## Menage A Cowboy: The Complete Series Jamie Klair

When Grace offered to work at the vet clinic the summer between college and vet school, she did not expect her very first day to involve a sexy, shirtless cowboy, a misunderstanding of embarrassing proportions, or her arm shoulder-deep inside a birthing mare.

Newly single and never one to jump in blindly with both feet, her summer kicks off to a very heated start when she finds herself jumping **out of the frying pan** that is Adam, **and into the fire** of his twin brother, Scott.

Will the heat of this Texas summer melt her with desire or burn her to ashes when both **billionaire, cowboy brothers set their sights on roping Grace in between them?**

## **Elizabeth says**

This was a quick, sexy read.

There were a couple of things that made this story pretty unrealistic (in addition to the heroes). I'm not going to list them all, but I will say the idea that a 19 year old would be entering vet school seemed a bit odd.....

Keeping in mind that this was a free read, I can't be too hard on the book. If you are looking for a more erotic read, especially one that isn't terribly long then this would be a good choice.

### **Much better than expected**

I really didn't expect a lot from a book titled like this. But it was in an anthology and once I got started I had to finish. It was so much better than I expected and I really look forward to seeing more of these three. The author writes some hot scenes, but it was also a good emotional story. I really liked Graces spunk and her I don't give a darn what you think attitude. No needy shrinking violet here!

This is a really good menage romance. It is well written, the characters are developed and the storyline captivating. It also handles the relationship between Grace, Scott and Adam in a realistic way. They have concerns. They know there will be obstacles for their untraditional relationship but they handle them with honesty and maturity. The supporting characters contribute to the story with their own problems and misunderstandings.

I recommend this book especially if you like stories that build the relationship organically into the best kind of HEA.

### **An Awesome Read!**

I really enjoyed reading Menage A Cowboy: The Complete Series (Billionaire Western Menage), all about Doctor Danny the Vet and his daughter Grace a future vet in the making & Scott and Adam Mitchell the owners of Almosta Ranch. Doctor Danny & Scott are working together to pull a colt out of its mama but are having extreme difficulties, so they ask Grace to help. She hesitate at first but jumps in and puts her hand into the mare to try and pull out the colt. Scott walks her thru what she's looking for and without looking she can feel the nose and the knee & finally the hoof, she needs both hands and pulls really hard and then the mare takes over and out come the colt. It was the most beautiful thing Grace had ever done. Sure she has

seen her father do this a thousand times, but you never forget your first assist. It was even more special since, Scott was shirtless and absolutely gorgeous. He told her to go into the house up the stairs on the right into the bathroom and take a shower, cause she was covered with also rats of slime from the birth. The author wrote a very interesting and amazing story, and the characters brought the whole story to life. Read about the various adventures that Dr. Danny and his daughter Grace get into. Also read about the owners of Almosta Ranch and follow the twins through there everyday lives and the one women who has captured their hearts! I really enjoyed reading about Scott, Adam & Grace maybe there will be another bundle written about them after she becomes a vet, that would be neat!

### **It was ok**

I liked the light hearted feel to this story, as well as the different problems Grace had to face. For a ménage, there could've been more sex scenes for my taste. I think I would've liked to have more deep connection with the 2 men and Grace as I feel like it was just physical attraction and not love; I feel like we didn't get to know Adam and Scott very well. Don't get me wrong, I'm all for hot, sexy stories with just lust being the driving factor, I just want 1 or the other, not an in between. Scott and Adam were super sexy, loving men and I liked the hint of dominance in the story as well.

And as a side note, being a vet myself, it irks me to no end how no author does their research! You don't start vet school at 19, it takes a 4 year degree and the program is also 4 years. At least the minimal vet stuff on the farm was ok. End rant.

### **Enjoyable**

This story is funny and enjoyable. The speed of the relationship is fast but not completely unbelievable. The reactions and situations add both excitement and make the story feel real.

