Bonds of Cupidity

Raven Kennedy

Bonds of Cupidity Raven Kennedy

Note to my stupid cupid self: The next time I go and anchor myself to a hot covey, make sure those anchors aren't about to compete in a fight to the death.

Yeah. Total downer.

I have a body now and I don't intend to lose it. I also don't intend to lose the genfins that I've grown so attached to. So it's time to return to the kingdom island and hope like hell that my guys make it through the royal trials of the culling. I also have to hope that the prince of the realm doesn't spot me. If he does, I'm pretty sure I have imprisonment and torture to look forward to.

But we can make it through this. I know we can. I'm at least 70% sure we can, anyway. Okay, maybe it's more like fifty-fifty. But after we do? Well, my to-do list is long, but convincing my genfins that they belong with me is pretty high up there. So is dessert. And trying some fairy wine. And skinny dipping. Also sex. Lots and lots of sex.

But mostly, I just want what I've always wanted—to have love of my own. Wings crossed that the genfins get on board with that plan. This cupid has her work cut out for her.

Author's note: This is the second book of the Heart Hassle Series, so there is a cliffhanger. Be warned. This is a reverse harem story and includes sexually explicit scenes and mature language. Intended for ages 18 years and older.

Jamie (The Kansan Reader) says

A fucking cliffhanger!!!!

I love this one more than the first one. Emelle is still hilarious.

With the culling happening she has to find a way to stay with her genfins without fading back into the veil and not get notice by the prince.

Of course this has to end in a cliffhanger. Which highly pisses me off. Now I have to wait till the third book comes out which I don't think there is a date for that yet.

Dammit!!!

This sucks... I hate waiting.

Rebekah Jays says

Noooooooooooo!!!!

Why do you tease me so with that ending Raven ?? I love it ? I'm in stitches all over again from emelle and her covey, can not wait for the next book ??

Jennifer says

[when her genfin guys survive the trials, they are portalled too far from her to maintain the anchor connecti

Kelly says

[I was hoping to see Belren again and I wasn't disappointed! I loved him (hide spoiler)]

Crazy for Books (Stephanie) says

I knew I shouldn't have started this series. Now I'm really pissed off that I can't read the next installment, and I have no idea when it's due, based on the author's webpage or Goodreads. There's no indication of when it will be available. UGH!

Interestingly there is a big leap from book one to book two. The first book, is quirky, fun and different.

Alternate realities, veils, fae, etc. Then the second book has more fighting and sex. Don't get me wrong, I liked it. But it kinda felt like the author had one vision in mind in book one and deviated in book two, though you knew Emelle was going to end up with the three genfins, it just didn't get as sexual as it ended up getting until towards the end of the second book.

But I need to know what happens next. Was the Queen involved with the attack? What happened to Okot? I really want the next installment.

Jessica says

3.5 Stars? 3.75 stars.

RTC for both book 1 and 2.

Natalie says

AGHHHH!!!!!! What was that ending???? I don't think I can stand waiting for the third book to come out. I need to know what happens nowwwww ?

This book was even better than the first. There was more sexy times and, of course, Emelle's constant blabbering and witty humor. I laughed so hard while reading this. We got to see new side of Ronak and we got a completely new mate (who is just as hot at the others ;) L

While I totally love Okot I really don't like their relationship. Just because they're mates doesn't mean they're sooo in love with eachother. They barely just met and they act like they live for eachother. Where's the getting to know you slow burning romance? I don't like this insta love crap. It doesn't feel as real as Emelle's relationships with her genfins.

Emelle is her same old hilarious self. Blowing Lust Breathes everywhere was freaking hilarious (I love these Cupid power names BTW) But I wonder what's going on with her and the changes she's going though. Is she becoming something else? Is she not a Cupid anymore? And more importantly WHAT IS GOING TO HAPPEN TO HER??!!

Oh and random note: I love how they guys use chocolate to shut her up. They just shove chocolates in her face and she forgets all about whatever she was talking about. Emelle is my new spirit animal ? (or is it spirit Cupid? ?)

Camila Rodriguez says

Honestly not sure how to rate this. I'll compile a list of the good and the bad. I'm in a shitty mood today so I'll start with the positives. *smiles manically*

The good:

1. so much *action* and adventure. Seriously loved the plot.

