## **Fox** Gwendolyn Grace

Harley Jane Wyatt is a drifter. Her smart mouth and tough girl exterior have gotten her through some pretty rough times. She has no idea when she hitches a ride with a handsome stranger that she has met her match.

Fox is deeply devoted to his family and loves fast cars. To Harley, Fox seems like an easy target for a little fun but he sees right through her bluster and summons the girl underneath. He might also be the only one capable of cracking her hard outer shell. Harley and Fox soon discover that the chemistry between them is so powerful it can rev an engine to the red line.

Fox is a sexy, humorous, adrenaline-pumping sweet ride.

\*\*This book was formerly titled Carolina Hurricane \*\*

## From Reader Review Fox for online ebook

### Romance Between The Sheets says

Please note this review may contain spoilers.

Harley has a massive chip on her shoulder and seems to wear it with pride. She believes she's not worthy of having anyone or anything good in her life, so she has no friends, no family, no job and a boyfriend who cheats on her. She believes that if she doesn't let anyone close, they can't hurt her, so she keeps everybody at a distance by not being very nice. Finally fed up with her life, she heads back to the only place that holds good memories, Sea Whisper Island, South Carolina. But when her plans to get there are thwarted, she's left alone in the rain. Until Fox rides in on his many horses.

*Harley: As much as I didn't want his kindness right now, I knew it was what I needed. It had been a long time since anyone cared enough to do anything for me.*

Fox is a sensitive soul who is deeply devoted to his family and loves fast cars. Thinking that Fox will be an easy target to have some fun with, she uses her assets to make him as uncomfortable as possible. But he sees right through her bullshit and isn't afraid to call her on it.

*Fox: "The tough girl with a smart mouth act doesn't do it for me but the girl underneath who hums in the shower, likes the feel of rain on her face and cares about other people's feelings, now she makes my dick hard."*

Despite admitting to Fox that she doesn't enjoy being a bitch all the time and that she'll work on it, when she tries to be honest with him about her thoughts and feelings, he takes it badly and spends the next several weeks ignoring her or being flat out rude to her when he has to speak to her. Throughout that time, she's tried to be nice, tried to apologise and tried to speak to him. When she finally gives up, he decides that's when he wants to speak to her and won't take no for an answer. I'm not sure how old Fox is, but Harley is 25 and I found this to be a little immature for his age. Honestly, that's probably the only part of the story I had an issue with.

**Carolina Hurricane** is Gwendolyn's third book and I thought it was really well written. Despite the relationship drama mentioned above, other parts of the story kept me reading. It sort of ends in a cliffhanger, and I'm not sure if book 2 (**Carolina King**) will be about Fox and Harley again, or focus on other characters such as Fox's brother, Harley's ex or the loan shark.

*Fox: "I guess I'm worried that you'll decide to just run off at any moment and it's driving me insane. Like the hurricane wind that brought you into my life might one day come back and carry you away and I'm just left here grasping at the air trying to keep you."*

### Vikki Love says

This is the first book of Gwendolyn's that I have read and it was a fantastic start to the Drive Me Wild series.

I fell in love with the characters instantly.

Harley is a badass, with the attitude to match and she doesn't take shit from anyone.

Fox is a sexy stranger that Harley runs into as she is trying to decide what to do with her life.

Harley and fox's story is intense and full of surprises.

I really enjoyed the story, and it didn't take me long to devour it.

I loved the writing, it kept me glued to the pages from start to finish.

Now that I have discovered Gwendolyn I will be reading her other books and will be painstakingly awaiting all of her future releases.

---

### **Keara says**

This book definitely drove me wild! I was hooked from the beginning and never put it down. Both lead characters surprised me in a great way! I can't wait for book 2!

---

### **Angie Larson says**

This is a great first novella to start off this series!!! I'm really not a fan of racecars and drag racing, but it doesn't matter with this book!!! The story around the reading is awesome!!!! Highly recommend!!

---

### **DJ Sakata says**

My Rating:

4.5

Favorite Quotes:

“There was so many things wrong with this picture. The most disturbing was how my panties were mingling with other panties. Just, ew.”

“I didn’t get the sense that he was a creep because I could spot one a mile away. He seemed too clean cut, too good-natured, just too opposite of anything I usually hung around with. It was as if my body knew something about him that my mind was still trying to figure out.”

“It was the kind of kiss that ignited a fire in your soul and you would do anything to stay as the flames consumed you.”

“The tough girl with a smart mouth act doesn’t do it for me but the girl underneath who hums in the shower, likes the feel of rain on her face and cares about other people’s feelings, now she makes my dick hard.”

“Jonna Lee, where is the rest of your skirt? You are going to catch old and new-monias dressed like that.”

