Blurred Lines Breena Wilde

Volume 1 in The Wrong John Serials

Genre: New Adult Romance Series

Cadence lives her life without holding back. She's all in. Her life is raw, real, and unapologetic. If you aren't afraid to experience all Cadence has to offer, read this series.

Hooking has four important rules. Cash only. Use protection. Carry mace. Don't fall in love.

Twenty-year-old Cadence is a prostitute and she lives by the rules. They keep her alive and they keep her heart protected. But when she agrees to take one last job to get out from under her pimp, she discovers some of the rules might be worth breaking.

Liz says

Just ok.

I hate these money spinner books that end on cliff hangers. This is not a complete story - not to mention in being a measly 50 pages - and the thought of paying for a semi story doesn't sit well with me.

It's all very HM Ward....

Not prepared to pay for another couple of chapters and support this 'ripping off your readers' tradition.

No thanks.

? Eyes On The Stars ? says

HOT HOT HOT. I honestly don't want to remove this series from my Kindle carousel because I know it's going into the re-read pile. I like that these are short reads, but I would have liked to seen this all published as one novel.

This book just jumps right into the prostitution bit, and no forgiveness is asked or really even desired. It was a refreshing change of pace reading a totally different lifestyle. It's nice that she isn't just immediately delegated to "down on her luck", but more she choose this to survive and still has dreams ... hopefully she will achieve them without too much more sacrifice.

This book she meets John Cruze (I see what you did there). He just seems like a dreamboat, doesn't he? The fact she didn't recognize him right away was really cute too. This guy totally has my Team vote.

Fileze -- now that seems like a stand up guy. Or not. I'm expecting him to make a comeback in the later books, mainly because I would like to see where his and (view spoiler) relationship started.

John Zane -- well ... shit. He just reads of nothing but bad news.

Cherry Hurtado says

WOW!!!! It starts off good and ends fucken amazing! I know it's only part 1 and its only about 80 pages but holy shit!!! This book is so good!! Now I do have to say that the beginning kept reminding of the movie pretty woman which I know word by word! Lol... On to the next book because the cliffy was no fucken joke

Sónia Tigol says

This book was amazing. I really like the story and the characters.
And the twist at the end of the book was awesome.
I can not wait to read the next book.

Jamie (TheRebelliousReader) says

3 stars. This was a really fast-paced read. It's only 50 or so pages but I don't think that was really a downfall. I just kind of breezed through it and didn't really get to make a connection to any of the characters.

I really liked the story and the ending -cliffhanger alert!- was really well done. The writing was solid, the pacing was good but the character development was lacking tremendously.

Cadence, I'm not sure what I think about her. I didn't dislike her or anything but she didn't stand out in any way. I liked that she had her own set of rules to what she did and she stuck to them for the most part (we'll get to that in a second) and she wasn't ashamed of what she did for living. She was just kind of there but she was forgettable. I don't know, that's one of the bad things about these short stories, you can never get a good solid feel of the characters.

John #1 (I kid you, not. His name is John. I giggled like a 5 year old) was really generic. He's some famous somebody or something but he was boring to me. He was a nice guy and all but he had the personality of a wet mop. Dull. I have no doubt though that he'll grow on me as I continue on with the series.

John #2 a*k*a Zane doesn't show up until about the last three or four pages. I know absolutely nothing about him except that he might be some crazy sadist or something. Really interested in getting to know his character a bit more and see how he gets involved with Cadence's life.

Like I said, the cliffhanger ending was really great so I will definitely be continuing on with this series.

I LOVED IT!

HOLY CRAP, Such a HOT, STEAMY, SEXY and ALL AROUND AMAZING READ!!!

Part one of the Blurred Lines series introduces us to Candace and John Cruze. Candace is a hooker, and we meet her on her last night of working for her pimp Felize. Her last job is John, and when she meets him he's completely different than her other clients. The sex between them is HOT HOT HOT and you can tell there is definitely something between them.

I loved Candace's character, as she's strong, doesn't take shit from anyone, and knows what she wants! She's not weak, and "Oh poor me", she knows what she's doing, and I loved that about her. At first I wanted to HATE John, knowing the synopsis of the book I couldn't believe a hottie big time movie star would get a hooker, but once you finish this part of the story, you realize maybe you shouldn't have hated him right off the bat. The way he treats Candace is so sweet, and once the whole picture is set, you fall in love with him.

When Candace gets back to her apartment, trouble arises, and where she ends up, literally just the description of the "Blue Room" scared the shit out of me. The other John, and how he treated her, pissed me off, and I hated him and his sleazeball goonies.

I loved this novella, and can't wait to start Distorted Lines (#2), but as my promise to you readers, I always review the book after I read it before starting another, so everything is fresh.

