[Siren Everlasting Classic ManLove: Erotic Alternative Sci-Fi Romance, M/M, sex toys, HEA]

He wasn't what he seemed...

As a chronic worrier, Jodi Weiss has plenty to occupy his mind when he's abducted, sold, then given to a massive alien with a brutal appearance. Convinced he'll be used and tossed aside, Jodi is floored when he suspects that Sevaleth doesn't have any more experience with sex than he does.

Since all Sevaleth Oluwen has known is war, he's at loose ends when he retires, but then he sees Jodi. Instantly smitten, Sevaleth doesn't want Jodi in his bed by force, so he embarks on the daunting task of seducing him. The only problem is Sevaleth has no idea how or where to start.

As the two fumble to find their way in the bedroom, strong emotions are sparked. But just when they seem to be falling in love, their idyllic existence is threatened by a warrior hell-bent for glory.

Serena Yates says

The seventh book of the series tells the tale of Jodi, who worries a lot, but solves his problems through observation, and Sevaleth, a retired hero who is supposed to be tough and macho, but longs for love and a partner to spend his days with. Neither of them have a lot of experience with sex, but both pretend they are 'masters of the 'erotic arts', which leads to some really funny situations. The cultural mindset which forbids a warrior like Sevaleth to ask a question makes him sound as if he's constantly bossing people around, but, luckily, Jodi doesn't only listen with his ears.

Jodi is a likeable guy who makes friends easily. He cares about people, and fears the worst when he is abducted then sold. Even before he meets his new master, a fearsome warrior from the plane Girakor, he collects information, but it leads him to believe the worst. He still tries to understand Sevaleth, since he meets him, and that is good because things aren't as they seem. Well, Sevaleth isn't. The mutual exploration that follows was both funny and interesting, as these two men gradually learn to understand and respect each other.

Sevaleth is one of the most successful warriors of his planet and one of the few who have survived to retire. He is also extremely bored, and not looking forward to getting drunk every night. When he sees Jodi for the first time, he knows he wants him, but he hates the idea of forcing him to stay. So, in the typical way of a warrior he decrees that Jodi is a Girakor citizen (the two species look uncannily alike) , and sets him free. That, of course, makes it more difficult to make him want to stay. Sevaleth is not one to give up easily!

As ever, the light humor was great, and the cross-cultural misunderstandings and discoveries were interesting as ever. If you like stories about alien cultures, if you enjoy reading about two stubborn men who fall in love but have to learn the 'mechanics', so to speak, and if you're looking for another hot read in this very entertaining series, you will probably like this book.

I actually really enjoyed this book. Both MC's don't quite know what they are doing in the sex department. Sevaleth wishes for more.. on his world, there is no questions asked by heros, they are to take what they want but he wants so much more. He gets that when he 'frees' Jodi from slavery, both of them taking it one step at a time.

COMPLAINT: Girikors are sooo similar to humans I find it hard to consider them aliens. We get the whole alien experience within the world but not with the characters. Then when a Krase shows up and that is another sore point of the book. The Krase have always seemed honorable and fair but strict. This Krase warrior did not come across this way to me.

I must say I'm shocked that the average rating of this book is currently at a 2 ! I'm totally hoping that changes! I don't think this is the Best in the series but it definitely held its own. The MCs were well matched and their relationship believable.

My issue with this book was the lack of angst or conflict with the characters. There was no instances of miscommunication. To me its necessary for the relationship to be in jeopardy in order for a successful ending. How can you really feel joy for a couple that has had no obstacles? So in that regard I was disappointed.

I don't feel its fair for the author to rely on the same situation of conflict (the human stolen from earth therefore the krase warrior shows up and conveniently forgets to explain its no big deal EVERY SINGLE TIME) because we as readers already expect that. Therefore that is no surprise to us and cannot be counted as the conflict within the plot.

However that is just my opinion.

Aww. That was just utterly sweet!

I immediately liked Jodi. No question. He's so very young and average and nice.

And Sevaleth? He had me when he talked to the ceiling painting but his conversation with the *tataan* sealed the deal.

And ah, that's so funny. It isn't even Honor's book yet but he's so clearly under the thumb of any human he meets. I suppose the experience a few books ago that made me cry affected him as well. Ha!

Well, that or the slightly more likely notion that something seems to have occurred parallel to this story.

Either way, I'm happy.

This is a really sweet, thoroughly satisfying romance, taking its time and being cute about it. In fact, I can't think of a single thing to complain about. :D

Okay, one – and it isn't even a complaint. I'm just wondering. Is *fishes* really the new plural of *fish*? XD

It really sucks that when I like a book this much it condenses to merely a brief note, while the bad ones trigger grumblings of epic proportions.

Not as great as the last one. A bit boring since there's really no new concept, just the same old thing that's recycled. I hoped the author mixed it up like the last book. Plus the cover art is really awful.

Ugh, this was awful! I thought it would be campy and over-the-top and silly and fun, but it was bland and utterly uninspiring. The plot was wishy washy and lacked focus.

1.5 stars, rounded up for the cat.
