## **Billionaire Husband** Sam Crescent

Shaun and Addison married to secure the future of their families' respective billion dollar companies. They're expected to stay married, and produce children. In the beginning, Addison waited for Shaun, but when she saw it was going to be a loveless marriage, she found passions elsewhere in her cooking.

Shaun had hoped for a good marriage. When he discovers his wife is as cold as her family, he only stays long enough to do his duty as a husband. When he sees his wife on a television interview, he discovers a whole new side to Addison that he'd only hoped existed.

Away from their families, can these two people find true love? Shaun is determined to be more than a billionaire husband, but can Addison allow herself to fall for a man she knows nothing about?

## Katrine says

[their only problem here is their parents; which Shaun was able to resolve right away (and made me "Huh? That's it?!") (hide spoiler)]

---

## Angel says

I found this book confusing.

For three years Addie and Shaun were married meeting each-other once a month for sex. Sex was awful but hey it was once a month.

They never talked or communicated in any other way. FOR THREE YEARS!

Then one day Shaun finds out his wife has a life. One he new nothing about. Shocking that lol.

Shaun is determined to get to know his wife and boom the sex is suddenly A.M.A.Z.I.N.G.

A couple of inconsistencies. One whilst Shaun was getting head he touched his forehead to hers. Damn flexible guy.

Two he takes her anally at the end of chapter 7, then Chapter nine he takes her anally for the first time. hmmmmmmmm.

The story had a nice romantic aspect to it once you get past the first three years of nothingness. But it was weak at best. However I did enjoy reading this.

## Chantal ♥? says

SPOILERS SPOILERS SPOILERS.

READ AT YOUR OWN DISCRETION

This is one of those books that has me questioning my taste in books.

Things I hated about the book:

- 1- she is lying to him the whole of the first 3 years of their marriage with an birth control implant while they are actively trying to have a child
- 2- they are just bad in bed together for 3 years and all of sudden they talk and his penis and her vagina are magical (yes that's not suspect at all)
- 3- he doesn't know anything about her life and she is on TV and on the Internet. What has he been living under a rock?
- 4- he was a lousy lay for 3 years and she put up with it to have a baby that she was preventing in the first place. One bad lay, ok even two I can understand but 36 lousy lays? How stupid do you have to be to even show up the following month!?
- 5- he dates other women for business he said "I did not fuck them" who the hell cares? You could not even be bothered to ask if your wife was available. YOU JUST SUCK!
- 6- she lets him get away with being an asshole for 3 years? Again that is just TOO STUPID!.

Things I liked about it;

- 1- they did not sleep with other people
- 2- they cut off their parents after they told the press about their fake marriage
- 3- he tries to make it up to her and have a honeymoon and start supporting her decisions.
- 4- the secondary character drama was great (better then the MC drama in my opinion)
- 5- they have a cute little epilogue with babies.

This story was an ok read with some smut to make up for the lousy sex that the beginning where the heroine was thinking about the ceiling getting a paint job while her husband got off. Yeah that's exciting. Not!!! I will not be reading this one again and I would only recommend it as a second chance romance.

---

### **lily waheed says**

a sweet and enjoyable read ,simply it's a marriage of convenience turned to a real marriage , loved Darla and Dean!

---

### **Bookloverme says**

I've read Sam Crescent's books and I can say that this is one of my favorite books of hers.

The story was about Shaun,over 30 and Addison, almost 24.

Shaun and Addie had been married for three years but lived separately. They only saw each other once a month to have sex in order to have a baby. There's no passion. And for her, sex was boring.

Their parents demanded them to marry each other. They're married and yet, he had his own life and she had hers. There's a lot they didn't know about each other.

Addie loved to cook and bake. She had the blog, video channel and cookbook and Shaun had no idea about it. Not until he saw her on the television. He was shocked and that's when he found out about her career.

