate to the characters. Savannah is an all around immature person, and from book one I didn't like her all that much. Tate, I felt bad for. He wants Savannah more than life, and she just doesn't see it or maybe she takes advantage of it. And when things go bad, she becomes a total bitch. The writing was done well, so I'm giving this book **3 STARS out of 3 STARS**.

What an ending!

I had the privilege of receiving an ARC of this book.

It is the perfect ending to a great series.

There's twists you never see coming and I love the crazy antics of all the gang.

I laughed, I cried and laughed out loud some more.

"I had just gotten caught under the Tate Connors Effect once again"

I loved this series and highly recommend it!

Wow just wow. I loved this book so much. At the start of the book Tate and Sav are still in different parts of the country separated by Chelsea's lies. When she finally comes home they have to pick up the pieces and decide how they move forward. The second half of the book is them settling into their life with a child, when tragedy strikes. Once again they are separated and Tate's not sure if they can survive this time. I'd love Mr B to have a book.

This is the third and final instalment in the Breathe series and it is the perfect ending to Tate and Sav's story. Along with their relationship growing from book to book, Rachel's writing has also gone from strength to strength too. Since book one, Rachel has grown as an author and each book captivates into the lives of not just Tate and Sav, but all the characters along the way too. She has a way with her writing that drags you in and you keep turning the pages until you have read the last sentence and think "what do I do now?"

We have been through thick and thin with Tate and Sav. We have watched them face their pasts, their demons. Watched them grow together and separately throughout the series and we watch all the drama unfold only to be put back together again and overcome with the happy ending that they both deserve.

There are certain parts of the book which had me shaking my head at and although I want to write about them, I'm not going to as they are kinda spoilery. I will say that both Sav and Tate were in the wrong, and if they both just pulled their heads out of their ass then none of the problems would have happened in the first place. It was stupid and the solution to this was pretty damn simple in my eyes. If that had happened to me, I would have dropped everything and gone (You'll understand when you read it/if you have already read it) and then none of the shit would have been happening. But then it is Tate and Sav and they always do things the hard way.

Sav is still the spunky, fiery woman we all know and love, but we also know just how deeply in love she is with Tate. Their relationship has its ups and downs but you know that whatever happens they will find their way back to one another soon or later. With that ending with *Breathless*, I was with baited breath as to what was going to happen in *Breathe Again*. Sav is a stubborn mule and we all know she has flick you off with a finger and ignore you. But then Sav and Tate were never drama free and you expect something from them. But then you see their relationship flourish and you see them happier than ever, finally putting all the shit behind them. I loved a happy Sav – she has grown up so much over the course of the book, it was nice for her to find love, to have this family and people she could rely on.

But as I've said, drama follows closely and you see insecurities, her fears and her fear of her past being relived. It tore your heart to watch this from Sav (and the same for Tate too!). It is a difficult journey but one you know she has to take to get where she does at the end. Everything she has been through only makes her stronger and it was the perfect conclusion to this series.

After the ending of *Breathless*, you completely feel for Tate. And if we know anything about Tate we know he's stubborn but also determined. He will do whatever he can to win back Sav but we also know Sav is

stubborn too and this makes it difficult on both of them. But then I loved that it wasn't all 'I forgive you', Sav made him grovel and in the end she couldn't resist anymore. It makes it more real.

We see Tate so happy but then his past is still haunting him, especially his father and we see that take over him, make him insecure, angry, hurt but with Sav he can get through it all. He is still the sexy, arrogant, dirty talking guy we all love, but we know there are many layers to him and we see all of them at some stage. As I've said, all is happy and then we hit part two and everything they have fought for comes crashing down. We see Tate depressed, annoyed, angry and hurt. We see him over-thinking things, questioning himself and Sav and you just want them to get it straight. To communicate and as I've said, this is the part which annoyed the hell out of me. It was a simple solution as to what to do, yet neither of them did. Tate could have easier left and go Sav but he didn't. I didn't really understand him when Sav came back but I suppose that is Tate and he's been hurting and confused.

But when they do get their shit together, Tate is getting over the past, and we see him gleaming, so much happier and stronger and you know that he and Sav are the real deal and they can finally breathe again together – as a family!

I have thoroughly enjoyed every book in this series, enjoyed watching everyone grow up, bond and have such a special love for on another. To see the end of this story is pretty damn sad but I am loving the fact that Blake is going to get his own book. I love that guy! Let's hope Rachel will decide to write one for Mr. Davenport ;) YUMMMMMMM.

My oh my. Tate Connors. Happy sigh. Sad sigh. ARGHHHH what am I going to do without Tate, Sav, Tanzi, Jack and Mr D!

Rachel gave the perfect conclusion to the already epic story!!!

Tate Connors has been in my top 3 book boyfriends for a very long time but now he has solidified his place there.

