This is the first time that I am ever writing a review. I stumbled upon this gem of a book in the 1990s in a second hand bookshop in my hometown Bangalore, India. This was my all time childhood favourite, I devoured it every night..reread it so many times. Victor is one man who has truly understood children..it's like he has held a big telescope into the crevices of their mind. I have kept this book safely and waiting to read it to my future child.

I laughed at some stories, I liked some stories, I got bored by others

One of the most thumbed books in my shelf. I read it all through my childhood and well into adulthood- reliving the nostalgia. What felt amazing was how relatable it all was even as an adult. The narrative was so gorgeous, it hardly felt translated. Each of the stories is exquisite. This is a book I wanted to share with the world and keep it my secret.

The sheer magic, with which all the simple complications of Dennis' (and all our) childhoods are captured. My advice to you is— if you are lucky enough to find a copy of this book in these American times, go ahead and grab it. It's a window to a childhood we have all had but forgotten amidst the clutter of grown up life. Clean your shelves, open the windows, grab a nice chair, stroke the cover, turn the pages and go back in time.

This was perhaps one of the best books I read as a child.

Really loved the humor and the occasional philosophical and emotional elements in the book. According to me this book is still quite enjoyable for an adult too.

Definitely makes me feel nostalgic.

This book defines my childhood. Actually this book defines childhood. I read it as a kid and it was the one book that seemed to understand and mirror everything I experienced or thought or felt... and more. The best part about it is that when I read it for the first time I must've been about 7 and I was always Dennis. And everything he said made complete sense and it was wonderful. And when I read it now, I realize how ridiculously tiny Dennis is and it's a whole different kind of (just as) wonderful.
