### **Jane says**

Wonderful old Doonesbury Book! Great political satire; the usual Trudeau brilliance.

### **Craig Werner says**

The majority of this collection is devoted to two narrative lines: Duke leaving Samoa to become the Ambassador to China; and Joanie's roommate Ginny's campaign for congress. There are a few side nods, most notably to Jimmy Carter's specifics-free campaign for the presidency. Favorite bits include "Honey," Duke's Chinese liaison "translating" for the vegetal Chairman Mao and Ginny's hustler boyfriend Clyde canvassing a white neighborhood. Nothing spectacular, but sharp as always.

### **Karen says**

Duke goes to China and meets Honey for the first time - superb stuff.

### **Mike Jensen says**

People who complain that DOONESBURY is too political, meaning they do not agree with the politics, do not understand how character driven is this comic strip. That is on full display in this collection of comics from 1975-6.

Uncle Duke in China. Love it.
