## **Hollywood Kids** Jackie Collins

Wherever there's money and glamour, trouble can't be too far behind. In *Hollywood Kids* Jackie Collins takes her readers back to the Hollywood Hills for another absorbing page-turner of sex, ambition, and deadly revenge.

At the novel's core is the Hollywood Five, a clique of jaded twenty-somethings whose parents (all major players) thought that child-rearing ended with naming their offspring after themselves.

Jordanna Levitt is the wildly beautiful daughter of a powerful producer and legendary movie star mother. Even though she flaunts a coltish bad-girl image, Jordanna yearns for more than lounging behind the velvet ropes in chi-chi clubs and existing on a diet of *Midnight Cowboys*.

Jordanna's best friend, Cheryl Landers, is a sassy, leggy redhead, who is equally idle. Cheryl fills her days doing lunch and buying up Rodeo Drive until a Hollywood Madam asks her to mind shop while she's out of town. Pandering to the rich and famous goes so smoothly that she can't resist turning a trick herself.

Grant Lennon, Jr., the son of the last generation's wildly handsome icon, is a junior agent at International Artists Agents. Not satisfied with the number of starlets he can get on his own, he agrees to "test-run" women for Cheryl's fledgling entrepreneurial venture for a fee.

Marjory Sanderson is a dreamy-eyed head case. Barely recovered from anorexia, she invents one phobia fast on the heels of the last one in order to keep her television magnate father's attention.

Shep Worth, the effeminately beautiful son of a sex-symbol mother, who won't publicly acknowledge her age, is a man who won't publicly acknowledge his alternative sexual preference.

"The group had grown up together, sharing the experience of too much too soon," Collins writes. When you've got your family's great looks, and you're always driving next year's hottest sports car, and work isn't necessary because you've got a wallet filled with the sky's-the-limit credit cards — why fight it?

These Hollywood kids have been given everything money can buy except a *raison d'être*. Though their attitudes are large enough to fill any room, these offspring of privilege are all desperately trying to figure out what to do with themselves. However, life among the rich means life among the damned. A recently released psycho-killer, erotically propelled by blood-lust, is determined to wreak havoc and revenge on the kids' lives.

Interwoven into this central drama are the strong stories of a supporting cast of characters: Michael Scorsinni, the street-smart ex-NYPD detective who is doomed to traverse the country until he finds his kidnapped daughter; Bobby Rush, the ambitious and talented actor/producer, who only has his Hollywood Royalty lineage working against him; Kennedy Chase, the blonde and brilliant young widow and journalist who puts the pieces together before the cops and felicitously learns in the process that she's still capable of falling in love; Luca Carlotti, the dandy mob kingpin with the cobra's smile and a weakness for classy call-girls; and finally there's Charlie Dollar, the stoned movie-star savant, perpetually on the prowl for women to fulfill his fantasy of a polygamous idyll.

### **Kerwin Jn says**

a fun romp . Collins is a winner

---

### **Melyssa Dawn Michaels says**

As per her usual, Jackie Collins did not disappoint with this novel. Every single time I read one of her novels, as a reader I feel like I'm on the inside in the world of Hollywood and once the ride has started, putting the breaks on is not possible. From beginning to end this was a very hard book to put down. She writes characters unlike any other. Written so well that you can't help but become personally invested in how it all turns out and the "happily ever after" moment and she never disappoints in that regard.

I would definitely recommend this book, not only to fans of Jackie, but to any fiction reader as its outstanding. Great Read.

---

### **Rej Jereca says**

i really liked the plot but the first few chapters was a drag and too many character lessen both and its 5start. still a fan of jackie collins though

---

### **Joy says**

I would have given this 5 stars but at the beginning I had a hard time keeping track of all the characters. Overall though I really enjoyed this book

---

### **Betsy says**

Wow! I read "Hollywood Wives" years ago. I never realized that Jackie Collins was such a good writer! She grabs you from the beginning & keeps your interest until the thrilling end! Loved it!

---

### **Sue says**

It's been a long time since I've read one of Jackie's books, found some new ones to read and some much loved rereads to enjoy again

---

### **Jenny Morgan says**

Okay, after being bullied into reading Jackie Collins on our vacation cruise, I can actually say... I liked it. Mystery, suspense, sex, and an easy read. What more can I ask for? I will definitely take a look at more of her works and add her to my list.

---

### **Glenda says**

I went through a jackie Collins phase....so glad it has passed...Trash!!

---

### **Beth Wemple says**

My favorite part is when the Hollywood kid Jordanna is pondering why “no one ever mentions Madonna’s songwriting talent”????

---

### **Willi says**

It was a bit interesting but too graphic & real for my taste.

---

### **Jirrine says**

I have now read several books written by Jackie Collins and for me they are always two things: written very cleverly with an ending where it all comes together but at the same time so hard to get into the story because of the number of characters. The same with Hollywood Kids. Now that I (finally) finished the book I enjoyed it. It was a good read, yet sometimes I was reluctant to pick up the book and actually read. I kinda took out the fun of reading for a while. I felt I had to finish it which is an unpleasant feeling. Eventually I am glad I did but I will probably not read another Jackie Collins anytime soon.

### **Jasmine says**

#### **Good read!**

Great character development and the author keeps an entertaining storyline throughout the book. A wonderful book to read by the pool on vacation!

---

### **Novita Indah Putri says**

I wish I would spent my time reading something better than this.

---

### **DAISY DISNEY says**

#### **\*\*SPOILERS AHEAD\*\***

This is the first book from Jackie I am reading since her passing. I always love her stories because they make me feel like I am seeing a Hollywood Glam movie with all of the celebrities juicy gossip!. This story had a different twist than her other books I have read. There was a murderer running loose in the glam of Beverly Hills. He is seeking revenge on women who he felt did him dirty. Even though it is revealed early on who the killer is, it doesn't stop with the juicy storyline! Man these Hollywood kids have major drama!

---

### **Joshua says**

I was so sad to hear of Mrs Collins death, I along with many others, have spent endless hours flipping through her books.

Jackie Collins, the absolute mother of glitzy pop lit. She is the quintessential beach read for trash enthusiasts. Many imitators have come close (Judith Krantz, Judith Gould, Judith Michael) but no one has quite the wit or snappiness of Jackie Collins.

Her books are trashy, deliciously trashy. If you're looking for any literary value, you'll miss the point entirely, and Mrs Collins would have been the first to tell you that.

In her last interview she mentioned that she was happy to have given people a few enjoyable hours with her books,

You've done exactly that Jackie, thank you!