He went to see his wife and found out she's not living in the house he bought for her. Instead, she's living in an apartment where she also makes the videos with the help of her best friend, Darla and a neighbor, Dean who tries all the foods. He went there to see her. They talked for the first time. He wanted to be part of her world. Get to know each other and make their marriage work before having children. He also wanted to be involved in her videos.

He's so proud of her career and success and supported her too.

Their parents especially their mothers didn't want Addie's career. Their families were cold. Lucky for Addie, she had grandparents who loved her when they're still alive.

They had their late honeymoon but it was cut short because of a scandal. But Shaun did everything to protect her and their marriage. I liked how he fought for her.

There's an epilogue. I loved the epilogue. It's great to see Dean and Darla together. Shaun and Addie cut ties with their families but they had their own family now and true friends.

Safety: (view spoiler)

---

### **Cheesecake says**

Shaun and Addison. The plot was pretty rickety on this one. Their marriage is arranged by their parents, somehow they get off on the wrong foot and make assumptions based on pretty much nothing. Hmmm. They get together once a month to have perfunctory missionary sex to create a child. Not much hope of that happening is there!? Then, by chance Shaun sees his wife interviewed about her successful cooking blog and realizes how VERY little he knows her. So the book is mostly about him trying to reconnect with her and being stunned over and over with what he thought was true (for no good reason) and now realizes isn't. Then there's those that set them up for failure and aren't interested in seeing Addie succeed.

This one is a stretch in exercising your suspension of disbelief, but if you can manage it, it's a fun read. Yes there are a multitude of plot holes, but the characters were good and the ending was sweet with justice for the evil doers. It was like a good Jordan Silver ending, but without the swearing and the painful sounding sex.

---

### **Diksha says**

Earlier i gave this book 3stars but now am changing it to 4stars !

They had a rocky marriage at the beginning(for the first 3years),both made mistakes but they were both faithful :D which is very good :D

Finally they decided to try and save their relationship !

They started communicating and they WORKED to make their marriage strong and i think that's what matters :)

Plus you could feel the love between h and H <3

Steamy read + Pleasant epilogue :D

---

### **~ Cariad ~ says**

Love that they fought to save their marriage!

Some really dirty, hot scenes and a beautiful HEA - the story itself wasn't terribly plausible (30 yr old billionaire and his wife being controlled in some ways for 3 years by their parents??) but who cares, it's fiction and it was a good read!!

---

## RJ says

Mostly just okay.

Those "business dinners" could be debated but he was faithful to his wife even though their marriage was cold and they barely saw each other. I enjoyed how he chased her after he found out the truth about her life outside their marriage and was determined to make it work.

---

## Maria says

Λοιπόν, κοιτάξτε τώρα που έγινε κάτι απίλυτα περ'εργο. Ήχω διαβάσει 3 βιβλία της Sam Crescent και τα έχω μισήσει και τα τρία. Αν και γράφει εξαιρετικά καλά και μάλιστα σε ένα έδος που αγαπώ πολύ τα προηγούμενα βιβλία της δε μου φησαν θετικά εικάνα. Νομίζω ότι το γενικό της πρόβλημα είναι η γλίστρη δυναμισμού στον τρόπο που τοποθετεί του ήρωες της αλλά και επεξεργάζεται τις κινήσεις και τις αντιδράσεις τους. Αυτό έχει ως αποτέλεσμα να λέει ο αισθησιασμός και η ερωτική χημέρα που είναι απαραίτητα στην ερωτική λογοτεχνία και βέβαια η εσωτερικότητα απ τα ψυχογραφήματα και τα συναισθήματα των χαρακτήρων. Μετ' το "Billionaire Husband" διβάσα ακμα να δικά της για το οποίο όμως έχω ακριβώς την ίδια αποψη. Άλλα όμως που αυτό εδ' μου ρεσε και μάλιστα πολύ.