Breena Wilde's writing grabs you from the beginning, and doesn't let you go. I was amazed by this story, and encourage all of you to pick it up. Now go pick it up, and I'm off to start book 2!

Cafebiblioart says

I wanted to read a book with a similar subject for quite some time now. I am really glad that I read this one because it was amazing, but extremely short.

The author is really talented, the book is well written and in a manner that makes you become more interested in the characters' lives and also it makes it easy to connect with them.

This book is a must read mostly because it presents an aspect of our reality that we do not want to think about. This book makes us understand better that lifestyle, but without making the reader sick. What I mean is that the author chooses her words carefully so that the story is believable, but at the same time it does not show the really violent aspects of the lifestyle.

I loved Cade, I loved the fact that she wants more from life. I do not agree with her choices, not even a little bit, especially when I think about her clients' wives and families. The book also depicts the scum of this society we live in.

John is very nice and all that, but I do not think that he is the right man for Cade. She needs to know that there is another way, that nice people do exist, but at the end of the day she needs someone who understands her better, she needs someone who stepped foot in her world before.

Even though we barely get to know the other John which from now on we will refer to as Zane I got the feeling that he would be a better fit for Cade, but we will see...

The book is written so that it is light and easy to read and in a manner that everyone would enjoy it. The cover is gorgeous and the title is a perfect fit.

Overall the book is great and you should definitely read it.

2.8 Stars

Meh.

Okay read but I'm not interested enough to continue the series.

You can find this review at [My Favorite Things](#)

Blurred Lines by Breena Wilde is the first in a set of serial novels about Cadence and her two Johns (no joke).

So - Holy erotic, steamy goodness! My interest in this book was piqued with the whole hooker angle as I am eagerly awaiting the release of another book about a stripper. So glad I found this, so sad it's a serial that is still in progress. I have devoured the first three and the fourth has just been released so that's bumped it's way to the top of my "to-read" list

Life can be tough and the life Cadence was raised in was much tougher than most. She does what she can to get by and when she has an opportunity to get out of prostituting and move on she takes it. However, one tiny slip up (*and slip-in *grinning**) and things kinda start to fall apart for her, again.

Cadence's last client before freedom from her pimp - she just knows that skeevy SOB is going to have someone awful lined up for her, but wait, the guy's actually pretty awesome...huh!

A bathroom scene, hospital visit, and one blue room later and we end book one...

Julie says

This is surprisingly a very interesting story & I'm drawn in! Cadence is a hooker & she really isn't apologetic about it - her career goals are to leave her pimp & break out on her own. But her pimp gives her one job to complete first before he'll cut the strings from their business relationship. In an upscale hotel there are two penthouse suites & unfortunately her pimp gives her the wrong suite number which leads us down a problematic road for Cadence. She meets John Cruze, a beautiful sexy man & she wonders what the catch is. They end up having a rather normal sexual experience, almost romantic and definitely very hot with lots of chemistry! A little mishap on a slippery bathroom floor lands Cadence in the hospital where she discovers exactly who John Cruze is & he is most definitely not the man who was to be her john that night. Now her pimp is suffering the consequences of the mix-up & threatens Cadence's life. Cadence's real john is John Zane, not bad looking, definitely knows his way around a woman's body but he is extremely kinky. And

when the story ends you get the sense that John Zane is very dangerous & Cadence could very well be in danger. Will she ever see John Cruze again? It is obvious that he is infatuated with her & one night might not be enough. Will he seek her out? Can he save her? Can't wait to read book #2!!

Lori says

You know that Robin Thicke song? Blurred Lines? Yeah well I had that song in my head when I downloaded this book... then I had it in my head at certain parts during the book... all I'm gonna say is "But you're a good girl" *giggles*

Cute start to another serial series even though I hate serial series!

Pam says

3 stars

"We all work to earn a living, I just do mine on my back."

Twenty-year-old Cadence is a prostitute , all she wants is to be free of her pimp and go back to school, her dream is to get her degree in Business. She finally has her chance, one more night and she's free, all she has to do is stick to her rules.... Easy, right??? No.

How can the most important night of her life, lead her to one man who makes her feel things she shouldn't feel then thrown into a whirlwind of misunderstandings and into a bigger debt she isn't so sure she can get her way out of.

Blurred Lines Vol.1 is a short erotic read, think of it as a grittier, kinkier younger Pretty Woman. It was interesting enough that I picked up the second volume.

A. Cook says

A little edgy *Pretty Woman* anyone?

This was a quick read that I didn't want to end. The opening to **Blurred Lines** is so in your face, there isn't any easing into what our female lead does for a living. Cadence is getting out of the *business* and all she has to do is finish one more job without screwing it up. Sometimes fate and chance have their own ideas about what path or room we end up in. Now, Cadence has found her prince ... her Richard Gere, but she gained a very pissed off pimp. Overall a good read.
