\*\*\*\* 4,5 stars \*\*\*\*

Very short but hot story. I enjoyed the teasing and banter between Mia and Tristan. I am positively surprised that 44 pages story had left such a big smile on my face! I agree with my friend J, it had a similar feeling to Hearts in Darkness, which I loved. Highly enjoyable and recommended!

This was a cute quickie. Not much to it. Probably less than 50 pages:)

Mia is having a bad day. It's raining, the elevator is out and while she's resting on the stairs she meets her new hot neighbor Tristan. When the power goes out and Mia has no flashlight or candles she goes to her neighbors door. Her neighbor isn't home but Tristan opens his door and offers to rescue her. I liked both Mia and Tristan. I found it strange that they didn't use protection when they had sex and nothing was ever said about it. I liked the way it ended with his brother showing up but I did feel Mia was a little too forward coming out in her shirt and panties talking to Tristan's brother.

#### 4 ROMP IN THE DARK STARS.

For those that don't know I am a huge fan of KI Lynn not only can she produce (in my opinion) fantastically written books, but she is also a personable and lovely author, so with that being said it is obvious that I was most excited to discover that the author was publishing a novella. The 'Breach' series is one of my favourites so I was excited to see what 'whispers in the dark' would deliver. Readers I confess I enjoyed every single forty minutes of devouring this hot little number and here are my book thoughts ...

#### What's it all about?

Mia Harmon comes home wet and tired from a bad day, only to find there is a power cut and much to her libido's delight a new neighbour occupying 7B. With only her phone as a source of light she seeks help from the friendly new face, Tristan and actually gets a whole lot more than she bargained for.

#### What did I love?

This is a perfect escape for anytime that you have a hour to spare. It combines gorgeously hot with an instant attraction between neighbours who have just met. The writing style is addictive and flows easily and the characters are engaging for such a short story. I was left wanting more and I'm curious to find out If KI Lynn

intends to continue with these tiny but packs-more-than-a-punch novella's.

### **Why not five?**

Three words; I needed more.

### **Final thoughts ...**

I will pick up everything that this author decides to write (everything but horror, I can't do horror) so you know that I would recommend KI Lynn to you, I don't know another writer who writes hot as dirty as this author, so if you want entertaining for an hour and you have £77p to spare what are you waiting for? Go grab it readers. Enjoy, kisses.

*Damn. K.I. Lynn knows how to write smut. If it is dirty or flirty, intense or sweet, she always masters it perfectly.*

Whispers in the Dark is great "in-between" read - short, sexy and no angst. It is REALLY short story, so do not expect much plotline development. But I enjoyed the build up of attraction between Tristan and Mia immensely and I was sad when it was over!

4--**I Want More--Stars!!!**

Buyer Beware: This was short, only 44 pages.

Talk about a major tease.....I really liked Tristan and Mia. They had great banter and I could definitely get down with reading a full book about them.

The blurb pretty much sums it up.....but for what it was I enjoyed it. Kind of reminded me of Hearts in Darkness minus the elevator. Quick, HOT little read!!!

#### **4 short and steamy stars!**

Well... that only took me about thirty minutes to read. I love this authors writing, and I enjoyed what little bit of the characters I got. The blurb for this one sums it up rather nicely...

A power outage leaves Mia Harmon stuck alone in the dark with no source of light except her cell phone. Frightened, she heads to a neighbor to ask for a light. Tristan, the new guy in 7D, is more than willing to help her out. A bad day turns into a night where Mia ends up getting much more than she bargained for.

No cliffhanger, no drama, no angst. I would have loved a full story with these two, but this little novella was a nice, quick and steamy read!

#### *4.5 Blackout Stars*

Mia is having the worst day, but when she locks eyes with a stranger it looks like her day might just be looking up. But when the power goes out, Mia finds herself being saved by the beautiful stranger who turns out to be her new neighbor Tristan.

There is a definite attraction between these two. And although we don't have too much time to get to know Mia, her unfiltered reaction to Tristan seemed genuine and awkwardly cute. Being stuck in a room with barely a flicker of light with the hotness of Tristan is certainly a cross we all could bare.

