After solving a murder, gift shop owner Stormy Day is famous in Misty Falls. Unfortunately, she's still dateless.

When she lets a mysterious fortune teller offer romance advice, Stormy is drawn into a world of deception. When a body shows up, more secrets and lies follow, confounding the investigation.

Even Jeffrey, the mischievous Russian Blue cat, seems puzzled by the Death of the Crafty Knitter. As Stormy races to find the killer, the danger escalates, bringing the amateur sleuth and the cold-blooded killer face-to-face for a startling climax.

Oh Stormy Day! Once again, it seems that trouble has found its way to you. I enjoyed this book just as much as the first. The plot and the characters were well-developed and so intriguing.

In this book, Stormy once again stumbles upon a murder and of course her curiosity gets the better of her and she embarks on solving the case. This time around, she has a partner-her dear old dad. Those two were great together. I loved the banter and their relationship was so sweet and special. The shenanigans in this book were so much fun. A great combination of humor and mystery. There were definitely a lot of moments that I was not expecting and just added to the overall element of the story. Angela really keeps you guessing about where and how this will all go. I loved that in a book.

I really hope that something develops between Logan(sexy neighbor/tenant) and Stormy because I do think they complement each other well.

Overall, this story was fantastic and I was intrigued with every page until the end. This was another hit in the Stormy Day series and I am excited for more to come. I wonder where this series will go next.

DEATH OF A CRAFTY KNITTER is the second book in the Stormy Day Cozy Mysteries series. Though each would stand on their own, it is better to read them in the order of release.

I love cozy mysteries and when they come from Angela Pepper it's is even better.

Stormy Day, Jeffrey Blue (her cat), Fine Day (her dad), and Logan (her neighbor/tenant) may be my favorite characters this year. I love the banter, wit, and humor that keep them all going. Life can be so serious, it's wonderful to find people – even if they are fictional – who can lighten up about themselves or the situation. They make mistakes, they learn from them, and they move on to the next step in the process of solving the mystery.

I'm looking forward to more stories from Stormy Day and Angela Pepper.

I am loving this series! Its fresh, full of good humor & real relationships. I relate to Stormy. I am so glad that I found this series & that more is on the way. Thanks Stormy for a great read.

I got this book for free. It's the second book in a series, and I haven't read the first one. I found the beginning of the book a bit confusing, as it didn't do too good of a job introducing the characters/setting to new readers. I also felt the ending was rather rushed, and the motive for the crime was unsatisfactory to me. Still, I enjoyed the book enough that I would read it again, and I'm curious about the first book and might seek it out.

Another funny Stormy Day mystery! Stormy seems to get herself into a lot of trouble. In the first death of book she found a snowman who turned out to be her fathers neighbor.

In this book it's New Years Eve and Stormy and her friend Jessica are meeting some other friends at the local pub, The Fox and Hound for a celebration of the New Year!

What they did not know is that they were going to run into the local Voodoo lady of Misty Falls. She got into a fight with the waitress and ended going home early after a brief meet and greet with Stormy in the restroom.

Stormy was invited to meet the Voodoo lady for a meeting at her house the next day. When Stormy got to her house, she found her dead body.

Of course, Stormy has to get involved and get her retired cop father in too.

This book was well worth the reading I did not have any idea who dun it until the very end. I have the next book ready to start, which will be very shortly.

### **Tangles and lies**

New Year's has come round really quickly and together, with her father, they have decided to set up a PI business. Especially as a newcomer to the community has ended up dead and she found her! Although it should have been easy to find information, there seemed to be a lot of lies and half truths around. When a friend is arrested they cannot reconcile what they know about her to a cold hearted killer. Fraud schemes, infidelity and general cons abound as the two stretch their relationship to the limit. Can they find the real killer? Will she fall for the cute dimples or the more mature neighbour? A good plot. Again a bit obvious but

nevertheless a good read as you get a more in depth look at the characters.

What happened? I enjoyed the first book in this series (nothing earth-shattering, just a rather fluffy murder mystery). I was doing okay with this one until about two-thirds through, and suddenly the writer just fell apart or was consumed in an Invasion-of-the-Body-Snatchers type incident. And the title of this book has next to nothing to do with the actual story. I wanted to like it.

Misty Falls, Oregon, is probably only surpassed by Cabot Cove, Maine, for number of murders per capita. And *Murder, She Wrote* is exactly what this series reminds me of. While *Stormy Day* is not a retired English teacher like Jessica Fletcher, she does have a knack for figuring out who-done-it. That's not surprising since she's the daughter of a retired cop. I really like this character, but I fear her love life will play too big a part in later books. I love these quick reading cozy mysteries. I do not like romance novels. Here's hoping for more murders and less love (but only in the fictional world).

### **Ukgardenfiend says**

Voula Varga (!) hosts a knitting club and does (fake) psychic readings. And she drives a hearse.

Misty Falls of course continues with its set of characters and hinky doings. But why a murder?

Apart from that mention of a knitting circle we hear no more about knitting in the book and it turns into a fairly standard cozy mystery. In fact the knitting club does no knitting just natter and tea and readings. Title a mis-nomer.

Book 1 in the series much better.

Loved it!!!! What a fun and exciting page Turner

### **J.P. Lundstrom says**

Well. the story was even weaker than the first in the series--I don't plan to read numbers three and four. I was hoping more interaction between the main character and her tenant/love interest, but it was not to be. Instead we get weaker and weaker interaction with less and less interesting characters, who never really have an impact on the story. Too bad.

### **Good but not as good as the first**

Stormy is adjusting to Misty Falls and settling into her life when an act of kindness gets her tangled up in another murder. The story is good, though just not as good as it's first though the author does get more of the old feel towards the end.

## **Hibi says**

The first book of the series was one of my all time favourite reads so maybe I held the standard too high for this second one. It just was missing all of the things I loved about the first: the horrible puns, sarcasm and facetiousness that never let up in certain situations to great annoyance of a character, the laughing-out-loud moments, etc.

Whatever the reason, this one was a disappointment for me.

I should actually give this book four stars, even if it is a lightweight cozy mystery. It was very likeable, despite the protagonist's name, "Stormy Day" (groan!). This is second in Angela Pepper's "Stormy Day" series, a freebie from Bookbub. Some quotations I marked:

"[M]emories aren't photographs. They're more like watercolor paintings, and every time you visit a memory, you're going in with a wet brush and more paint, coloring and altering it with your changing perceptions, influencing it with your desires."

"But I was thirty-three, and I'd had enough life experience to know that 'I was just joking' is what a man says only after you've called him on his lascivious behavior." [Ain't that the truth!]

"Plenty of things are right in front of us, hiding in plain sight, because most people are so busy with their thoughts or their phones, they don't take the time to look."

". . . thinner than margarine at a butter convention." [snicker]

"In the car ride back to my place, Jeffrey [Stormy Day's cat] sang me the songs of his people. I asked him if he took requests, and if he knew 'Free Bird.' He did not." [Har har!]

### **Stormy Day is a great character**

I love her investigative skills that are getting better each time she stumbles onto a dead body. She is clever and has a wonderful relationship with her cat, Jeffery blue. That cat has a very cute personality and makes the book even more enjoyable.

She is living next door to Logan the lawyer from the first book and although they are drawn to each other they have not moved beyond the landlord tenant relationship. There are some emotions that come through, but they have not really expanded on them.

Mr.Finnegan Day is featured in this story and as a former policeman in the city he still has a few connections. Those seem to come in handy as Stormy and her dad look into this murder. It is a fun cozy mystery and I plan on continuing to read the series.