#### My Review:

This is a new author for me and I am ecstatic over the discovery. I want to read Gwendolyn Grace's entire catalog - past and present. I know nothing about street racing, but I didn't need to know anything about it to enjoy every bit of this story. Ms. Grace has a humorous and crafty voice in telling this tale about a snarky young woman who is at loose ends and looking for a fresh start. Most of us have been there... but of course despite our hopes, we all drag our pasts around with us, as no matter where we go – there we are. The writing flows well and I found it clever, emotive, insightful, and entertaining. The sensual scenes sizzled and left me in need a cool drink... and my startled husband. An easy and quick read, but this only the first in the series. Thankfully the cliffhanger was not of the evil variety, but left me eager to continue. Hurry Ms. Grace, the race is on!

---

#### Betty says

I read this in one night! I got sucked into the story, wanting to figure out Harley and her story. I can't wait to read the next book!

---

#### Maria says

4-4.5 "Fox-y" stars!

I haven't read and I'm not really into muscle cars & drag racing, but this was an engaging story & a wild ride.

I'm definitely looking forward to getting more of Fox, Harley & the rest of this Carolina crew.

One more thing, Ms. Gwendolyn Grace can sure write some hot love/sex scenes!

ARC provided in exchange for an honest review.

---

#### Erin Merrill says

Just when you think you know how the story will go, a hurricane comes through and turns everything all upside down. I couldn't stop reading Harley's story! Full review to come.. too tired for words. Great first novella in the series!

---

## **Jeanette Oglesby says**

This book drove me WILD for sure and gave me a very good change of scenery. I grew up in the drag racing world scene (from track racing to street racing) so I was very familiar with this scene and FLOVED it. I floved everything about this story from Harley being the bad ass that she is to Fox being the SEXY as Hell mystery man. I fell in love with the characters instantly and rooted for them the whole way through this book. The story is unlike any that I have read. This book is totally hot, hot, hot!! Not only does this book have fast cars, but some really smoking hot sex scenes (yeah, the ones that will steam up that e-reader for sure). It is wonderfully and smoothly written. I am really glad to read something that I can relate to and this book did it for me. Just to warn you that this one ends in a cliffhanger, but is so worth it!!! If you are looking for a change of scenery and something fast and steamy then look no further. I can't wait to start Carolina King (Drive Me Wild #2). Happy Reading Everyone!!!

## **Maci Dillon says**

I was gifted an ARC in exchange for an honest review and WOW!

If this is any indication of what's to come in the following books of this series, it's going to be a hot, hot, hot one and I'm not just talking about burning rubber on the road!

This is book one in a new novella series, based around bad boy street racers and of course, a spicy hot romance. Fox however, is not your typical street racer stereotype. He's classy, affectionate, respectful and everything you could want in a man. He knows what he wants, he's far from a walk over and has a way of seeing through smart mouthed Harley and her no good spiteful attitude.

When a hurricane brews, forcing these two polar opposites together, the story becomes more about the whirlwind of emotions, a fierce connection that will leave your panties a little wet.

Chemistry is tangible from the beginning, the characters are lovable, even each of the secondary ones. You'll put down this book, missing each and every one of them!

Carolina Hurricane is not without your typical bad boy though, in fact there's a few trying to ruin what could be between Harley and Fox.

Oh, and there's more to this story.... and one of the arrogant bad boys will feature in the next installment. I wonder what type of woman is going to make him weak at the knees?

Yes, I'm highly anticipating the next novella, Carolina King!

After having read and loved Gwendolyn's first two novellas, True and Forever True, my expectations were high. I was not left disappointed in any way. This story is tight, her writing is exceptional and it hurt every time I had to put it aside to go to work or carry out my mother duties.

If there were AA meetings for 'Fox' addiction, then you best book me in baby ;-)

LOVED this book thoroughly. Well done Gwendolyn Grace x

---

### **Jennifer Zamora says**

This book gets a 5 stars form me, because the writing is wonderful. Very engaging, and page turning. I could not put this book down, and will be on the edge of my seat waiting for the next book in this series.

OMG!!! This book was amazing... THIS IS A CLIFFHANGER.

Harley the rebellious heroine, has a bad ass attitude, a whole lotta sass, and lot more heart.

Fox a down to earth, warm, family loving southern Gentlemen.

Harley has been just wandering through life, lost. After her gram died, maybe even long before that, Harley was left alone in a hard world just trying to make it. She had turned into the bad ass everyone thought she was. She had to do what it took to survive. ANd that was what she did. Her on and off again boyfriend Mack was always there when she needed. But she wanted more than a bed warmer. She needed something. Or someone.

Then the hurricane brought Fox into her life. Accepting a ride from a stranger would have sent her Gram into fits. But what choice sis Harley have? She had almost no money, no home, and no car. How was she to know that one decision would change both their lives forever? The hurricane left much more than destruction in its wake.

### **✿kawehi.reviews says**

? I received an RC via the author in exchange for an honest review. Thank you!! ?

