## Into the Prairie: The Pioneers Rosanne Bittner

With her Westward America! novels, beloved novelist Rosanne Bittner tells the personal stories of some of the brave pioneers who settled this country's early wilderness at great personal risk. Deftly combining soul-stirring romance with true American history, Bittner creates a world in which brave men and women make the greatest sacrifices possible to see their dreams made reality---and with them, the dreams of a young nation.

Jonah Wilde has always had an untamed spirit, and he will stop at nothing to achieve his dream of building a farming empire in the wild prairies of Indiana. But in 1810, the Shawnee Indians still call these prairies home, and a disastrous and violent encounter with the Shawnee changes everything for the Wilde family.

Jonah's young wife, Sadie, and his three-year-old son, Paul, are left to fend for themselves at Tippecanoe. Her dreams in tatters, Sadie doesn't know whether she'll have the strength to go on. Sadie and Paul's fate lies in the hands of the Powatomi leader, Windigo, and his Shawnee counterpart, the notorious Tecumseh. Will their lives be spared? And if they live, will they ever return to the life Sadie dreamt of with Jonah?

Bestselling and beloved author Rosanne Bittner will break your heart as she brings to life the stories of the brave pioneers who settled, shaped, and died for the young nation of America.

### **Sandi \*~The Pirate Wench~\* says**

Rosanne Bittner has always been a favorite author for me.  
Love all her older books, and they are still in my possession.  
But this trilogy as much as I wanted them to be like those ones..they just didn't "wow" as her others had.  
Oh well..still my "go to author"..cant expect the wow factor every time :(

---

### **Shirley J says**

Even though I prefer a story with more depth to the plot and the characters, this story was intriguing. This was the first book I've read by this author. I was definitely interested in the book enough to hurry through the last few pages to find out how the story ended.

---

### **Jessica Morgan says**

This one took me 3 or 4 chapters before things got interesting. It is a slow start, but the history is interesting.

---

### **Weeping Willow says**

This was the last of the three books From the America West Series written by Rosanne Bittner. Could not put all thee books down.....A must read! I felt like I lost a friend when the series was over.....

---

### **Pamela Adkins says**

It was an average book. I felt that the author went to in depth in the sex scenes involving her husband but gave no detail at all of the ones involving Windago. I liked Windago much better than I liked her initial husband. I also would have liked to have seen how she transitioned back to the white world after being held captive and how she struggled having love for her husband and also love for Windago whom she lost.

---

### **Tonya Lucas says**

Not to be missed. The ending will shock you!!! Might even make you cry.

---

### **Holly says**

I like historical romance as much as the next gal. But the protagonists of this book, Sadie and Jonah, with their perfect lovey-dovey relationship? Ugh. Sadie and Jonah are kind of boring. They look good physically (and, like in many romances, she HAS to be a BLONDE...cliché) but settling in the Ohio Valley wasn't good enough for them, they became greedy (in my mind, not the author's I guess) and wanted to settle in Indiana. Now, this happens to be in the time of Tecumseh and the War of 1812, so, thankfully Sadie is taken captive by some Powatowami/Shawnee and the plot finally picks up steam. Unfortunately, the sex scenes are glossed over, unlike Sadie and former husband Jonah's scenes. Perhaps because we are supposed to see Sadie and Jonah's relationship as "legit"? Anyway, her captor/husband Windigo is not a bad man, but nothing's ever good enough for Sadie, she just pouts and sulks for Jonah. I probably shouldn't reveal much more, but a lot of wasted potential, I say, and of course some American authors have some rather prudish hang-ups.

---

### **Michelle says**

Loved Jonah and Sadie's story -- favorite of the series! Living through their journey and trials with the Indians and Sadie's experience with them was intense! I so wasn't quite sure where Rosanne was going to take the story and she made the ending beautiful!

---

### **Bobbi says**

This book had a pretty good story line, but it was written like a soap opera. It would almost get deep, but then something improbable would happen, miraculous recoveries or deaths. It also seemed an exploration of survival and the Stockholm syndrome. It had a dumb ending.
