I really liked this book. Probably more like 4.5 stars. Sometimes I really don't like DM books, they can be a little too sweet. This one tho was good. The 2 11 year old daughters were realistic and a warm, fun meaningful part of the plot. I really liked the developing relationship between the H/h from wary friendship to romance, to love. They were both resistant to the idea of love and romance, they had no desire to repeat the painful experiences of their first marriages by ever marrying again, but their friendship quickly led to attraction and caring. I liked that there were some bumps in the road but no big misunderstanding. I like smex in a book but in this book it was ok that it was sex free. These were two intelligent, sucessful, good people who despite their best efforts fell in love. It's clear they want to fall into bed also but they have other responsibilities to deal with first.

Cheesy Hallmark movie quality. Feel good romance, and a good way to pass time while I washed my comforter at the laundry mat...it was the only thing at Walmart that I didn't already have that wasn't too embarrassing looking ?.

Karleen Brennan Turchin says

While I love Debbie Macomber books, this one wasn't a favorite.

I have read a lot of books by Debbie Macomber. This was not one of her better ones. I would describe it as a run of the mill romance book. Joanna Parsons, a single mom with an 11 year old girl, never wants to marry. She meets Tanner Land, who is also single with an 11 year old girl. Now I think we can all guess what happens. If you want to read a story to enjoy and not stretch your brain, this is it.

There were parts of this story I enjoyed but at the end of the story I could not understand what Tanner saw in Joanna. She treated him terribly and he put up with it. Joanna's character came off looking pathetic. Loved the storyline of the matchmaking daughters. I need to remember to stick with reading Debbie Macomer's newer novels. This one was written in 1989.

A very cute book

- 1- daughters conspire against the parents
- 2- the daughters act 'real' in the sense that they feel the parents are over the hill just cuz they're their parents (my gosh! they're over 30!)
- 3- Both the H/h become friends before they get involved
- 4- they don't want to raise their daughters' hopes
- 5- They're both divorced and what they feel for their exes is true. You can't just wipe out the past
- 6- The h's encounter at the roller skating rink STRONGLY reminded me of my ice skating effort. I SUCKED SO BAD at it. As did she.
- 7- a really cute encounter over cookies...

Overall, a really good book...

Predictably

Really predictable but good. Like Debbires stories. Not too much sex but always a good read by her. Thank you!

Easy Read

Really enjoy her characters and story line. Can always be assured when reading one of her books. Always brings humor and romance together in fine fashion! One more to add to my list of enjoyeds!

Pamela says

This is about 2 girls that are in 6th grade who are best friends. Both of their parents are divorced and bitter about marriage. The girls scheme to bring their Mom and Dad together. Another great book from Debbie Maccomber

Kristen says

One of her earlier books but a nice, easy and light read! Now onto the next Debbie Book I have picked out.

Linda says

One of Debbie's earlier titles repackaged still holds plenty of charm. Two junior high best friends scheme to get their parents together so they can be sisters. Of course, the plan goes awry. For a while the would be sisters are not friends--just about the time their plan was working. fun read.

Pam Windler Morse says

Not her best, but a quick mindless read.

Leona says

Two divorced parents com up against two matchmaking daughters who think they would make a wonderful couple.

Predictable, but fun.

I struggled a bit with the hero who prompted by jealousy had a way of delivering some nasty lines, yet the heroine just let it roll off her back.

Thus the three stars.

Saly says

I liked the book, it was sweet. Both the hero and heroine are single divorced parents to eleven year old girls who are best friends. Both of them were burnt badly and have no intention of marrying again.

Their first meeting is not great, the heroine comes off with the impression that he is a bad parent and he thinks she is a crazy bag lady. The mis-conceptions are soon cleared up and both of them become wise to the plans of their daughters to get them together.

They decide they don't want to but still start dating deciding to keep it light but it isn't. There were moments the heroine acted irrationally especially at the party but it was because she was having flashbacks to her womanizing husband.

The proposal with the pipe and all was great too.

A sweet read.

Brooke says

Yours and Mine is such a cute, fun loving, romance story by Debbie Macomber. Right from the beginning I was on the same team as the two eleven year old girls; Kristen and Nicole wanting their parents to start dating. Joanna and Tanner put up a good fight and it was a pleasure to read about them.
