Bear & Beautiful

Terra Wolf

Bear & Beautiful Terra Wolf

To this bear, even the broken are beautiful.

Curvy and calculating, Amber Kelli has been down on her luck for far too long. After a long string of unfortunate events, Amber managed to find a job working for a catering agency. She thought that her troubles were over and that her life was finally back on the right track. That is, until her agency is hired to cater a party thrown by one of Manhattan's most eligible billionaire bachelors. After an embarrassing exchange with the billionaire himself, Amber abandons her post and slinks out into the dark and stormy city where an even worse misfortune lurks nearby.

Bear-shifting billionaire Grayson Days has the whole package. He's driven, talented, and incredibly sexy. What he isn't, though, is complete. Although his inner-bear longs to find his mate, Grayson has all but given up on the search. That is, until the night of his parent's anniversary party where he encounters a curvy and quick-witted beauty who steals his heart the instant he meets her. Before he can get to know her, however, Grayson is pulled away to offer a toast to his loving parents. By the time the toast is over, the woman fated to be Grayson's mate has slipped out of the party and into the storm-ridden city. Giving chase, Grayson tracks the woman down, only to find that something terrible has happened to her, and that time is of the essence if he wants any chance of rescuing her from certain peril.

Kidnapped and taken hostage, Amber does her best to fight back and escape her captors. But will it be enough? Will Grayson, in desperate search of his new found love, track her down in time to rescue her? And in the midst of unfolding chaos, will Fate itself be enough to bind together the bear and the beautiful?

Pamela Fetz says

Pam's opinion

Good read but a little bit to short. Not enough details. Who accepts shifter exist and agrees to marry on the first night they meet. Not very believable to be honest.

Cynthia Gutzwiller says

This book starts with Amber working a high-end function as a caterers assistant. She is taking a break when she spots Grayson from across the room. All of a sudden, the room gets a little hotter, the noise seems to disappear, and...all she sees is Grayson. He comes over and they start chit-chatting about the party. She starts talking about the lame Billionaire looser throwing the party. Talking dirt as Grayson just smiles and continues with the conversation. Then he tells her he will be back in just a moment. He goes to the front and welcomes everyone to his parents anniversary party.

She rushes to her boss saying she is sick and needs to leave early. She looks ill, pale face, sweating a lot, and stammering her words. She is so upset she runs out into the night, not looking where she is going. The next time she looks up, it's raining, there are only warehouses and office buildings, and no cabs.

A car rolls up and tells her to get in. No it is not Grayson, but the kind of man she really did not want to see. She starts to run, which does her no good at all. Next is bindings and the trunk of a car. The tears she sheds because what else is there to do in a trunk, but cry.

Grayson's parents tell him to go find his girl, the party is for them, not him. He looks around and can't find her. He keeps looking, and looking, and looking. Then his bear decides it is his turn to look.

I received this book as an ARC book, for an honest review.

Bear & Beautiful by Terra Wolf

lin says

Grayson and Amber rate five stars. Wish it was a higher rating. Readers will enjoy this story. Instant attraction, useless worry, Kidnapping and a rescue. Thanks Terra

Kristina says

Amber is spiteful only because she has less, and envies those with more. And Greyson...how the heck does he track a car in the city? In the rain? Whatevs. Short read. No depth.

Jane says

It was ok.

I get that it was a novella, but it was very abrupt. Otherwise it was ok. The sex scene was kinda bland.

Over all this was ok. Not good, not bad, just ok.

Meiwilli says

Dribble...Short and simple. Self pity is unattractive and Amber stinks of it. Grayson Day is a mystery besides turning into an eight foot tall one ton bear. Grayson however had some potential for character development. Amber had zero. Free Amazon read but feel obligated to pass this one up. On my Were Scale of Hotness, 0 stars.

Rochelle says

This was a really sweet story. I loved the storyline and the characters. However I think that it was rushed and underdeveloped, and should have been longer. This could have been an awesome story!

Darlena says**Bear and beautiful**

It was a very quick read so the author rushed to get it all in. So they meet, the h thinks the H will get her fired. Runs off upset and ends up in a bad part of town. Bad guys get her. H travel 's her with his super shifter nose, res use her and they live happily ever after.

This book has great potential for a full length novel. For a short, it is kinda unbelievable.