Rachel has improved with each book in this series with her writing style and I loved where she took this book. When I started reading I thought right come on they have to get there happy ending, but lets just be realistic got a moment, no1s life is the perfect happy ever after and that's what I love about Rachel and the way she writes. Nothing is perfect. There will always be something in the background.

Chelsea for one.

Tate & Tanzis father second, and what secret is he hiding? Something Tate will not take to kindly to I'm sure!

Buy. Read. And salivate over Tate Connors!!! You won't regret it!!!

\* I received an ecopy of this book in exchange for an honest review. \*

From the first book in the series to the last you will root for Sav and Tate the whole time, you just can't help but want to see it work for them! I honestly wasn't sure where the story was going, it was so unpredictable, and I honestly didn't know until the very end if there was even going to be a Sav & Tate or if they just couldn't make it work no matter how much they loved each other. There were times I wanted to throw the book (well kindle), times I was almost crying with the characters and times when I was just laughing out loud. The writer has evolved almost as much as her characters throughout this series and I love it! I love the way the characters are all there for each other, the angst of them, the joy they bring each other and of course the swoon worthy day dreams involving the "Tate Conners Effect". The story pieced together 6 people (main characters) who all had a backstory and made them into a family. It gave hope to those out there that blood doesn't make a family, that love, perseverance, encouragement and friendship create a family. The flow of the story was great, it was well written and you felt like you stepped into the California cities right along with them. The details were amazing and it made you actually feel as if you were there. I can't wait to read another book by this author, as she has made her way onto my list of favorites! Make sure you read this series, as it is one that cannot be missed, it is just that amazing!!

The perfect conclusion!

I was really blown away by this book. Seeing Tate and Sav go through SO much and then overcome so many obstacles was really important to the development of these characters. I didn't think Tate and Sav could have their happy ending until they were able to work through all of their issues and learn to really trust in one another 100%. We see them really take the first step towards doing that in the first book Just Breathe, but they still have their hesitations and fears.

Here, we really see them grow not only as a couple but as individuals. Life is not perfect and it will get in the way and it does for Tate and Sav and they both have to make some pretty difficult decisions here.

We have a new addition in this book that I just absolutely adored! I could not get enough of this particular character! :)

Tanzi, Blake, Jack, and Mr. D are all back and I have to say Rachel has created such a wonderful cast of side characters. I hate when those characters get overlooked because they can really give a plot more substance! Tate and Sav wouldn't be where they are now without the love and support of their friends and I'm really glad they remained such an integral part of this novel.

I am sad to let Tate and Sav go, but I have loved being a part of their journey from two broken character with heavy emotional baggage to two independent, strong individuals who will fight for what they love and believe in and not let the outside world tear them down or make them doubt what they know is real.

A beautiful conclusion to a wonderful series!! Rachel, you nailed it!!!! I absolutely LOVED *Just Breathe* and

*Breathless*, but *Breathe Again* definitely became my favorite book out of the three. There aren't enough words that can express how much it means to me. It was truly the most wonderful experience seeing Tate and Sav come full circle and get the life they both deserved. Their story was honestly a rollercoaster ride I did not want to get off from.

The books in The Breathe Series MUST be read in order, so if you haven't read the first two installments, STOP reading here.

***“Savannah, I never knew perfection until I met you.”***

Things in *Breathe Again* start off a couple of months after that cliffhanger ending in *Breathless*. We have a heartbroken Tate trying to keep his life together while missing the one person that completes him...Savannah Rae. To say things are emotional in this book, would be putting it mildly. Sav and Tate don't have it easy, but in reality, every heartache is worth it. They learn and grow from each experience. They become even stronger.

***“Let me pick up your broken pieces, Tate. Let me make you whole again.”***

There are quite a few surprises along the way and Tate and Sav's relationship is tested...a lot. Prepare yourself for one hell of a ride because both Tate and Savannah are forced, in ways, to make very difficult decisions..... And just when things are finally good between them, Rachel pulls the rug from under us!

***"You own my heart, Sav. It's yours to break."***

There were times in this book where I wanted to hit someone -- hard -- and others that seriously made my heart race and palms sweat. The things that happen..... Sigh. Hell, I was basically about to have a total freak out at times. Gosh! This. Book. I'm telling you, Rachel nailed it!!! It's written very well and has such a smooth and realistic flow, that it's as if I was right there with Tate and Sav and the rest of the gang. I felt everything.....lived it. I absolutely LOVE these characters. They will always hold a special place in my heart.

Overall, *Breathe Again* is a phenomenal book! Can't stress this enough. It's got angst, hot and steamy passionate scenes, and a lot of page turning events! It has everything. If you loved Tate Connors before, he will melt your heart completely this time around. I highly recommend this book to everyone that loves a good romance!! I am incredibly proud to call such a talented author my friend.

***“Just you and me, Sav. Just us.”***
