**Seduced by Sunday** Catherine Bybee

**She swore off love forever...but he just might change her mind.**

The sixth sweet, thrilling book in the *New York Times*, *USA Today*, and *Wall Street Journal* bestselling Weekday Brides series from Catherine Bybee.

Meg Rosenthal: Matchmaker by day, realist by night, Meg is not about to get swept away by a charming, darkly handsome businessman in a designer suit. She's come to a beautiful secluded resort to evaluate the private island's potential for her agency, not to ogle its owner. But there's something about the magnetic man that's hard to resist, even for a woman who refuses to fall in love.

Valentino Masini: A successful and drop-dead sexy businessman, Valentino is used to having the finer things in life. Yet he's never wanted someone the way he wants Meg, who's stirring up a hurricane of trouble in his heart. But just as he decides to convince her to stay, someone else decides it might be time to get Meg off the island...permanently.

A *Wall Street Journal* Bestseller

### Dana says

\*ARC\*

As a die-hard Catherine Bybee fan, I was eagerly awaiting the 6th book in the Weekday Bride series. I was so excited, that when I was able to get my hands on an advanced copy through Netgalley, I squealed like a little girl. Unfortunately, this book did not live up to my expectations. Ms. Bybee is one of my favorite contemporary romance writers. I know with certainty that her characters have a slow build up to love, and is either followed by or pre-ceded by a marriage of convenience. This book was not like the others.

Meg Rosenthal, Judy's best friend (book 5) is now Alliance's newest employee. Using her newest client as a jumping off point, Meg decides to investigate this private island where said client is honeymooning. Saporidi Amore is a private, secluded island off the coast of Key West, Florida, where one can go to get away and not be bothered. It is so private that celebrities can feel comfortable being there without their picture being splashed around a tabloid if they dared to wear last years colors. Meg, going on the assumption that nothing can possibly be that private, enlists the help of Judy's older brother, movie star Michael Wolfe as her "significant other" to get into this exclusive resort. When Meg's background check doesn't get her cleared fast enough, she starts an email snark fest with the owner of the island, Valentino Masini. When her very connected friends finally get Meg her acceptance into Paradise, Meg is set to unleash her fury on Valentino himself. Until she sets her eyes on him. Val, too, is intrigued by this woman, and goes out to his private airstrip to meet her plane, and is struck dumb by the woman standing in front of him.

Seems like a fantastic beginning. Then the book goes from a sweet build up of romance, to a very strange plot that involves secret photos, Michael's secret being revealed, Val's sister's fiancé acting anything but like a doting fiancé, and a winery that may or may not be what it claims to be. Followed by Gabi, Val's sisters' eventual kidnapping, marriage at sea and a drug plot that made little to no sense in a romance story.

I think, because in every single one of the Weekday Bride stories there is a subplot that is slightly nefarious, Bybee continued on in that vein, but this one seemed to miss the mark. I missed the romance aspect of her story. It may have been here, but I didn't feel it, and that was disappointing. The only time I felt like Meg and Val had connected in the way that I knew they would was at the end of the story. I missed watching the two fall in love naturally and not because they were rushing to find out who was setting up Val to make his island look unsafe, and then rushing to find Gabi before it was too late.

What I did enjoy was that Meg was not your perfect character. She suffered from Asthma. I can count on one hand the few books I've read where the main character had a health issue. So thank you for making your main female character that much more relatable.

Would I recommend this book to others? Yes, because while it may not be the last in the series, it felt like closure with ALL of the characters from the previous 5 books. I hope that this series continues, because I do like it, but I would love it if Ms. Bybee went back to the beginning and concentrated on her current characters, how they're doing, and how their weekday weddings" worked out for them!

---

### Mary says

Una serie romántica, encantadora, con un toque de suspenso y con una portadas hermosas!!

El sexto libro de la serie y una vez es una historia romántica cargada de suspenso. Ya conocíamos a **Meg**

**Rosenthal** y su historia de los libros anteriores, pero es éste, vemos a Meg enamorarse a pesar de no querer hacerlo. Y la verdad quien puede resistirse a **Valentino Masini**! Meg es un personaje adorable, testaruda e irónica y la adoré desde el primer momento de la saga. Val es un tipo duro y trabajador, estructurado pero es un encantador y romántico, difícil decirle que no.