Ήσως φτάει το ότι οι ήρωες αν και είναι παντρεμένοι 3 χρόνια έχουν μια συμβατική ζωή (με επ'κεντρο την ανυπαρξία σεξουαλικής ικανοποίησης, αν και όχι συμβατική με τον τρόπο που μπορεί να φαντάζεται κάποιος) και αυτό η αποστασιοποίηση στην πύνα της συγγραφής ως αποδεικνύεται χρ'σιμη. Ήσως έχει να κάνει με το ότι πρώτη φορά οι μικρές ιστορίες που γράφει η Crescent δεν χρειάζονται περισσότερες σελίδες ώστε να έχουν ένα πιο ολοκληρωμένο χτίσιμο χαρακτήρων. Η ουσία είναι πως μου ρεσε πολύ το βιβλίο και αν και μάμρα αργότερα διβάσα, όπως προεπα, ακμα να δικά της το οποίο και μ'ησα δεν αλλάζω με τίποτα γν'μη γι αυτό εδ'.

Και ναι, αναγνωρίζω τα ελαττώματα του, όπως το ότι μας αφήνει αρκετά ερωτηματικά για την κοινή ζωή του ζευγαριού κατ' τη διάρκεια των τριών πρώτων χρόνων, ή το πως κατάφεραν να έχουν τα μυστικά τους. Όμως πως πύνα βαθμολογώ; Σμόφωνα με το τι αισθ'νθηκα κλένοντας το βιβλίο.

## Preeti ♥ (Romance She Reads) says

**Ummm I don't think I can go on!**

\*Spoilers and then some\* An arranged business marriage of 3 years - apparently she stood in for her 'wild' runaway bride sister.

Living separately for 3 years. In fact, each isn't aware where the other lives. She arrives on time at the 'museum' (house picked up by her mom) where he thinks she still lives, have the duty baby-making sex, locks up after him and leaves.

*You would disappear for weeks at a time, and only return for that once a month 'inoculation'.*

She's a big-O virgin. Wedding night was bad and each of the 12x3 times isn't any better. Well, no pain thankfully but she'd rather contemplate painting the ceiling while the husband grunts over her.

*She didn't even think she liked sex, and it was all his fault.*

He doesn't know that she actually has a career - cooking and blogging and writing.  
She sees him pictured with models and such on a regular basis. Bit hurt but goes on with her life.

**Bad?**

No!

Nothing wrong with this scenario cuz I dig just this kind of ugly, cruel, uncaring behaviour from the H.

**But then we get this ..**

*From the moment he first saw her, he'd been infatuated with her.*

Whaaaatttt? So how come she thinks you were marrying her sister and she replaced your true love.

*"I wasn't. I can't stand her."* \*Whiplash Brain injury\*

*"Those women I went out with, I went out with them to help the company. I have never cheated on you.*

*\*Facepalm\**

*"I'm going to give you the wedding night I should have done."*

So what stopped you all these years??? Lazy louse!

*"Today, in my office, was that the first orgasm you experienced?"*

Dude, either you know the answer to that or you don't....deserve to!

*She moaned and wrapped her arms around him, holding him tightly.*

Suddenly from contemplating the decor she goes to orgasming at just his touch.

*How damn wet she was. All the other times with Shaun, she'd been dry...!*

*"I've fantasized about these, baby. They're so full and big, and damn, they make a man wild."* \*And some other unprintable, unmentionable stuff\*

And so from a silent grunting lover he turns into a garrulous dirty talker.

And they start living together. **My biggest confusion** is - why they never did so before?

They married presumably under family duress/business reasons. The families, of course, think they live together - in the 'museum'. So when and why did he move out? They presumably live in the same city. It's said he got too busy with the business.

But when did he shift out his clothes and stuff and where does he put up? Not living together would mean a conscious decision of packing up and leaving. If they lived separately right from the beginning, was it a mutual discussed decision?

