## **Journal of the Unknown Prophet: A Visitation of Jesus Christ** Wendy Alec

During a ten day period in November of 1999, Wendy Alec received a visitation from the Lord Jesus Christ. He spoke of mercy, He warned of judgment...on the world's trading systems, on ministry leaders...upon the church. He wept In two separate visitations in 2002, He spoke in anguish of the last days assignments against the elect, He warned of the great blinding, of seduction, lust and Jezebel, and the great falling away... 'My children perish...' Jesus' voice was so soft...that it was barely audible... And then He turned to me, His beautiful countenance ravaged with grief. 'Now warn My children...warn My beloved...that even those in the deepest mire might find their way home...' This is the extraordinary record of His discourse.

### **Paul says**

This is a good way to get a feel for Wendy Alex and god.tv, the TV station she founded with her husband. It's largely a book of her prophecies for corporate groups, like America. It's very encouraging to hear that the media, and international media at that, finally has somebody with a strong prophetic voice.

This is such a powerful and important book. I read it constantly, savoring ever word and meditating on them. If you believe that Father still speaks to His people in very real ways you need to read this book.

### **Karen says**

This was not the first time I have read this book and it probably will not be the last. I often feel called to read it over and over bolstering me in what God is saying about the times we live in.

I read this book in a day, its totally amazing! I loved the first section the most, it just reached in and broke my heart, over and over again. I think this style of writing is just so beautiful, cutting out the author completely and just leaving you alone with Him...highly recommend!