2. LOVED Okot. His introduction was rather abrupt but he quickly became my favorite man of the harem.
3. The twists and turns were amusing if not unexpected. My predictions were way off and I liked being caught off guard.
4. We saw more of the Prince and Princess.

The bad:

1. SO HELP ME GODS IF I SEE THE PHRASE "stupid cupid" ONE MORE FUCKING TIME. The Veil will feel my rage.
2. I feel like she was infinitely more stupid and *pinches nose to make squeaky voice**flippant valley girl* in this book. It's like she took the dumb and dialed it up 1000000%. Was *NOT* a fan of this. She wasn't nearly that idiotic in book 1. What the hell?
3. Two words, **cliffhanger ending**. Way to fucking go Raven, ya lost me. Jk I can't wait for book 3 but seriously why you gotta do us like that? We've been good readers.
4. We saw more of the Prince and Princess. (view spoiler)

I am left wanting more and infinitely annoyed. Let's start a riot. Book 3 needs to come.

Roxana says

DNF @20% ..the heroine is giving me a headache

Monty Cupcake ? Queen of Bloodshed ? says

Funny one again. Still reminds me of the Four Psychos series, but less angsty and with a Cupid. I'll be reading book 3.

Also, Emelle is completely right about running (why do it) and chocolate (should always eat it). Her favorite things are sleeping and eating. ❤️?❤️?❤️?

Namera [The Literary Invertebrate] says

UPDATED REVIEW

Okay so I went back to it after literally HALF A YEAR and I somehow got through it??? Still don't like Okot but I do love the genfins and Emelle.

ORIGINAL REVIEW

I just CANNOT find Okot attractive. I'm deeply not a nose ring kinda girl. Very disappointed, since I loved the first book.

Abi says

4.5 stars. I stayed up far, far too late reading this. While I enjoyed book one, this book was even better. Okot is one hundred percent my favorite character besides Emelle. The ending definitely left me shaken. I can see what other mean about the Four Psychos and Curse of the Gods similarities. I like this better than Four Psychos, but Curse of the Gods is still my favorite RH series.

Alaina says

Good.. but the first book was better.

Spoilers below.

Bonds of Cupidity finally gave me the action that I was looking for: smut-wise that is. I was so happy that she finally bonded with the guys BUT I didn't really like the bull guy being thrown into the mix. I feel like I have a lot of trust issues with people in this book and I don't like that. Also, what's with these freaking cliffhangers? I need the next book and I have no idea when that will become a thing that I can read.

So much happened in this book. First the guys have this culling, Emelle may or may not have found an actual mate, everyone admits that they want to become mates, there's an orgy, and a lot of betrayal going on. Yeah, a lot happened. My hatred towards the prince has been pretty constant. He's still a douche and I can't wait for him to die. Then this book had some twists and drama added to it.

We finally meet the guy's first "love" but not really 'cause she's a very selfish bitch and I'm so happy that Ronak has seen the light with her. He rejected her. Flat out. His animal even did it too and I loved everything about that scene. The whole mating ritual for these guys was intense - a whole freaking week of fucking guys. After all of that, Ronak is the first to get his wings - which everyone didn't think was possible. So now I'm wondering if she could potentially have their babies? Or babies in general?

Then there's that ending, I have so many questions about that. Will the guys be able to feel what happened to her? Will they be able to find her? Will she be able to find a way back to them? SO MANY QUESTIONS.

Al *the semi serial series skipper* says

This series keeps getting better and better. Emelle is a nice blend of witty and viciousness which is totally amazing. I can't wait until the next book.

Gaby★Me Myshelf and I★ says

Impromptu buddy read with the other impatient girls at Reverse Harem Revolution - **sometimes the best things happen when you don't plan for it!**

This is all fun, fluff and flirty! If you're looking for a serious thought provoking book then *back away* slowly

That's right back away from the room filled with rainbows it's not for you

Another surprise this continuing to be entertaining! I really didn't expect to like this series and I'm **so into it**. It maybe even deserves the 5 but I'll stick with my gut on the 4 because the beginning was a bit *iffy* . The introduction of a red haired bull kinda threw me but after a few chapters **I was sold**

It's left on cliffhanger but we were warned so it at least wasn't a surprise but I am still dying for the next