Hay un montón de personajes en esta historia, algunos ya conocidos, y otros nuevos, pero es fácil seguirle en ritmo. La trama es interesante; una isla ultrasecreta donde los ricos y famosos pueden escapar sin ser perseguidos por la prensa, hasta que alguien quiere sacar provecho de esto para sus propios negocios sucios, involucrando a Val y su familia. Es muy traumático todo lo que vive Gabi, la hermana de Val, y ya quiero saber como toda esta experiencia la va a afectar y como podrá conseguir ella su final feliz en el próximo libro.

Me encantó que regresaron personajes de libros anteriores, este grupo de protagonistas son una familia, cuando uno de ellos está en problemas los demás siempre están ahí... no hay meterse con ellos si saben lo que les conviene. Y para mí un momento muy esperado fue (view spoiler) Es algo que tenía que pasar y me encantó esa escena.

Es adictiva esta serie y ahora a esperar por la historia de Gabi y Hunter; imagino que no será fácil el camino que tendrá que transitar Hunter hacia el corazón de Gabi.....

---

### **Sonia Cristina says**

3.5 estrelas pelo enredo em volta de Gabi e Alonzo. Não fiquei grande fã do romance de Val e Meg, são fofinhos, mas nada de especial. Acho que tiveram mais graça os romances em que os protagonistas se casaram por conveniência.

Acabei de ver que o próximo livro (e último da série) é da Gabi, ainda bem, a rapariga teve mesmo azar e precisa do seu HEA.

---

### **Fernanda says**

adorei, adorei, adorei!!!!!!

mais uma historia deliciosa e "fofinha" desta serie.

Desta vez Meg e Valentino são o casal de destaque.... com algumas e "perigosas" reviravoltas e que me deixaram agarrada literalmente ao livro.

Com um nadinha de "thriller" e algumas cenas engraçadas a historia desenvolve-se a um bom ritmo.

para quem acompanha a serie, esta é sem duvida uma historia a não perder! :)  
que venha o próximo!!!!

---

### **Crista says**

**4 stars!**

If you are looking for a fabulous contemporary romance series and haven't read Catherine Bybee's bride series, I am here to say, you are in for a treat with this series!

Ms. Bybee's bride series is still going strong and *Seduced by Sunday*, book 6, is a stunning example of this. Although this book could be read as a standalone, characters from previous books become the leading characters in following books (and so on and so forth). Readers will appreciate things more if they are read in order. This author also does a fabulous job carrying these characters from one book to the next. It's almost like a big family reunion with each book.

This is Meg's book, and we know Meg as Judy's (from *Taken by Tuesday*) best friend from college. She is now working for Alliance and is tasked with finding a secluded and paparazzi-free honeymoon getaway for Alliance's clients. She schemes to find a way into an exclusive resort on a private island that is reported to be ultra private, exclusive, and completely unique.

Problems arise when she is denied access to the island, and she angrily engages the owner of the island, the fabulous and elusive Valentino Masini. When Meg is finally granted access to the island, she is not happy, but when she meets Val her anger and pride are replaced with interest and instant attraction. The feeling is definitely mutual as the sparks **FLY** between these two characters.

For those who are followers of this series, you know that these books are not simply love stories. They are stories filled with secondary characters, friendships, intrigue, hints of mystery, and some interesting plot twists.

I liked this book as much, if not more than *Taken by Tuesday*. The location of this book made me long for beaches, sun, and warm weather. The romance was very present, especially towards the end of the book, and I found myself getting swept away by the entire island experience.

The mystery was just enough of a focus to interest me, but I didn't think it overshadowed the romance portion of the book. The secondary characters all played important roles in this book and added to complexity of plot and the multiple story arcs that made this book truly enjoyable.

I am sad that we have just one more book to look forward to in this fabulous and unforgettable Weekday Bride series. I would love to see a grand finale epilogue to catch up with each of these couples and to say a final goodbye.

---

## **Pam says**

This is another wonderful addition to The Weekday Brides series featuring contemporary romance stories of heroes and heroines that are engaging and fun.

Meg Rosenthal is a matchmaker who works for Alliance, a company that sets up matches and marriages that make the public believe in an optical illusion. She is always looking for places her clients can get away from the prying eyes of the public and recently heard about an island off the Florida coast.

