Weekend Wedding Deception Debra Andrews

The worst thing that could happen to Abby Warren is to run into her ex-boyfriend Jack at her best friend's wedding. When the man who broke her heart strolls in with Abby's beautiful ex-roommate clinging to his arm, Abby is sure things can't get any worse. Dateless herself, Abby is determined to immerse herself into the lavish, weeklong festivities at the McAlister mansion and meet someone new out of all the single, handsome men, no matter how much Jack's being there haunts her.

Moving back to town to purchase his family's old company, Jack McAlister has tried to wipe away memories of Abby any way he can. After what happened between them, and the trouble she caused him, he can't stand the reminder of everything they once shared, nor the temptation of being near her and the jealousy evoked when other men surround her. However, when they come face-to-face, old feelings surface, making them both wonder how something so right could have ended so wrong.

As if dealing with Abby's presence isn't bad enough, his new girlfriend is clamoring for an engagement, and Jack soon becomes aware that he has business rivals—and someone who has an ax to grind and a bit of revenge...

"Lies, Betrayals, and Second Chances..."

(Guests have gathered for an elaborate weeklong house party before a wedding at the McAlister mansion, owned by billionaire Mr. James Farrington, patriarch of the family.)

Michelle Quintana says

I won this book from Goodreads. A love story filled with intrigue, deceptions, and heartache. Parts of the plot was predictable, but it was still an enjoyable read. The ending was a bit over the top and it seemed kind of busy. Instead of confronting each other about things falling about, they chose to believe the lies that were told to them. Despite believing the lies, both Abby and Jack realized they still loved each other. I have to admit, the person who was trying to sabotage Jack's company isn't who I thought it would be. I wish the book would have been longer, because then it wouldn't have felt rushed and over the top. This is the first book I have read by this author and I want to read the other books in this series to see what happens to the other cousins

Tammy says

Intense!

I couldn't put this book down. There were unexpected twists and turns that made it so I couldn't put this book down. I loved it. I received this book as a gift for an honest review.

Victoria says

Is a great book to read

Kati says

I won this book for free though a goodreads giveaway.

The book was a little shorter than I expected, and a very easy read. I read it straight through in about two hours. I felt that certain things could have been expanded on to enhance the plot, especially the subplot of the construction company and someone wanting revenge. I found that part more interesting than the love story. Pretty much all the characters seemed flat to me and I felt that they too could have been fleshed out more. The ending was difficult for me to read because I felt everything was just too perfectly wrapped up quickly and conveniently and happened all at once.

Sherry Westendorf says

I just loved this book. I couldn't put it down and I wished it hadn't ended. Love all the suspense. Also loved the way it turned out. Very well written and I highly recommend it. I was given an ARC in exchange for an

honest review.

Shari Kay says

[no...he stayed with the lying roommate for 2 years?! Are you kidding me here? (hide spoiler)]

Roxann says

I won this book from Goodreads. This is mostly a romance novel-short one. The book was a fast read, but I was hoping for more suspense or intrigue. Abby goes to her friends wedding week and finds her former boyfriend Jack there, but he is with her ex-roommate. Abby says she's over Jack, but truly isn't. The same with Jack. The romance part was predictable. I wish the author had added more of the intrigue to the book. The author wrote about threats to the family and/or business, but no one knew who was doing it. Someone looked into an office. Added security for the wedding week along with all the relatives watching for something that doesn't belong. Of course Jack and Abby get back together. The last chapter or so put everything to an end quickly. Loving suspense and intrigue the ending in this book didn't do it for me. Read this book if you really love romance novels.

Debra says

Abby and Jack have history, it was all good until....Well the story goes that Jack was given proof of her cheating so he breaks up with her. But when he goes to his cousin's wedding and he finds out that she is there as the maid of honor while he was best man. Secrets will come out. But in all of that there is also a bit of suspected throughout the family. What is going on? That is for you to read about. Debra Andrews has started a series of dangerous millionaires.

Debbie DiFiore says

Just say no. Spoilers are below.

Lousy story, lousy non hero and a total zero of a book. The ex roommate slut lied to the main male character and he believed her stupid lies without once trying to find out if they were true. She was just gross and he slept with her for two years. They were thinking about getting married even. And if course the h never moved on. Just not romantic and I hated the main male character for his lack of faith and honestly he should have seen right threw the lying tramp. It was so obvious. Just yuk. Be aware. I really hated it plus the writing seemed a little juvenile. Like a high schooler wrote it. I will give the author another try but just no other women please. It just ruined the romance.
