### **Janice says**

This book is called a prequel to a series, and is a very fast and easy read. I enjoyed the setting, in the southern Sierra Nevada mountains. The main character is a deputy with Native American heritage; she is interested in learning more about her ancestry while trying to solve a murder.

### **Lorna Collins says**

How nice to learn the backstory on Deputy Tempe Crabtree and Hutch. Also a nice introduction to Nick Two John and the Inn. This is another well-written mystery by a first-class mystery writer.

### **Sandy Duke says**

A fast paced, quick read. The prequel to the Tempe Crabtree series.

### **Quetzi Fernald says**

I found out this book is actually the prequel to the Tempe Crabtree series so I'm half way through it & it's just as good as the other two I've read only Tempe & Hutch (Bear Creek's town Preacher) aren't married yet. Here Hutch is trying to set the date inbetween a murder case. Tempe struggles with her job as Deputy Police of Bear Creek. I love all the drama that's playing out in this book & series.