#### **3.5-75 stars!!**

I've neglected writing a review for this book and now I'm finally back to write my feedback on it. \*ponders: if only there were much more time in a day to dedicate to my book obsession&reviewing?\*

*Carolina Hurricane* is the first ever Gwendolyn Grace read I've ever come across to review and certainly won't be my last.

It's always loved my racer reads, as I've always imagined having a type of love that dwindled along the fast lane, with some hotshot hunk. But, sadly, in Hawai'i we don't have that so I just have to dream and read them in books.

Needless to say, the plot and characters were intriguing and delightful, and will captivate you and reel you in.

I do have to warn you that it does indeed end with a cliffhanger, but don't fret too much, since bk2 has already been released!! \*squeals\*

---

## **Romance Readers Retreat says**

3.5 Stars

This is the story of Harley, who has, by her own account, spent much of her life being let down by people. It seems her love life has been following the same pattern, until one day she decides she needs to move away and make a new start. She meets Fox who offers her a ride to Sea Whisper Island.

Sadly it took me a while to connect with Harley. She spent a large portion of the book, adamant that everyone, especially Fox would let her down even though it was clear Fox was perfect for her. The 'whole world is against me' thing got frustrating eventually and for such a short read I'd say she was like this for approximately 85% of the book.

From the beginning I loved Fox. He was mysterious at the beginning, with the perfect amount of Alpha male-ness, but at the same time he was caring and never gave Harley any indication that he would hurt her and I think this may be where my frustration with her stems from. However once Harley came to term with her issues, the chemistry between the couple came clear and I finally understood what Fox saw in her.

I would have loved a lot more of the antagonistic characters to have played a bigger role. One in particular seemed to appear as though she was going to create all sorts of problems for Harley and Fox and just as quickly she disappeared. Perhaps she'll have a more significant role later in the series.

There were parts of this book that I guessed quite early on, but overall I did enjoy it and even though book 2 focuses on a different couple, there is plenty of story to continue with.

All in all this was a good start to a series.

---

## **Maggie says**

4.5 Heart Racing Stars!

Carolina Hurricane is a unique read. I've never read a book set in the underground racing world before and I thought that was one of a kind. It added a layer of danger and mystery.

The love scenes were scorching hot! Fox sure knows what he's doing.... :)

I also enjoyed all the secondary characters, especially grams. She's got some wise words.

I also really enjoyed how I changed my mind about Mack in the end. I was surprised I did....

The pacing was perfect, the story flowed along nicely and there wasn't a dull moment. Carolina Hurricane is perfect if you're looking for something short and hot!

Anyways, you have to read Carolina Hurricane, what are you waiting for?

### **Jennifer says**

I really enjoyed Harley and Fox's story! Fox, aka Drew, was hot and demanding, while also being a gentleman. Swoon..Harley the main female lead has had a rough life and wakes up one morning after sleeping with her on again off again boyfriend, Mack. She decides that this relationship isn't good for either of them and decides to skip town and try to start a new life somewhere else. She decides on Sea Whisper Island because her Gram used to have a house there. She ends up meeting Fox while she's standing outside in the rain trying to figure out how she's going to get there. He offers her a ride and after some hesitation she agrees. Unfortunately, there is a hurricane coming in and the ferry to get to the island is closed and they have to stay in a hotel for the night. They had a lot of fun waiting for the ferry to reopen.

Once in Sea Whisper, Fox drops Harley off at her Gram's old house but he knows that she can't stay there since he knows about the island but doesn't say anything to her. The next day Harley finds herself in Annette's Catch, which is the restaurant that Fox's family runs and owns. Harley ends up as a waitress there and Fox offers her to stay with him. When they finally have sex, it is freaking hot! Fox is seriously one hot man..I was falling for him right along with Harley.

Harley still has her wall up though and after sleeping with Fox moves out because she can't deal with it getting weird and the fall out that might occur because that's what she is used to happening. This hurts Fox's feelings and you can tell, he ends up being cold to Harley and won't speak to her unless he has to. When they finally figure things out and make a go of it I was so happy!! I love them as a couple. They're perfect for each other. I really enjoyed this book, and I loved the street racing that was in it as well. Mack, Harley's old boyfriend, is a street racer and Harley finds out a little later on in the book that Fox and his brother Woody are as well. When Woody gets called out to race by Knight, a really horrible person, and loses, it's Fox's turn to race him. When he wins, Harley asks what now?...and that's when Mack pops back in and lets her know that now Fox and Mack will have to race.

The books are standalones, and don't really end on a cliffhanger they just end with the feeling that there is more to come. The way she sets up the next story in the series is pretty cool. We end the book with Fox and Harley in couple bliss, but Gwendolyn sets us up for Mack's book next and I like the little lead in she gives us for that.

Overall this book was a really great steamy, light read! I would highly recommend this book! If you like fast cars, hot scenes, and a couple smart mouthed woman with some backbone, along with some VERY hot men, you will love this book!
