The MANipulator Manual: Keep Your Man Interested and Begging for More Without Playing Games Let me start off by explaining I am in no way talking about the sexual act. F*ck him in this case is not physical, it's mental.

So many women get in trouble in their love lives, and 99.9 percent of that trouble could have been avoided if they'd said, "Well, f*ck him!" a bit more often. Too many women are way too nice and compliant to their men, especially when these men don't deserve that kind of treatment.

And yet, every woman I've ever met tries to not be needy or wear her heart on her sleeve. She simply wants to protect her feelings. Nevertheless, most women I've coached have had men seem very interested only to disappear suddenly. These women are left standing in the dark. Once the guy vanishes, they often find out it's easier to get the President of the United States on the phone than the man who seemingly really liked them...just not enough to stick around.

This should stop.

I, as a dating coach and author of books for women who want to get men, cannot take it anymore. You deserve better. This is not your fault. It's his! He needs to learn to be much more transparent and upfront. That said, we both know most men won't change. We can lead a horse to water, but we can't make it drink. Or can we? What if there was a way to change a guy's behavior? What if you could get into his head and take over the driver's wheel? What if you could make him do more of the things that you appreciate and need and less of the bad behaviors you dislike? At first, this might seem impossible. Nevertheless, I'm sure you've already met women who are good at manipulating their men.

Enter the high-value woman. You know her. You've seen her. She's the woman who always has great men drooling over her. It's the woman you see getting all the attention. You often wonder, "How does she do it? What do they see in her? What does she know that I don't?"

You might have even complained to your girlfriends that men just don't seem to notice what a catch you are. Your girlfriends may have even said, "He doesn't know what he's missing." What if you could make him see it?

When you look at these high-value women who get their way with men, it might have surprised you that their looks don't seem to matter. The high-value woman can be great looking, average looking, or even bad looking. It doesn't matter. She knows her way around men. She knows how to mentally f*ck them.

Are you ready to implement her strategies?

You'll see behavior you've never seen from him. He'll start to put in an effort that makes you feel like you're

a queen because to him, you are. At first, it will be strange. If you've never truly been in control of a man, it might feel like riding a horse for the first time. But soon, it will make you feel all tingly inside.

I'm not kidding.

There's nothing more powerful than being in a relationship with a guy and having him do exactly what you want while he thinks it was his idea. (This is important, as you'll see. He needs to think he is the one in the driver's seat, even though you actually are.)

This book is not about becoming someone you're not or turning your boyfriend into a spineless manslave. It's about your empowerment, about taking back what's yours. No man should ever be able to play games with you, to take you for granted, to treat you even a tiny bit less than you deserve. By the time you've finished this book, this will all be part of your past.

Are you ready? Then hit the buy button at the top of this page and start your high value woman journey right away!

I thought for a moment that I should delay my friends, activities, etc upon getting into a new relationship... but Brian's advice (which I think is correct) is DONT. Keep your life Ladies, let him get in where he fits in. And it's not about playing games, it's about being true to yourself. If he's interested, he will make changes to accommodate you, it shouldn't be all one sided.

I don't remember too much else about this book except that if you are just getting into a relationship please read it!

Great read ,very insightful and helpful information that changed my perspective about myself ,relationships and most importantly Men!

Very empowering book for women that helps them turn into high value women who deserved to be treated like Queens by Men.

The author,who is a man btw, opens women's eyes to the true nature of men and how we should deal in relationships by not accepting any of the crap that men try to give us!

What I loved about this book that it is short ,straight to the point and very blunt and we women really need to hear the harsh truth that this book explains clearly ,I highly recommend it :)

Essence Jones says

It gave a lot of insight as to how men actually work and how to deal with them without playing games.

This book helped me to clearly understand a lot of things in that I just didn't get before, regarding men and relationships. It does not insult or undermine men, it just demystifies their behaviour. And gives great tips on how to be the ultimate high value woman. It is simple, straightforward and fun.
