## **Bear Your Fate: McMahon Clan 4** Rochelle Paige

Watching your children as they find their mates and build their families eases the pain of loss and makes it easier to bear your fate. But it doesn't stop the longing for what you'll never have.

Carrick McMahon is happy for his sons and daughter. He's worked hard to make sure they have the one thing he knows he never will—their fated mate. He lost his chance years ago, when the woman fate paired him with chose another... a man who tried to destroy his family.

With his death, the danger to the McMahon Clan has passed. Carrick is focused on his growing family and position on the council. But his newest daughter-in-law isn't willing to let him settle. She wants fate to give him a second chance...and she has the power to make sure he gets it.

## **Book Snob Sue says**

My Carrick, my Carrick, my Carrick finally got his own book...yay. And it was so wonderful, sweet and sexy. He is the alpha of the bear pack and such a great guy. Loving father of triplitt boys and a daughter, he is such a caretaker and never gets anything for himself. Audra is one of his daughter-in-laws moms, who just so happens to be a powerful witch. These two have such chemistry and my Carrick is quite the dirty talker \*wags eyebrows\*.

So happy he got an hea of his own and with a wonderful well deserving woman, in need of her own hea. This was a safe read, no ow or om drama. A little suspense, many of our favorites from the series, an epilogue and an hea. Thank you Rochelle Paige for writing this book, it made my heart happy. Psst...fingers crossed that Damien gets a book too?. I know, I know, subtle like a Mack truck.

### **No rating..**

Safe. As in no OW/OM drama.

But I do have a problem with this. He had a "fated mate" before she chose another man over him, he has like 5, 6 kids? They were so many that I lost count and was confused because it's been a long time I've read this series. Anyway, what's the point of having a fated mate when you can have as many? For me fated mate it means you can only mate with your destined mate. For me a fated mate means there's only one mate for that person/wolf, I also hate that he can have many kids with other women. She also has a daughter from someone else.

## **Cheesecake says**

Carrick the bear alpha and Audra the high priestess witch. She is Selene's mother from a previous book. She has never met her consort (witch-speak for fated mate).

Carrick HAS met his fated mate and it didn't turn out well.

But now they have found each other.

So Audra waffles a lot in the first half. I loved Carrick and I liked that he gets a second chance.

But I was a bit bored reading this. I was expecting more of a twist or intrigue, but it was all very easy.

I still liked Carrick though!

So, I'm so happy Papa Bear finally has the mate he should have had all along but since I know pretty much NOTHING about her I can't really shout this book from the rooftops either.

Seriously is it really that hard to put in some character development for your heroines?

She didn't love her babby daddy... ok but why wasn't he a part of her daughter's life? Again no real answers as to what happens in a witch coven.

Whatever. It's over now and I've decided Rochelle isn't someone I'm going to follow/read again so I'll just let it go.

If you want something REALLY light and aren't too worried about characters' pasts etc then this is the author for you.

Its Live!

I was so happy to hear that Carrick got his story! It has been quite a while since I have read shifter story and it was just what I was needing.

- no cheating
  - no ow/om drama
  - no violence of a sexual nature
  - safe - neither are with others after meeting
  - epilogue - it wasn't very far out and definitely would have loved more!

**Awww... So WORTH the wait!!!**

Feels like FOREVER since I've been (im)patiently waiting and just plain old dying for Carrick's story. Well, I'll be damned, I should have known Rochelle Paige would make all the wait worthwhile, because this book was a EVERYTHING I was hoping for and more!

Carrick, the alpha of the clan and dad to all McMahon siblings was just as perfect as he seemed to be, all alpha, all protective, all growly and possessive for the female he considered his from the start, and the pairing could have been any more blissful and happy!

With his background and what he know about his past and the fated mated issues in his life, Ms. Paige weaved the romance and love with this two with a brilliant solution/explanation that I was rooting for from the start, and all the HEA we love and crave for in this steamy and romantic little reads!

Perfect addition/new wave to this series, and now let the stalking for Damien's book begin! <3 <3 <3 <3 <3

**“It doesn't matter to me how uncommon it is. Fuck Fate. I'm my own man. I make my own destiny, and it's led me right where I belong—with you.”**

**All the pain. The suffering. The agony.  
This moment made it all worthwhile.**

I have been waiting for Carrick's story since we were first introduced to the McMahon Clan. He's a proud and powerful leader, amazing father, and dedicated grandfather, and I'm fantastically happy he gets his HEA.