Grace, Adam and Scott are so hot together and their chemistry is amazing. This story had me entranced from the very beginning and kept me involved all the way through it. At first, Grace mistakes Adam for his brother Scott, but after their kiss, she starts to imagine both of them together. After her steamy kiss with Scott the next day, she has even more of an imagination and hopes to hear from either of them. When her ex shows up at the rodeo causing a ruckus because she dumped him, her life feels like it's both falling apart and just beginning. These three go through some hard times together and it only makes them stronger. Psycho Jake may just get what's coming to him after all he's done. This is a definite must read if you love cowboys, sexy times and hot ménage.

## Cindy Caron says

If you aren't ready for hot and sizzling, then don't pick this one up. If you are looking for a cowboy sandwich with lots of action, a bit of suspense, a few family issues and lots of hot, steamy sex, make sure you read this! Wow! Jamie Klairé has managed to give us a series with lots of bite among other things. The plot of this story is awesome, with normal, everyday issues, extremely well written and very easy to follow. The characters are hot and will have you drooling from the get go! Even Jake has his issues.

While Grace's plans for the summer were to work along side her father to learn more about her chosen field prior to starting vet school in the fall, they are quickly shuttled to another area of expertise once she meets Scott, and of course his twin brother Adam. When these cowboys catch whiff of her, there's no turning back. Read the series, as all hell breaks loose, with more action than you thought possible.

Great read!

I was given a copy of this book in exchange for my honest opinion.

### 3.75 STARS!

This is an intense read, in the panty-twisting sense! Short but still with a lot of sexy moments.

There are just days when nothing satiates my reading hunger. One fine example is today. I am looking for something and I can't even define what it is! So frustrating! I read 6 books today and finished 5 of them (granted that it is all short and this book is a 3 in 1, so maybe 4?). That is how I arrive to reading a menage tonight. Best decision ever. Twin cowboys? SOLD.

Grace was on the road to veterinary school. While waiting for the school to start on August, she's helping her veterinary Dad on his appointments. That day would be helping a mare birth a foal. A predicament lead her to be elbow-deep inside a horse's *you-know-what* while being sweet-coached by a very fine cowboy. After getting cleaned up inside the house, she met the cowboy outside the bathroom and get a little *acquainted* with him. Except he's not the cowboy before, he's the twin brother.

Adam Mitchell is light hearted and carefree while Scott is the aggressive and passionate one. Together they are a combo that will make you essentially combust.

*I knew one kiss wasn't enough to judge by, but it seemed that Adam was rash in behavior but sensuous in his kiss, whereas Scott was controlled and teasing in his behavior, but passionate and demanding in his kiss.*

If you are not a fan of menage or M-F-M as they call it, this is not for you. But if you are feeling a little bit adventurous now, just give it a shot!

### **P says**

First of all, this is a really hot read. But the character development is good too, and the sexual tension is finely balanced. Then it's all nicely wrapped up with an HEA. Still smiling! Disclosure: I received this book as an Insta Freebie and am voluntarily reviewing it.

#### **Dragged...**

Seems contrived compared to other stories of the same genre. Characters, while sweet, seem one-dimensional. The issues they face are just glossed over and the book could have ended several chapters earlier because of the rushed solution.

### **Melissa says**

I really enjoyed this menage set. It was light, fun and sexy.

\*I voluntarily read a Review Copy of this book. All opinion stated are solely my own and no one else's\*

Grace is supposed to be assisting her dad (a vet) to deliver a colt but she's too busy ogling and drooling over the sexy cowboy standing before her. When she's finished cleaning up, she bumps into the sexy cowboy - she's so high after assisting with the birth that she hugs him and before she knows it, they are involved in some serious lip locking. When she hears her dad's voice, she's shocked and confused at the sight before her. There are two identical sexy cowboys - which one was she just kissing?

She has an insane pull to both brothers; but when Scott makes her a sexy offer, she simply can't refuse.

A fun, sexy yet steamy read and I really enjoyed it. The characters developed really well and the insane chemistry was explosive beginning to end. The relationship was unconventional but I liked the fact the characters weren't ashamed but damn proud of their unique relationship.