Sapore de Amore is owned by Valentino Masini, a wealthy man who prides himself on creating a beautiful oasis where people can enjoy themselves without the worry of being seen. His sister Gabi helps when needed

and he dotes on her as most older brothers do. When Meg decided to check out the island, she convinces Michael Wolfe, the very famous actor to help her. Val screens all his guests before coming to his resort and when he questions Meg's qualifications more than she feels is necessary, she is offended and they trade some snarky emails until he finally relents and accepts her, but by now she is pissed. This causes some fireworks when they first meet, which continue until they are faced with a dangerous situation, while they work together to find some answers, they realize that there is an attraction that is hard to deny.

What a delightful story with secrets and mysteries that will captivate you until the end. I thoroughly enjoyed this addition to the series as we are not only treated to Meg's story but we also get to read more about Michael, as his story continues.

I have liked Meg since we met her; she is down to earth, funny and determined to do right by her clients. When she finds a resort that has everything Alliance would look for in a private vacation spot, she wants to test it, so asks Michael if he wants to go. Unfortunately, the owner of the resort, Val and her get off on the wrong foot, setting up hilarious conversations that lead to flirting as their attraction is immediate and strong.

I adored Val, he is very protective over everyone and everything he holds dear. I love the way he acts toward his sister and mother, they have a great relationship. After exchanging several interesting emails with Meg, he is intrigued and goes to meet her in person, and the sparks fly. Their chemistry is electric as they spar back and forth sizzling the air around them and I love the two together, they make an amazing couple.

The pace is fast, as there is a lot going on, mysterious photos turn up causing Michael to panic, Gabi goes missing and someone is blackmailing Val. As the danger ramps up, the relationship between Val and Meg intensifies but what of their future as they live on opposite ends of the country, oh the choices they must make. Secondary characters play huge roles in this story, because as much as it is about Val and Meg, Michael gets a large part as his story continues from a previous book and Val's sister Gabi has a pivotal role here. And although this is the sixth book in the series, it can easily be read as standalone, the author keeps the reader up to date without problems. A definite read for those that like a great romance with some suspense added in.

### **Mlpmom (Book Reviewer) says**

I have had so much fun reading this series, it is just one of those series that as soon as you pick up the book, you just know you are in for a good time. Great characters, great setting, and a feel good slow burn romance that is always full of tension is all the right ways.

I have been wanting Meg's story for awhile now and was so very excited to find out that her's would finally be told and what a story!

I loved this. I loved the instant sparks (not insta-love) and Val and Meg were just..magical together.

Like most of Bybee's stories, nothing ever comes easy to her characters but all the struggle and sometimes heartache,are worth it when you finally get to the end. To the happily ever after that leaves you with a silly

goofy grin on your face.

I love that this took place somewhere different. The island setting was amazing and many times I imagined and wished I could be there with them experiencing it all. Most importantly, I love that while this can be a stand alone, it has many of the characters from the previous books. Ones we already love and care about. It is so much fun when that happens. I was so excited for some many of them and love that we always get that little bit more when it comes to them.

Once again this was an amazing love story that kept me turning the pages and wanting more.

Tiffany's Review:

Loved this story!! At first I was a little concerned about the number of characters and being able to remember who was who.

But once I got into the story it all started to flow. Love Meg and Val, two great people who weren't looking for a serious relationship but found one! This book gives you love with a mix of mystery and crime!

The last few chapters had me dying to find out how the story was going to end! Great book to add to your summer list! I give it 4-1/2 stars!

### **Steph Hren says**

I just finished reading "Seduced by Sunday" by the brilliant Catherine Bybee and let me say it was so freaking amazing. Since reading the first book in 'The Weekday Brides' series "Wife by Wednesday", I have been a huge fan of the authors works. This series is one of the only series that i have read, that continuously has me craving more.

Catherine Bybee has this crazy and unique ability to make you feel like you are apart of the story and that you actually know these characters. I haven't found one character in the series that i don't feel some sort of connection with, and that makes the story come to life. There is this awesome mixture of everything you could want in a story. The men in this series are all so amazing delicious and even envy the kind of love, care and support that they show to the women they love (&& i mean the all consuming forever kind of love). But the story is not even close to just a run of the mill romance, it is packed with suspense and mystery as well. Ms. Bybee has an uncanny ability to come up with unique and entertaining plots that keep the reader hooked from first page to the last.

I am a die hard fan of this series. It is so bittersweet that as much as i am already psyched to read "Treasured by Thursday" but I am sad to know that will be the last in this series. I don't want to see my favorite ladies of Alliance and their insanely HOT men go.