But when the lights go out, the freaks come out. Restraint can only go so far for Tristan, but having Mia in his space and in the dark is causing a little more strain than he can stand. So the natural thing happens...

Because lets face it. You're single, there is zero power and helpful neighbor is just too delicious not to jump on. Seriously, who asks for a cup of sugar when you can ask for something so much more fulfilling!

***"He exhaled in a rush, and it sounded pained and erotic, and like my pussy's next meal."***

K.I. Lynn has proven that she can write the down-right-dirty and with Whispers in the Dark she gives us a

little softer side. And she does them both flawlessly. Whispers in the Dark was a quick read that was enjoyable and had a perfect balance of sexy and sweet. A great short romance that hits all the right spots.

I have been a fan of K.I. Lynn, the day she created Nathan! Nathan and me -- an ongoing love affair <3

So is Tristan!

Whispers in the Dark is a short read, it was perfect for my tube ride, unfortunately it was steamy too, hence I needed to behave LOL

It all started when

Mia is in darkness and heads for help, and viola Tristan comes in.

What can happen in darkness when they have attraction?

**"I swear, it's your fault. I don't mean to keep you saying things, but, I don't know, you have this aura that whispers in y ear to say all the things mu brain normally tries to filter out"**

how this woman writes. It had insta-love and attraction and in one darkened night a love was created. I am keeping my review short in honor of the shortness of said book..K.I. I want more..so get to typing!

#### **\*\*\*\*4 HOT AND STEAMY STARS\*\*\*\***

If you are looking for a short story that gets right into a:

- chance meeting
- flirtation
- chemistry
- All American Boy
- sexual tension
- steamy sex
- funny episodes
- more steamy sex
- knight in shining armor

All of this in less than 50 pages ----- KI Lynn has a way of getting me to shiver in anticipation and horniness. I was immediately intrigued and captivated through the story.

Mia meets Tristan on a dark and stormy night after the elevator is out of order in her apartment building.

There is instant chemistry and after a power outage - Mia runs into this sexy man once again in the hallway.

From here - some flirtation - drop your panties - steamy sex and the next morning? HEA!!

Cute, erotic and fun read!!

#### **4 STARS**

Wow this was a quick read :) Was just 44pages, I really enjoyed it and I wish it was a bit longer!!!!

Wow I want Tristan for myself :)

### **Sharon ~♦ is an emotional book junkie ♦~ says**

After a bad day, Mia comes home to find the elevator out of service and then her power goes out. Of course, her phone dies, her batteries go out in her flashlight and she has no matches or a lighter. Trying to find her way to her neighbors, she runs into the new guy down the hall and she takes him up on his offer to help.

Curiosity got the better of me and I wanted to see how KL would write a different story other than the Breach series. Suffice it to say that while Tristan is no Nathan, he's still pretty darn good.

My problem ~*always*~ with these novellas (and this one is really short...only 44 pages) is that they are TOO. SHORT. I know, I know...why do I even read them you ask? I don't know...

But I did think this was cute and sweet especially the whole knight in shining armor! The sex scene was good...I don't know why it bothers me when they don't use protection but it does!

Nice little twist at the end with a visitor and Mia's neighbor. I could really see this being a prequel and some good stories coming out of it but who knows?

#### **4 In the Dark Stars!**

Mia has had a bad day. She is cold and wet from having to walk in the rain, she is loaded down with groceries and now the elevator is out in her apartment building. She starts the journey of climbing 7 flights of stairs to her floor.

While taking a break, she meets Tristan. She's all..

And he's all...

Their flirting was instantaneous.

***"Going to need that hand back."***

***"You sure?"***

***He let out a deep chuckle. "For a little while, but then you can have it back."***

***"Promise?"***

***"Promise."***

While taking a shower, the power goes out and Mia stumbles around trying to find a flashlight which has dead batteries, and candles but no matches. She goes across the hall with the help of her cell phone light to her friend's apartment, but of course she isn't home. Tristan lives next to her friend and catches her in the hall where he offers his help.

The flirting escalates from there and then finally