So he's lives *somewhere*, leads his own life, socialises with these other women but visits her for the wham-bam-door-slam.

And her periods are so regular, they don't even set a date - he just visits! (Programmed in his phone calendar or does his PA remind him?) To a place where she doesn't really live but he think she does. For three years? The families are none the wiser as well? Sheesh!

This is the stupidest thing I've ever read. And *he's* allowed to run a multi-billion business!

I wasn't even shocked/bothered by her dishonesty in having a contraceptive implant from the beginning and letting him sweat monthly over a dead loss mission. Bet she had a few tee-hees at his expense.

Is there more? I stopped at what looked like a hea midwayish.

*"I'm your girl?"*

*"You know you are. You've got my dick inside you, my ring on your finger, and you have my name."*

**Cool!!!**

A/N - I reserve the right to rate, review this dnf-ed book as I've invested enough time, money and patience on it. And that includes writing this piece.

---

**???? says**

I laugh while reading the first part of the book. When Addie and Shaun having sex. And she's thinking about other things rather than her husband. So the book description mention that they are married and led separate lives from each other. And for 3 years, Shau only appear when she's in her fertile state. So that he can get her pregnant. And other than that, there's no communication between them. Until he accidentally saw the interview his wife gave, about her upcoming cooking book release and he's shock. He couldn't believe that the 'cold' wife he married is passionate about cooking. I was like what?? Lol... Idiot who doesn't surf Internet and watch tv?? I couldn't believe that. Then he went to the house to look for his wife and realize that she doesn't live there. And he managed to track her down. After 3 years of loveless sex marriage, they finally had a decent conversation. Like who she really is and who he really is. I was like.. Fine... Ridiculous fine.. I like how they managed to grow close to each other, how he fight for her when their parents oppose Addie in her career. I like how he finally put an end in their intervention by cutting them out of their lives. And the ending of the book is a plus for me. I like reading they have kids and the interactions they have with them. Darla and Dean is totally important in the book. Cos Darla and Dean are best friends with Addie and they love her as much as she loves them. I like it when Darla and Dean end up together. It just add sweetness to the book. This book have too many similar sex scenes. Other than that, I'm fine with it. I'm not a person who enjoy cheating plot. So this book doesn't kill me cos there's no cheating.

---

**\*Dee's Reading Time Matters says**

Crescent will always be my go-to author...

In this story, Sam Crescent knocks out two HEA with Shaun/ Addie and Darla/Dean. The main protagonists in 'Billionaire Husband " was Shaun Woodside and Addison (Addy) who had an arranged marriage in order to bring two failing companies together (similar to a merger). What started out as an arranged and boring union, it took Shaun seeing Addison work magic in an TV cooking interview. He had no idea what Addison did when he wasn't around and even worse he thought the house he met her in each month to have sex was where she lived... WRONG! He later learned that she hated the house because it was cold not the type of house she wanted.

Dean, a handsome model was in love with Darla, camerawoman for her best friend Addy. Because Dean was this well-known model. Darla just didn't think their relationship could work because he was surrounded by beautiful women everyday. Wrong again! Dean wants sassy and opinionated Darla and he goes to London to show her he means business !

I enjoyed this story because both, Shaun and Addison had the wrong view of each other and it didn't help that they had very mean, pretentious and controlling parents who only where about "keeping up appearances." When Shaun put his foot down, well all hell broke loose and his mother take her vengeance to

a whole nother level. Then.... no, no, no... TMI...! There will be no more spoilers given... just read it and enjoy this jewel of a goodread!

3.5 memorable stars!!!! \*\*\*.5

---

### **CC says**

I pretty much hated this story. 3 years of lies and then - voila - all of a sudden everything is perfect.

I did not like either MC. Not sure why I am being generous with 2 stars, probably because I like Sam Crescent.

While the husband did not cheat, he did go on dates. Total douche canoe!

---

### **Talltree says**

3.5 stars!

---
