I thought that this was a great book. It's the third book of the Red Rock Mystery Series. In this book the main characters are twins named Bryce and Ashley. In the beginning of the story they discovered that someone was vandalizing all of the mailboxes on their street. They decide to try to find the suspect. By working together Bryce and Ashley find themselves solving many mysteries. Together they make a great team. I'd recommend this book to all readers. It's entertaining, and easy to read.

Green Lantern says

In this book, mail boxes are getting busted and Bruce tries to find out who has done it. Meanwhile Ashley tries to find a missing child. Overall, really good. Most of the family are Christians and they pray all through out the book

I'm particularly fond of this series because I would read them aloud with my sister. I think I connected to the books because the siblings in it shared a bond like the one I shared with my sister. Their relationship was so real! We would spend half as much time laughing as we did reading! We would stay up late at night to finish these books. That was when Mom worked night shift, so we didn't have to worry about waking anyone with our laughter. I wish I could live those times over again!!

This book is sooooo awesome! I love this series. Jerry B. Jenkins is one of my favorite authors. This book is about twin siblings that find a mystery everywhere they go. The suspense is great. When Ashley starts investigating ill tempered lunch lady, Miss Garcia's missing baby. Bryce starts investigating crushed mailboxes. They find themselves in a whirlwind of action packed mystery.

I like this book a lot! I LUV this series! :)

C.B. Cook says

Very good! I have to admit, though, that I figured everything out before the twins did. ;)

Martha says

Short YA novel... I found the short chapters and switching POV's a little irritating, but the story line was interesting.

Cassandra says

I liked this book. The people were realistic, as were the situations they were involved in.

Twyla says

My favorite part was when Mrs. Garcia found her daughter finally. My least favorite part was when they blamed Randy for smashing the mailboxes, when they didn't really have enough evidence that it was him. If they asked right away, it would have been quicker to find the culprit.

i liked this one but again...it has been a while since i read them so i can't really tell u anything about them.
