Cyndy J Green says

I read this with my 3rd generation certified year-end 3 year old grandson. The whole family has been going to Monster Jam since WAY before he was born, so it was only natural bed learn to love them, too. He was very excited to see a lot of his favorite trucks in this book and I was happy he say still long enough for me to actually read what was written about them. Three & a half year olds don't have the longest attention span.
