**Julia Jasztal says**

(Mommy's review from 2/1/12)

Julia's always loved Babar - books, the cartoons, movies, whatever has Babar in it so when she brought this home from her school library I thought she'd like it like all of the others. She ended up thinking it was okay but not great.

I have to think it's for younger children (younger than Julia at 6) because of the pictures inserted where some words would normally be. This is obviously to help children participate in the story but Julia's past that.

What confuses me is the length. It's pretty darn long, pretty wordy, for most kids who still need/want help reading a book of this type.

I don't know what the goal was here but this is the last Babar book I'd recommend to anyone looking for one. I think Julia would agree.