### Summary:

Carrick McMahon is a blessed man. Not only does he have three fantastic sons and a beautiful daughter, but he's gotten to witness and be a part of each of their journeys to finding their fated mates. It's especially nice to see what the love and commitment between his children and their mates have wrought. Knowing his children have found happiness and getting to snuggle his grandbabies has helped ease the pain of his own loss, but never quite eclipses the yearning for what he'll never have. Until he decides to make his own fate. Many years ago, Carrick found the mate fate chose for him, but she chose another. A man who caused his family time and pain. Now that that man is gone and the threat removed, Carrick can focus on his quickly growing family and his council work. He can also explore the heated connection he feels with Audra, a High Priestess and Selene's mom. Despite not being fated, Carrick and Audra share a passion that's undeniable, and Carrick is determined to make Audra take a chance on would could be between them. But it's not only Carrick that wishes him to have that happiness. A certain daughter-in-law with the magic to help is just as determined to give Carrick a second chance at a fated mate. But how does that affect his future with Audra? There's no guarantee that if the spell works, fate will match him to her. Will Carrick be strong enough to give up his chance at something he never thought he'd experience? And can Audra risk her own happiness to give Carrick the chance at a bliss he more than deserves?

Wow! I knew that Carrick's story would blow me away, but not from the very first word. Bear Your Fate was everything I wanted it to be and more. Carrick has been a major player in the series throughout. He's the leader of his clan, and there's no denying his position after seeing what he's willing to do to protect his

family. I loved that even while his own heart was broken, he championed the love his son's and daughter's mates provided. He was perfectly alpha and had more than enough possessiveness, protectiveness, and growliness to satisfy me. Audra was just as enchanting as her daughter. I liked her determination to keep her new family safe. I feel we could have had a bit more detail on Audra's past and how she came to be pregnant with Selene, but not having it didn't take away from the story. I loved Carrick and Audra together. I thought RP did a magnificent job of weaving a love story that didn't undermine the significance of fated mates, and magnified their connection before magic played its part. They were sizzling hot. In the end, I couldn't be happier with where this story led us. I have a huge love of shifter romances, especially second chance mate romances, and Rochelle gave it all to me. We also got to catch up with the rest of the clan, as well as Parker and Annora. While I was happy to find closure with the McMahon Clan, the best news is that the Fated Mates world is far from done. We will soon have the leader of the shifter council, Seth's story, and the sexy dragon shifter, Damien's book to look forward to. I will be impatiently awaiting both. Congrats Rochelle, on a fantastic new addition to your shifter world. I'm looking forward to reading more. ?

#### **Meant to be**

Carrick has been alone for a long time, he's raised his sons to be strong and honourable men. His standing as the head Alpha of the bear clan as well as his position on the council has kept him busy.

His sons are now mated and hopelessly in love with their mates. He has grandchildren that he adores. Though he's lived alone without a mate to stand by his side, the one that fate had decided was his did not workout for him. She had already been mated to a wolf shifter. She was not the one he was truly meant to be with in any case. An evil and selfish woman.

When Audra his daughter-in-laws mother first came to visit the attraction was mutual. For both of them. But with so much happening and the threat against their families it was not something they could openly pursue.

Now though? That's going to change, Carrick wants Audra for his. Fate obviously got it wrong the first time. She will be his mate. Forever.

### **Mindy Lou's Book Review says**

4.5 Stars!

Carrick and Audra are an older couple. Carrick has had a fated mate who turned on his family. Audra has never had a consort, but they are parents and grandparents. They've lived life and seen their children find their own fated mates/consorts. When they find themselves feeling a very strong pull to each other, despite not being fated they can't ignore how drawn they are to each other.

I love fated mate books but what's even better is when two people want each other despite not being fated to each other. To me that shows they chose that person despite the odds being against them. To me, it makes

their love story that much sweeter.

If you're not familiar with this author, you can look forward to complete devotion in her main characters. A possessive hero, independent heroines, great side characters and a fun storyline. I've enjoyed seeing Carrick finally find the love that he deserves. That love being Audra just makes their family that much stronger. ARC provided by Author.

#### **Great read**

Awesome finish to the series. Carrick deserved to get a fated mate that loves him as much as he loves and fought for his family. Audra was a good match for him even before the spell and is even better now. I would recommend this story to any adult reader that enjoys sexy shifter romances.

Great read. I loved this one. Waited a long time for it. Love that they wanted to be together no matter what. It was a great story. Slight push/pull, didn't last too long.

### **Jennifer Finn says**

This is the fourth book in the McMahon Clan series and the seventh book in the Fated Mates series by Rochelle Paige. Damn, I feel like I've waited forever for this book to come out and I had to go back to the last one to refresh my memory. Well finally Carrick, the head of the McMahon clan gets a very happy ending which he definitely deserved. Carrick McMahon has watched his triplet sons and daughter find their fated mates and he's now a Grandpa. He lost his mate years ago when she left him for someone else and he's resigned himself to being alone. Audra is a witch, she is the High Priestess of her coven and Selene's (Camden's wife) mom. She hasn't found her consort yet but every time she's near Carrick she gets a tingling feeling on her wrist where her consort mark should appear. Carrick and Audra are very attracted to each other and they've had sex a few times but Audra is hesitant to continue. Selene loves Carrick and wants him to be as happy as her and Camden and she may have found a way for him to have a second chance at a fated mate.