Thank you Catherine Bybee for bringing these characters to life and gifting all of us fans with your amazing books.

## **Mafi says**

O casal não me convenceu muito mas adorei todo o mistério, peguei no livro já passava da meia noite e só acabei às 3 da manhã!

Agora é esperar pelo 7º e último...espero que não demore muito.

-----

(....)

Apesar destes livros serem claramente romances, a autora tem introduzido cada vez mais o elemento de mistério e aqui levou a coisa a um nível mais alto, o que me fez adorar o livro! Além disso, é com esta parte de mistério que conhecemos a protagonista do próximo e último livro, a Gabi.

Já suspeitava que havia algo de estranho com o Alonzo, o noivo da Gabi e não me enganei. Gostei mesmo muito de toda a história do crime deste livro, muito bem trabalhada e que ligou muito bem com o local onde se passa a acção: numa bela ilha privada, longe de todos os olhares (inclusive da polícia!).

(...)

Sem dúvida que um dos pontos fortes desta série é que embora possam ser lidos separadamente, ao ler tudo por ordem, conseguimos criar uma relação de maior afecto com todas as personagens. A autora consegue mostrar muito bem que as personagens anteriores seguem o seu percurso e a sua vida, ao mesmo tempo que introduz a próximas protagonista, isto sem tirar destaque ao casal principal.. Sinceramente, este equilíbrio é algo que muitos autores não conseguem fazer, é difícil contar várias histórias paralelas num só livro. Ainda por cima estes livros tem uma média de 300 páginas, que não é muito.

## **☆ BJ's Book Blog ☆Janeane ☆ says**

4.5 stars

I am not sure how first stumbled across the Weekday Brides series, but I am glad I did and have enjoyed every book I have read so far.

And Seduced by Sunday is no exception.

I love this series about the women of Alliance and the men that steal their hearts.

First impressions are so important - and Meg's first impression is that Val is an ass. An ass he may be, but he is a hot and sexy ass!

And Meg is a pain in Val's arse - one that he can't stop thinking about.

Oh how I love this pair. From the minute they butt heads via email, I just knew that they were going to be fun and feisty, and things would be hot. Their attraction is instant, the sparks fly between them and come across as a bit combative, a little bit sasssy and smart-mouthy.

And behind it all you can feel the pull between them and you know it is not going to be long before things heat up.

There is a bit of mystery and intrigue thrown into the mix to, just to spice things up a little.

I loved that we got a bit more of each of the other ladies and gents from the Weekday Bride series. This rag tag bunch of friends are just wonderful, giving each other grief like only truly good friends can do. She has woven all their stories so seamlessly together, that each book in the series is like coming home to a big family reunion,

Though this is Meg's story, I was soooooo happy that Judy's brother Michael is getting some happy in his life.

But I have to say the one that stole the show whenever she was in a scene was Val's mum. She was that stereotypical Italian mother, completely invested in her kids lives, full of opinions and just great!

So, do Meg and Val get their HEA, or will things conspire against them and keep them apart?

Nope, you will have to read to find out for yourself.

Ms Bybee has created a series that you cannot help but love. Each and every book in the series just impresses me more and more. What am I ever going to do when this series ends??

---

**Christina Boronkas says**

I was provided this book in exchange for an honest review. I have been down and not really reading but as usual catherine pulled me out and made me smile. I loved this book, it has all the usual characters but alot of

suspense and laughter and fun. Besides who wouldn't want to fall for a hot Italian man? as always a great story and it will make you cry but they are happy tears and you will be happy Meg got her heart. Thank you Catherine for the experience, makes my heart not hurt so much but see light a little more.

---

### **Jessica Frances says**

This was fantastic! I loved Meg, I loved Val, and I loved that we got to see Michael so much in this story! I sort of wish he could have gotten his own book to finish his story line off, but I will take what I can get. This one was just as much fun as the others in the series, and I loved being able to envision so many picturesque places in this story. Made me itchy to get near a beach!

I loved how strong Meg was. She is independent, smart and brave. I loved her banter with Val and that he never resented her for how she was, or seemed put off to let her take center stage. They were both fantastic together, and their chemistry was hot. I craved their scenes together. My heart broke for Val's sister, Gabi, and I can't wait to see her get her true happy ending in the next book. I definitely recommend this book if you are a fan of romantic suspense.
